Spring 2016 Class Schedule

Spring Registration is now open

FCC is proud to offer a dynamic selection of Continuing Education & Workforce Development classes this spring.

Continuing Education features personal enrichment and lifelong learning classes to enrich and educate students of all ages.

Workforce Development presents flexible, affordable and rewarding career training opportunities with industry-recognized coursework at state and national levels.

Join us for expert-led courses designed to fit your schedule and your budget. Choose from day, evening, weekend and online options and enroll today.

Browse our schedule and register online!

www.frederick.edu/QuickEnroll

Please note: courses requiring prerequisites and/or program manager approval may not be available for online registration. Please see course details for complete information and registration guidelines. To register in person at FCC, visit Jefferson Hall, J-101, to complete a registration form. Payment may be made by cash, check or money order. A self-serve kiosk is available to accept credit card registrations.

On the Cover: Nicole Cameron, a Licensed Graduate Social Worker, teaches Adult Basic Education at Frederick Community College. Well known for a warm and welcoming classroom environment, Nicole's positive outlook and encouraging support of her students stems from her belief that human interaction is an essential element of learning. The results continue to be positive.

"Students sometimes arrive hesitant and unsure, but I firmly believe my job is to inspire and motivate. They often finish with their heads held high, ready to take the next step in their educational journey. FCC has positively changed my life and the life of my students" – Nicole Cameron, LGSW, FCC Instructor

For more information about Adult Education programs, see page 57, visit Frederick.edu/AdultEd or contact us at 240.629.7962.

Careers & Business

ACCOUNTING, BOOKKEEPING & FINANCE

Accounting Fundamentals

Demand for accounting professionals currently exceeds supply. If you're interested in increasing your financial awareness while also gaining a marketable skill, this course is for you. You'll learn the basics of double-entry bookkeeping, as well as how to analyze and record financial transactions. You'll get hands-on experience with handling accounts receivable, accounts payable, payroll procedures, sales taxes, and various common banking activities. We'll cover all the bases, from writing checks to preparing an income statement and closing out accounts at the end of each fiscal period. Whether you're a sole proprietor looking to manage your business finances or you simply want to gain an understanding of accounting basics for career advancement or for personal use, this course will give you a solid foundation in financial matters. **Course Revised November 2014**

Note: Classes start the second Wednesday each month. During the registration process you will designate the month that you chose to begin the class. You will have six (6) weeks from the class start date to complete the class.

ONL223 | 24 hours | \$109 fee

INSTRUCTOR: CE Instructor

5916 Online 2/1-6/3

Accounting Fundamentals II

While it is true that accounting professionals are scarce, those with corporate accounting experience are even more rare. This course will build on the knowledge you gained in Charlene Messier's online *Accounting Fundamentals* course (or another introductory accounting course) to provide you with a solid understanding of corporate accounting practices. In *Accounting Fundamentals II*, you'll explore such topics as special journals, uncollectible accounts receivable, plant assets, depreciation, notes and interest, accrued revenue and expenses, dividends, retained earnings, and various financial reports for corporations. If you're interested in increasing your financial awareness and accountability while also gaining a marketable skill, this is the course for you. **Course Revised February 2015**

Note: Classes start the second Wednesday each month. During the registration process you will designate the month that you chose to begin the class. You will have six (6) weeks from the class start date to complete the class.

ONL224 | 24 hours | \$109 fee

INSTRUCTOR: CE Instructor

5919 Online 2/1-6/3

Intro to QuickBooks Pro

Discover management tools for running a small business, a home office or your personal finances in the 2014 version of QuickBooks Pro. This class offers hands-on instruction in basic functions and record keeping for all types of small businesses. Topics include cash receipts, disbursements, invoicing, payroll, job costing, financial statements, and more. Instruction is by an experienced CPA. Prerequisites: Familiarity with basic computer skills, keyboard, mouse and use of Windows. Text should be brought to first class and can be purchased at the FCC bookstore.

SMB209 | 21 hours | \$299 (\$189 tuition + \$110 fees)  

INSTRUCTOR: Douglas Maddox

7751 W 8:30 a.m.-4:30 p.m. 2/10-2/24 FCC/E100

7752 MW 5:30 p.m.-8:30 p.m. 4/25-5/16 FCC/E100

Introduction to QuickBooks 2013

Learn how to quickly and efficiently gain control over the financial aspects of your small business with this powerful accounting software program. In 12 lessons, you'll master the tools you'll need to set up a chart of accounts; reconcile your checking account; create and print invoices, receipts, and statements; track your payables, inventory, and receivables; create estimates; and generate reports. With QuickBooks, you get the same ease of use of Quicken coupled with a more traditional approach to accounting to meet the needs of small to mid-sized businesses. Whether you're new to QuickBooks or have already used earlier versions of this accounting software program, this course will empower you to take control of financial accounting for your business. **Note:** This course has additional software requirements.

Note: Classes start the second Wednesday each month. During the registration process you will designate the month that you chose to begin the class. You will have six (6) weeks from the class start date to complete the class. You will receive an email with directions on how to access your class.

Intermediate QuickBooks® 2013

Learning how to use QuickBooks to its full potential goes far beyond learning the basic features of the program. Even many experienced QuickBooks users often struggle when applying certain business situations to QuickBooks. In this course, we'll go beyond the basic introductory concepts and you'll learn how to utilize many of the more advanced features and applications. You'll learn how to manage multiple company files and how to export and import list data from one file to the next. If your business handles inventory, you'll learn how to enter price levels and track discounts and credits. You'll even learn how to enter and track mileage that you incur on any vehicles that you use in your business. This course also covers many other common topics that small business owners encounter. You'll learn how to create customer statements, assess finance charges on overdue balances, and write off these past due balances when it appears that the customer is not going to pay. This course is designed for those QuickBooks users who already feel that they have a good grasp on the basics or have successfully completed the Introduction to QuickBooks course. Whether you are a small business owner, bookkeeper, or accountant needing a QuickBooks refresher, after taking this course, you'll feel more confident and secure in accounting for your business. **Note: This course has additional software requirements. Go to frederick.edu/QuickEnroll and click on class title to learn more.**

Note: Classes start the second Wednesday each month. During the registration process you will designate the month that you chose to begin the class. You will have six (6) weeks from the class start date to complete the class. You will receive an email with directions on how to access your class.

7922 Online 2/1-6/3

Performing Payroll in QuickBooks® 2013

Preparing payroll in any small business can be a daunting task. Whether you have one employee or 20, the federal and state requirements are often the same. However, by using the payroll feature in QuickBooks 2013, you can master efficient techniques for creating paychecks, paying liabilities for taxes, and generating dazzling reports quickly and easily. You'll start by learning how to prepare for the payroll process by finding the information you need on the Internal Revenue Service website. Then you'll review all aspects of how to set up and maintain payroll information for your employees in QuickBooks. You'll learn how to track work and vacation time; produce job costing reports; generate W-2, W-3, and 1099 forms; create paychecks; and much more. Once you've mastered the basics, you'll gain troubleshooting tips and solutions to help you solve common problems and mistakes to simplify the whole payroll process. By the end of the course, you'll be ready to process payroll in QuickBooks and solve many of the problems that can pop up along the way. **Note: This course has additional software requirements. Go to frederick.edu/QuickEnroll and click on class title to learn more.**

INSTRUCTOR: CE Instructor

7750 M 6:00-8:35p.m. 3/28-5/9 FCC/C206

How Resilient Will You Be Following a Cyber Attack?

Are you prepared to repel the cyber attack that is coming to your business? Computer based attacks are increasing in frequency and complexity. Every business (and home) which uses a computer is a target for data theft and unauthorized information disclosure, which lead at best to interruption and at worst to the loss of the business. This course will disclose common methods used by computer-based attackers and share approaches and technology used for threat mitigation and response. Natural disasters pose a similar threat and require a solid emergency plan in order to mitigate data loss and prevent business down-time. This course will arm you with the information you need to prepare a solid continuity of operations plan and tailor it to known potential threats in the Maryland area.

SMB290 | 3 hours | \$139 (\$110 tuition + \$29 fees)

INSTRUCTOR: Eric Beasley

7754 F 1:00–4:00 p.m. 3/11 FCC/E104

7755 Th 5:30–8:30 p.m. 5/12 FCC/E106

Administrative Assistant Fundamentals

Rapid growth in the health, legal services, data processing, management, public relations, and other industries have created many new job opportunities for administrative assistants. This course will help you discover and master the essentials of managerial and staff support, information and records management, communications technology, travel and meeting coordination, space planning, and office ergonomics. You'll become an indispensable member of your team by identifying opportunities and implementing solutions to turn your office into a high productivity machine. This course and its follow up (Administrative Assistant Applications) may help you prepare for the internationally-recognized Certified Administrative Professional exam offered by the International Association of Administrative Professionals. *Note: This course is not affiliated with, nor has it been endorsed by, the International Association of Administrative Professionals.*

Note: Classes start the second Wednesday each month. During the registration process you will designate the month that you chose to begin the class. You will have six (6) weeks from the class start date to complete the class. You will receive an email with directions on how to access your class.

7934 Online 2/1–6/3

Administrative Assistant Applications

Discover how time management, accounting, business law, organizational behavior, and management affect administrative assistant responsibilities and activities. Learn the basics of accounting, including the general ledger and key accounting terms, and see how financial statements and controls help keep your organization moving in a positive direction. Understand the fundamentals of business law, contracts, and the principal-agency relationship; discover ethics and organizational politics; and understand the basics of human resources management. Also, discover key management functions such as planning, control, motivation, and organization, discover how to increase creativity. Plus, find out how marketing differs from sales and learn the basics of operations management. This course may help you prepare for the internationally-recognized Certified Administrative Professional exam offered by the International Association of Administrative Professionals. [®] *Note: This course is not affiliated with, nor has it been endorsed by, the International Association of Administrative Professionals.*

Fundamentals of Supervision and Management

If you have recently been promoted to a supervisory or management position or want to learn how to become a more effective manager, this course will help you master the basics of business by learning the language of management. You will learn how to make a successful transition from employee to manager and you'll learn how to manage your time so that you can deal with the constant demands of a managerial job. You will learn the skills required to delegate responsibility and motivate your employees. A large part of a manager's job involves getting things done through other people, and this course will help you understand how to influence and direct other people's performance. Finally, you will learn how to solve problems and resolve conflicts so you can accomplish your job more effectively. This course is a good choice for those looking for project management experience and those aspiring to obtain a PMI credential. It's also an excellent choice for existing PMI credential holders looking for an approved activity for PMI's continuing certification PDUs. At the end of this course, you'll receive a certificate indicating your completion of Project Management Institute (PMI) PDUs equal to the number of hours of this course.

Note: Classes start the second Wednesday each month. During the registration process you will designate the month that you chose to begin the class. You will have six (6) weeks from the class start date to complete the class. You will receive an email with directions on how to access your class.

Fundamentals of Supervision and Management II

What does a supervisor or a manager need to know? Have you ever felt technically prepared for a supervisor's role, yet felt defeated by all of the people issues that seem to arise? In this six-week online course, you will learn how to be a more effective manager or supervisor. You will master the basics of communication, because effective communication is essential in your quest to be a good manager or supervisor. In addition, we will discuss how you can develop your interpersonal skills, by understanding and dealing with the various people issues that arise at work. We are going to show you how you can understand various personality traits—in yourself and in others—and how they impact the ability to get the job done. These traits include emotional intelligence, the need for power, conscientiousness, agreeableness, and more. You will be able to assess your own personality, as well as the personalities of your co-workers and boss, and you'll develop a plan of action to improve both your interpersonal skills and your work relationships. This course is a good choice for those looking for project management experience and those aspiring to obtain a Project Management Institute credential. It's also an excellent choice for existing PMI credential holders looking for an approved activity for PMI's continuing certification PDUs. At the end of this course, you'll receive a certificate indicating your completion of PDUs equal to the number of hours of this course.

A to Z Grant Writing

A to Z Grant Writing is an invigorating and informative course that will equip you with the skills and tools you need to enter the exciting field of grant writing! You'll learn how to raise needed funds by discovering how and where to look for potential funders who are a good match for your organization. You'll also learn how to network and develop true partnerships with a variety of funders, how to organize a successful grant writing campaign, and how to put together a complete proposal package. This course speaks mainly to nonprofit organizations, schools, religious institutions, and municipalities seeking grants from foundation, corporate, government, and individual donors. It's also an excellent primer for individuals wishing to become grant writing consultants or community grant writing volunteers. Many of this course's elements also easily translate to the for-profit field and to individual artists, and material specifically designed for businesses and individuals is included. No matter who you are or what level of experience you have, you'll find the A to Z of writing and submitting successful proposals here!

Note: Classes start the second Wednesday each month. During the registration process you will designate the month that you chose to begin the class. You will have six (6) weeks from the class start date to complete the class. You will receive an email with directions on how to access your class.

PROFESSIONAL DEVELOPMENT

NEW! Solutions for Today from the Wisdom of the Past

Your challenges in the workplace may sometimes seem overwhelming, but they are not unique. This series looks at success stories from internationally-recognized leaders from the World War II era. They, like managers today, had to deal with shortages of resources, the need to build morale, political roadblocks, and the challenge of guiding towering egos into a common goal. This series of three half-day seminars allows you to assess your own strengths and those of the people with whom you work, harness powerful communications tools for your workplace, and strengthen your own workplace teams.

Three part course including MGT371 Boosting Morale in Tough Times, MGT317 Building Workplace Relationships, and MGT318 Understanding Workplace Talents and Personalities. Take all three at a discounted price.

MGT319 | 10.5 hours | \$369 (\$299 tuition + \$70 fees)  

INSTRUCTOR: Antagoni Ladd

7932 F 8:30 a.m.–12:00 p.m. 2/12–2/26 Monroe Center/MC152
7933 F 1:00–4:30 p.m. 4/22–5/6 Monroe Center/MC151 or MC152

NEW! Boosting Morale in Tough Times

“These are not dark days, these are great days; the greatest days our country has ever lived; and we must all thank God that we have been allowed... to play a part in making these days memorable.” – Winston Churchill

In times of change, reorganization, budget cuts, downsizing, new management, even moving the office, employees lose focus, and productivity declines. Dealing with employee emotions, from anger to loss of interest, requires managers to ramp up their communications to help people re-engage with the organization’s mission, and not dwell on their own feelings. Through historic examples from Winston Churchill in World War II, you will learn communications tools that you can apply to your own workplace. By comparison with the shortages of war-time England, your problems should seem manageable. So step back in time, study the master of communications, and begin drafting a plan to pull your employees into a confident, focused team once again.

7746 F 1:00–4:30 p.m. 4/22 Monroe Center/MC151

NEW! Building Workplace Relationships

"We succeed only as we identify in life, or in war, or in anything else, a single overriding objective, and make all other considerations bend to that one objective." – Dwight D. Eisenhower

Eisenhower faced a daunting assignment when given command over the Allied forces for the D-Day landings in World War II. His team would be made up of experienced commanders (all with more combat experience than Ike) from various military services (navy, army, air force) and from several nations. Each nation had its own priorities for recapturing European soil from the Germans, and each military service had its own working style. The commanders, used to running their own operations, brought towering egos and strong personalities to the new Allied team. How would Ike ever reach consensus on issues, much less forge a working team for this complex operation? He did it and so can you. Join us to learn how communication, engagement, and relationship building results in organizational success.

MGT317 | 3.5 hours | \$139 (\$109 tuition + \$30 fees)  

INSTRUCTOR: **Antigoni Ladd**

7737	F 1:00–4:30 p.m.	4/29	Monroe Center/MC152

NEW! Understanding Workplace Talents and Personalities

Have you ever wondered why you work really well with some people and seem to clash with others? Each of us has a natural style of thinking, processing information, problem solving, and communicating. Often workplace conflicts arise simply because communications are misunderstood. For a manager, trying to improve productivity and maintain harmony building smooth relationships can be a challenge. In this program, you will assess your own personality style and recognize the traits of those around you. Managers will learn to weigh the talents and skills each team member contributes. You will learn how to show appreciation for the diverse personalities around you and begin building team cohesiveness. Using historic role models Eleanor Roosevelt and Gandhi, along with Churchill and Eisenhower (from the earlier sessions), you will see how different personalities can be equally effective, though they exhibit different behaviors and styles. DiSC personality assessment concepts will be used.

Praxis Core Preparation

Are you a prospective teacher who needs to pass the Praxis Core Exam? Have you already attempted the Praxis Core and not been successful? If you answered yes to either of these questions, then this course is for you! You'll develop all the skills you need for the test as we review and prepare for everything it includes. You'll get familiar with the different types of questions that appear on the reading and writing tests. You'll master the many areas of math that you'll be tested on: number operations, negative numbers, exponents, square roots, order of operations, decimals, fractions, percentages, algebra, geometry, systems of measurement, and probability and statistics. To prepare for the two essays, we'll discuss what constitutes high scoring essays. We'll also go through the process of writing each essay in the amount of time allotted. You'll learn useful test-taking strategies and get plenty of practice questions that are similar to what you'll find on the exam. You'll also have the opportunity to take a full-length practice test in each subject area. Using clear explanations, numerous examples, graphics, animation, and videos, this course will not only prepare you for the Praxis Core, but do so in a way that's fun and interesting. After completing this course, you'll be totally ready to pass the Praxis Core Exam! **Course Revised May 2015**

Note: Classes start the second Wednesday each month. During the registration process you will designate the month that you chose to begin the class. You will have six (6) weeks from the class start date to complete the class.

SHRM-CP and SHRM-SCP Certification Exam Prep

Business leadership has changed over recent decades. We now live and work in a global economy, in which geographic borders are virtually non-existent, and innovation, agility and strategy are critical success factors. The HR profession operates at the core of this global economy, ensuring the alignment of organizational strategy with a high-performing workforce. The new SHRM credentials, Senior Human Resources Manager – Certified Professional (SHRM-CP) and Senior Human Resources Manager – Senior Certified Professional (SHRM-SCP), address these new roles. The SHRM-CP and SHRM-SCP encourage HR professionals to acquire the behavioral competencies and knowledge they'll need to effectively perform their jobs and achieve career success. This certification program was built with employers in mind. It will undoubtedly help set the global standard for excellence in HR and aims to grow certification throughout the HR profession. Join fellow HR practitioners to prepare and practice for your certification exam in this 12-week course. You'll learn test-taking strategies, as well as important concepts that are essential for your mastery of the exam's body of competency and knowledge. This course replaces the PHR/SPHR prep course that was previously offered at FCC. Please go to <http://www.shrmcertification.org> for exam information and prerequisites. This course is eligible for FCC's payment plan. Please contact the Student Accounts Office at 301.846.2658 for details. Course material included.

CHILD CARE PROFESSIONAL DEVELOPMENT

NEW! Communication Skills for Child Care Professionals

This course is designed for child care professionals as an introduction to the basic concepts of developing strong communication skills when working in a child care center. Topics include: speaking, writing, interpersonal communication strategies, and critical reading techniques, with a focus on communication with parents and co-workers, and communication issues within a typical child care day. Topics include: practice reading strategies to increase comprehension and retention; apply writing strategies to compose documents related to child care, including lesson plans, parent letters and child observation journals; demonstrate effective communication skills in the child care environment; and utilize a variety of tools to record and communicate critical child information, including behavior, accidents, daily routines, and schedules. This course is part of the Maryland State Department of Education-Office of Child Care -approved training program for child care professionals and is one of the "Continued Training Credit Hour" programs in Maryland Child Care Credentialing content areas required to acquire and/or maintain licensure or certification status. MSDE core of knowledge: Professionalism.

PEST CONTROL

Pesticide Use and Safety

This online course prepares the student for the Maryland Pesticide Use and Safety application certification exam through a thorough understanding of the principles of pest control, including pesticide labeling, regulations, and proper handling. With successful completion of this course with a grade of 70% or higher, Maryland Dept of Agriculture will accept this course as equivalent to 6 months practical experience for those individuals seeking certification as a Pest Control Applicator in the state of Maryland. Completion of this course may be used towards the certification requirements for either pest control categories as defined by the Maryland Dept. of Agriculture.

Note: You may register for and begin this class anytime between the first and last class dates.

Aquatic Pest (Weed) Management

Aquatic Weed Management is a course for pesticide applicators who manage aquatic weeds in the performance of their work. Its purpose is to prepare pest managers for certification in Aquatic Pest Control, Commercial Pesticide Applicator Category 5. Aquatic weeds are managed to protect property, human safety, and aquatic resources. After certification, the course manual will serve as a resource for pest identification and management. Aquatic Pest Management does not cover all pests that occur in or near water. The topics are to explain the need for weed control and the environmental factors that regulate aquatic plant growth; determine weed control methods based on intended use of ponds and waterways; identify weed species and know what part of the littoral zone they occupy; and recognize sensitive areas and situations affecting pest management decisions. This course is approved from the Maryland Department of Agriculture.

Note: You may register for and begin this class anytime between the first and last class dates. Please contact Adrienne Summers at asummers@frederick.edu or 240-629-7987 upon registering in order to gain access to the online class.

Keyboarding

If you want to learn touch-typing or improve your existing typing skills, this is the perfect course for you! In these lessons, you'll use the Keyboarding Pro 5 program, a typing tutorial designed for personal computers, to learn how to touch-type - that is, to type text you read from a printed page or a computer screen without looking at your keyboard. Using Keyboarding Pro's built-in word processor, you'll learn how to create, edit, and save word processing documents. As you improve your typing speed and accuracy, you'll use the word processor's timed writing feature to continually hone your skills. You'll even learn posture tips to minimize fatigue and help prevent carpal tunnel syndrome. With the skills you master here, you'll become faster and more confident at the keyboard. By the end of the course, you'll know how to touch-type the alphabetic, numeric, and symbol keys; create, save, and edit word processing documents; and successfully take a timed writing test during a job interview.

Note: Classes start the second Wednesday each month. During the registration process you will designate the month that you chose to begin the class. You will have six (6) weeks from the class start date to complete the class. You will receive an email with directions on how to access your class.

Introduction to Microsoft Excel 2010®

Do you work with numbers? Then you need to master Microsoft Excel 2010®—and this is the place to do it. Even “non-techie” beginners will find it easy to learn Excel® in this fun, step-by-step online course. These lessons will teach you dozens of shortcuts and tricks for setting up fully formatted worksheets quickly and efficiently. You’ll also learn the secrets behind writing powerful mathematical formulas and discover how to use the function wizard to quickly and automatically calculate statistics, loan payments, future value, and more. In addition, you’ll get tips on sorting and analyzing data, designing custom charts and graphs, creating three-dimensional workbooks, building links between files, endowing your worksheets with decision-making capabilities, and automating frequently-repeated tasks with macros and buttons. This is not a tutorial, but an in-depth class where you’ll get training, help, and personal support from an experienced instructor as you’re learning Excel® basics step-by-step. By the time you’re done, you’ll be using this vital Office 2010 tool like a pro.

Note: Classes start the second Wednesday each month. During the registration process you will designate the month that you chose to begin the class. You will have six (6) weeks from the class start date to complete the class. You will receive an email with directions on how to access your class. Note: This course has additional software requirements.

Intermediate Microsoft Excel 2010®

Take your Excel® skills to the next level! Master charting, PivotTables, Slicers, Sparklines, and other advanced features of Microsoft Excel 2010®, and discover how this powerful MS Office program can boost your productivity. In these hands-on lessons, you’ll learn how to create informative, eye-catching charts and harness the power of Excel’s data analysis and filtering tools. In addition, you’ll find out how easy it is to create macros that let you manipulate data with the push of a button. You’ll also discover how to use Goal Seek and Solver and apply them to real-world problems. And you’ll set yourself apart from the casual Excel® user by adding VLOOKUP, INDEX & MATCH, and Excel’s other time-saving functions to your repertoire. So get ready for six fun, action-packed weeks that will make you an Excel® expert!

Note: Classes start the second Wednesday each month. During the registration process you will designate the month that you chose to begin the class. You will have six (6) weeks from the class start date to complete the class. You will receive an email with directions on how to access your class. Register early. Each course has a maximum number of students that can enroll, and popular courses may fill quickly.

Course cancellation decisions due to low enrollment are typically made three business days prior to the course start date.

Advanced Microsoft Excel 2010®

Any proficient Microsoft Excel® user will agree that this program is a very powerful analytical tool. Wouldn't it be great to learn how to effectively use all the advanced Excel® features? In this practical and information-packed course, you'll see how to maximize this program's functions and capabilities. Most organizations rely heavily on Excel® to consolidate, analyze, and report financial information. Your company is probably no exception. By learning these advanced techniques, you can become more valuable to your organization. You'll see how to work with the additional analytical tools provided by Excel® add-ins and become skilled in using validation to protect the integrity of your worksheets from less experienced users. Impress your coworkers by learning how to add functional and eye-catching custom controls to any worksheet and how to use scenarios and data tables to quickly perform what-if data analyses. You'll discover advanced techniques for PivotTables, such as creating calculated fields and calculated items. Become adept at consolidating and importing external data, and master the art of conditional formatting to highlight duplicate entries and other common worksheet problems. Learn how Excel® 2010 table tools take the complexity out of table creation and management. As you become proficient at nesting functions within other functions, you'll be able to accomplish just about anything Microsoft Excel® has to offer!

Note: Classes start the second Wednesday each month. During the registration process you will designate the month that you chose to begin the class. You will have six (6) weeks from the class start date to complete the class. You will receive an email with directions on how to access your class. **Note:** This course has additional software requirements.

MICROSOFT EXCEL COMPLETE®

This class is a comprehensive path taking students from the basics of Microsoft Excel® through intermediate skills and finishing with advanced features. Students will start with learning how to work with formulas and functions. Then move onto formatting worksheets, working with charts and analyzing data using formulas. Intermediate skills include managing workbook data, using tables and analyzing table data. Automating a worksheet and enhancing charts will also be covered. Then students will move onto advanced features including What-If analysis and PivotTables.

Note: A textbook is required for this class

NEW! Harness the Power of Pivot Tables

Your job exposes you to more data than ever, including financial data, project data, personnel data, and business operations data. You struggle to efficiently and effectively put that data to use and keep ahead of your boss' “what-if” questions. Underutilized Excel® Pivot tables are powerful (and free) data analytic tools available to everyone with Microsoft Excel®. This course will help you overcome your fears and harness the power of pivot tables to analyze common business and operational data. You will make better, data-driven decisions and build stronger cases to grow your business and/or improve your operation. This course emphasizes hands-on use of Pivot Tables and provides many practical examples of business applications. Throughout the course examples and cases are structured to cumulatively build upon and reinforce pivot table concepts. Working knowledge of Excel® and comfort with high school algebra is required for this course. This course uses Excel® functionality, no programming is required.

Note: A textbook is required for this course.

Introduction to Microsoft Outlook 2010

Are you overwhelmed by emails, meetings, and to-do lists? Harness the power of Microsoft Outlook 2010, and you'll instantly enhance your efficiency and productivity. In this course, you'll learn your way around the new ribbon-based interface and get up and running quickly. Then you'll focus on the core skills you really need in order to work smarter and faster. First, you'll learn how to manage the flood of emails you receive, creating folders and archives so you can always find what you need. Then you'll discover how to keep track of your contacts and how to use Outlook's Calendar and Alert features. You'll also find out how to customize Outlook so it perfectly meets your needs, and you'll discover how to automate your work with rules. As a bonus, you'll get insider tips that will make you the Outlook guru in your office. For example, did you know that you can create, send, and receive email messages without ever touching the mouse? You'll find out how, and learn lots of other tricks for getting the most out of Outlook's versatile tools. Whether you're new to Outlook or you've been using it for years, you're sure to learn something useful in every lesson. In just a few weeks, you'll be a skilled and confident user of this time-saving tool – and you'll never have to worry about missing a meeting, losing an email, or forgetting an important task again!

Note: Classes start the second Wednesday each month. During the registration process you will designate the month that you chose to begin the class. You will have six (6) weeks from the class start date to complete the class. You will receive an email with directions on how to access your class. Introduction to Microsoft Outlook 2013

Want to learn Microsoft Outlook 2013 quickly? Want to become a confident and productive user of this powerful program without having to memorize a lot of technical mumbo-jumbo? In this course, you'll see what's new in Outlook 2013 and get up and running with the most important aspects of the program, starting with mastering the new Windows 8 style look and feel. From there, you'll quickly learn how to manage your email, calendar, and contacts, and how to streamline and automate your work with keyboard shortcuts, rules, Search Folders, and Quick Steps. The goal of this course is to teach you what you really need to know to be productive with Outlook 2013. That means you won't waste your time on low-value aspects of Outlook. Instead, you'll focus on the important things like sending, receiving, and managing your mail, and using tools such as the calendar, tasks, and to-dos so you can manage your schedule and get your work done. You'll also learn about the redesigned Contacts section of Outlook (now called People). You'll discover how Outlook can connect to your social networks, and discuss the pros and cons of making those connections. The course also shares secrets about how to get the most from Outlook. For example, did you know that you can create, send, and receive email messages without ever touching the mouse? It's faster and more efficient, and can even reduce some of the strain on your aching mouse hand. Introduction to Outlook 2013 dedicates an entire lesson to the instructor's favorite Outlook tips and tricks. Whether you're new to Outlook or you've been using it for years, you're sure to learn something useful in every lesson.

Note: Classes start the second Wednesday each month. During the registration process you will designate the month that you chose to begin the class. You will have six (6) weeks from the class start date to complete the class. You will receive an email with directions on how to access your class. NEW! Java Programming, Introduction

Want to learn how to develop real-world, object-oriented business applications using Java Programming? Java is fast, secure, and reliable. From laptops to data centers, game consoles to scientific supercomputers, cell phones to the Internet, Java is everywhere! This beginning course introduces the idea of Object Oriented Programming, and covers the Java Development Kit, creating classes, creating Java applications, command-line arguments, constructor methods, and much more. Upon completion of the course you'll know how to use Java classes, objects, and methods to write Java applications. You'll learn how to apply object-oriented concepts to enable you to create and use sophisticated business and data access objects.

Note: A textbook is required for this course.

Introduction to SQL

Learn the key concepts of Structured Query Language (SQL), and gain a solid working knowledge of this powerful and universal database programming language. In this course, you'll learn about the basic structure of relational databases and how to read and write simple and complex SQL statements and advanced data manipulation techniques. First, you'll learn about the traditional database structure, the structure and history of the relational database, and what structured query language (SQL) is and how it relates to the relational-database structure. Next, you'll discover how to use SQL to sort and retrieve data from tables and how to use SQL to filter retrieved data. You'll learn how to reformat retrieved data with calculated fields and how to merge columns and create alternate names for columns. You'll also learn how to gather significant statistics from data using aggregate functions, and you'll see how to extract data from multiple tables simultaneously using joins and subqueries. In addition, you'll learn how to manipulate data using the INSERT, UPDATE, and DELETE statements. We'll also cover how to use SQL to create and maintain tables, and you'll learn how to create and use views to simplify complex queries, summarize data, and manipulate data stored in tables. You'll discover how transaction processing, constraints, and indexes are implemented in SQL. And finally, you'll discover how stored procedures, triggers, and cursors are implemented in SQL. By the end of this course, you'll have a solid working knowledge of structured query language. You'll feel confident in your ability to write SQL queries to create tables; retrieve data from single or multiple tables; delete, insert, and update data in a database; and gather significant statistics from data stored in a database.

Note: Classes start the second Wednesday each month. During the registration process you will designate the month that you chose to begin the class. You will have six (6) weeks from the class start date to complete the class. You will receive an email with directions on how to access your class.

Intermediate SQL

Expand your knowledge of Structured Query Language (SQL), the industry standard database programming language. In this course, you'll learn techniques that will enable you to write powerful queries that perform complicated searches and sorts on your data. First, you'll explore how to write and implement complex queries on multiple tables simultaneously and how to apply advanced filtering techniques. You'll learn to create union queries that combine records from multiple queries, and you'll discover how to use union queries to exclude or include duplicate records. In addition, you'll find out how to use text strings within union queries. Next, you'll master advanced techniques for updating various types of data stored in your tables. You'll learn how to update a single field, multiple fields, multiple records, date fields, and calculated fields. And you'll see how to update and set NULL values using an update statement. In addition, you'll use advanced insertion techniques to add data to your tables and learn how to create, query, and modify temporary tables. You'll also see how to implement techniques to handle duplicate values stored in a table and how to limit the results of a result set. And finally, you'll discover how to use string functions to perform complicated searches on strings, how to implement date and time functions to insert and extract portions of a date, and how to create queries that accept input from users. By the end of this course, you'll be able to use a wide range of advanced SQL techniques with confidence. Your new skills with databases will enhance your competitiveness in the technical fields of software development and database administration.

Note: Classes start the second Wednesday each month. During the registration process you will designate the month that you chose to begin the class. You will have six (6) weeks from the class start date to complete the class. You will receive an email with directions on how to access your class.

Introduction to C# Programming

Learn the fundamentals of computer programming with C#, the in-demand and incredibly useful programming language that incorporates the best features of Visual Basic, C++, and Java. You'll first develop your understanding of programming fundamentals: input/output operations, decision making, and looping. Then we'll explore the many benefits of object oriented programming, with plenty of vivid, real-life examples. Then you'll gain hands-on experience with sequential data files, and you'll be able to build a professional-looking and intuitive Graphical User Interface (GUI) application on your very own computer. Because there is no better way to learn programming than hands-on practice, almost every lesson includes practical examples and assignments you can use to develop your knowledge of programming. Learn to program the right way: by using a state-of-the-art language to build impressive applications on your schedule and on your very own computer.

Note: Classes start the second Wednesday each month. During the registration process you will designate the month that you chose to begin the class. You will have six (6) weeks from the class start date to complete the class. You will receive an email with directions on how to access your class.

Introduction to Java Programming

If you want to learn computer programming but don't have any prior experience, you'll enjoy a tour of Java, one of the most widely used computer languages in the world. It's a breeze to learn in a friendly and supportive environment. Start with the basics of programming and go on to write your own programs and integrate input and output, calculations, decision making, and loops. Build your knowledge and confidence with easy-to-understand examples and plenty of skill-building exercises. So whether you just want to try it out to see if you like it or plan on doing more with Java, this is a great place to start! We'll use the latest release of Java, from Oracle, the company that maintains and supports the language. We'll also use BlueJ, a graphical development environment designed especially for students. Both are free open-source products, and I'll give you the proper instructions to download them. By the time we're done, you'll be comfortable with Java programming and ready for more!

Note: Classes start the second Wednesday each month. During the registration process you will designate the month that you chose to begin the class. You will have six (6) weeks from the class start date to complete the class. You will receive an email with directions on how to access your class.

Advanced Web Pages

Take your Web design skills to the next level! Whether you want to work as a freelance Web designer, join a Web development team, or build websites for your organization, this course will give you the advanced tools you need. In these lessons, you'll learn to write HTML code for page content and CSS code for page styling. You'll master cutting-edge techniques that take advantage of HTML5 and CSS3, the latest versions of the languages used to create modern websites. With the help of step-by-step instructions, you'll build interactive websites that collect information from visitors through email signup and feedback forms. In addition, you'll learn the latest and most effective techniques for presenting layouts and video that work in any browsing environment from a desktop computer to a mobile device. Along the way, you'll explore aesthetics, color scheming, and accessible Web page design. And don't worry if you have only the most basic exposure to Web design! This course walks you all the way through to purchasing and uploading your site to a remote server. You won't need any special software either - just the text editor that comes installed with your computer. Whether you're a beginner or an experienced Web designer wanting to update and enhance your skills, this course is perfect for you. In just a few weeks, you'll be designing state-of-the-art websites that offer all the sophisticated elements that today's Web users expect to see.

Note: Classes start the second Wednesday each month. During the registration process you will designate the month that you chose to begin the class. You will have six (6) weeks from the class start date to complete the class. You will receive an email with directions on how to access your class.

Write Effective Web Content 

Is your Web content as effective as it could be? In this course, you'll gain tips for crafting content to make your website or blog into an exciting multimedia place for visitors. You'll learn how to develop a website writing style that speaks to your readers' needs and ensures that your content is clear and easy-to-understand. We'll explore ways your Web copywriting can convey the right "feel" through your content, how to get conversations going with your visitors, and how to organize your content to produce better search engine rankings and happier readers. But today's Web is about a lot more than words. You'll also explore all kinds of multimedia from images to infographics to slideshows to screencasts, as well as ways to encourage interaction with your readers, such as polls, surveys, and quizzes. By the end of this course, your content will be well on its way to rising to the top of the billions of pages on the Web!

CompTIA® Security+ Certification Prep 1

The U.S. Department of Labor forecasts that information security analysts will be among the fastest-growing occupations through 2022. CompTIA's Security+ certificate is widely regarded as the entry-level certificate for this fast-growing field. Getting that certificate requires passing CompTIA's challenging SY0-401 exam. This course covers the key terminology and concepts you need to know to ace the exam, all in a condensed format for rapid reading. The course provides helpful study tools including crossword puzzles, games, and practice questions to aid with learning. All of the content is geared toward helping you pass the SY0-401 exam so you can leave the test center with your Security+ certificate in hand. *Please note that if you received your CompTIA Security+ certification before 1/1/2011, you will be a lifetime credential holder not subject to credential renewals. However, if you achieve your certification after 1/1/2011, you are subject to a CompTIA Security+ renewal process every three years.* Course Revised November 2014

Note: Classes start the second Wednesday each month. During the registration process you will designate the month that you chose to begin the class. You will have six (6) weeks from the class start date to complete the class.

Intermediate CompTIA® A+ Certification Prep

The **Intermediate CompTIA A+ Certification Prep** course picks up where the Basic course left off and plunges you head-first into Windows. You learn how to install, organize, maintain, and troubleshoot three different versions of Windows. You'll examine and compare the features and structures of Windows XP, Vista, and 7. Toward the end of the course you'll get a deeper understanding of how we use virtualization and virtual machines in modern networks. Plus you'll learn about printers, from the various technologies in use to installing and troubleshooting. This course takes you through the second of three steps you need to become both a highly-competent PC tech and a CompTIA A+ certified technician, using the 801 and 802 competencies. Course Revised May 2014

Note: Classes start the second Wednesday each month. During the registration process you will designate the month that you chose to begin the class. You will have six (6) weeks from the class start date to complete the class.

Healthcare Careers

CERTIFIED NURSING ASSISTANT (CNA/GNA)

Become an integral part of a health care team in one of the fastest growing healthcare fields. Learn basic patient care skills, your role as a member of the health care team, disease processes, infection control, and safety issues.

Combined with a clinical experience, this course meets all eligibility requirements for CNA certification in the state of Maryland and prepares you for the Geriatric Nursing Assistant (GNA) test. Application fees, GNA testing, background checks and materials are included. Textbooks are not included.

The program requires study time outside of class and includes tests, both written and practical (hands-on) skills, which must be passed prior to starting the clinical sessions.

PREREQUISITE INFORMATION: This course is not available for online registration. Registrations will be accepted at the Welcome and Registration Center at FCC's main campus, Jefferson Hall, 1st floor. For more information, contact FCC at 240.629.7904.

Prerequisites & other requirements:

- Placement into EN52 or ESL99 (Students will need to take placement tests in the college's Testing Center)
- Provide proof of being 18 years of age or older at time of registration.
- CAH144 – Introduction to Health Care Careers
- CAH143 – Introduction to Allied Health Skills.

In person or mail in registration will be required.

Other program requirements PRIOR to Clinical:

- Provide evidence of a negative TB test or chest X-ray.
- Undergo a physical examination and provide proof of up-to-date immunizations.
- Current American Heart Association Health Care Provider CPR card or register for Health Care Provider CPR (SAF112 or MAH160.)
- Provide proof of health insurance.
- Undergo a background investigation and fingerprinting. Fees for background check and fingerprinting are included in course fees.

Students will receive paperwork for their physical exam, immunizations, fingerprinting and background check during the beginning of the CNA course, CAH132. Payment plan available.

Payment plan available

Take advantage of FCC's payment plan by registering for CAH144, CAH143, CAH132, CAH133, and CAH114 simultaneously. This allows you to divide your total cost into automatic monthly payments from either a checking/savings account or major credit card. The plan is interest free with a non-refundable enrollment fee of \$25.00. Come to the Student Accounts Office once enrolled to pay the down payment and receive instruction on how to enroll in the plan. Call 301.846.2456 or email studentaccounts@frederick.edu with any questions.

Textbooks

Textbooks available at www.frederick.edu/student_services/bookstore.aspx

Register early. Each course has a maximum number of students that can enroll, and popular courses may fill quickly.

Course cancellation decisions due to low enrollment are typically made three business days prior to the course start date.

Summary of courses & costs

CAH144 Intro to Health Care Careers

INSTRUCTOR: CE Instructor

Gain the knowledge and skills needed to perform effectively in a learning environment and work productively in a health care setting. You will learn basic competencies of anatomy and physiology, HIPPA, workplace professionalism, communication and customer service, diversity, cultural competencies, task prioritization, and documentation specific to the health care environment. Required course for students entering Certified Nursing Assistant Program or Phlebotomy Technician Program.

CAH143 Intro to Allied Health Skills

INSTRUCTOR: CE Instructor

This course is designed to introduce you to the basic patient skills required as a health care professional. Continue your understanding of anatomy and physiology, the techniques of determining vital signs, blood pressure, respiration, pulse, and patient communications. These skills enable you to function more effectively as a professional in a healthcare setting. Required course for students entering Certified Nursing Assistant Program or Phlebotomy Technician Program.

CAH132 Certified Nursing Assistant, Part I

INSTRUCTOR: CE Instructor

Learn basic patient care skills, the role as a member of the health care team, disease processes, infection control and safety issues. Combined with the clinical sessions, this course meets all requirements to be eligible for CNA certification in the state of Maryland and prepares students for the Geriatric Nursing Assistant (GNA) test which is included in course costs. All tests must be completed and passed prior to starting the clinical sessions.

CAH133 Certified Nursing Assistant, Part II

Part 2 is a continuation of Part 1.

INSTRUCTOR: CE Instructor

CAH114 Certified Nursing Assistant: Clinicals

INSTRUCTOR: CE Instructor

Participate in supervised clinical rotations with experienced, certified nursing faculty in local health care facilities. Students interact with residents, performing all the duties and responsibilities of a nursing assistant. Individual skills and execution are evaluated daily.

 Online Course

 Eligible for senior tuition waiver.

 Eligible for disabled & retired tuition waiver.

See pages 66 and 67.

PHLEBOTOMY TECHNICIAN

Interested in a health care career that makes you an integral part of a patient assessment team? Phlebotomy technicians work in physician's offices, hospitals, clinical labs, and blood donation sites. Become familiar with all aspects related to blood collection and develop comprehensive skills to perform venipunctures completely and safely. Our program offers clinical practice with experienced phlebotomists at local health care facilities to give you hands-on experience. This program prepares you to take several national certification exams.

The program requires study time outside of class and includes tests, both written and practical (hands-on) skills, which must be passed prior to starting the clinical sessions. Background checks and materials are included. Textbooks are NOT included.

PREREQUISITE INFORMATION: This course is not available for online registration. Registrations will be accepted at the Welcome and Registration Center at FCC's main campus, Jefferson Hall, 1st floor. For more information, contact FCC at 240-629-7904.

Prerequisites & other requirements:**Prerequisites:**

- Placement into EN52 or ESL99 (Students will need to take placement tests in the college's Testing Center)
- Provide proof of being 18 years of age or older at time of registration.
- CAH144 Introduction to Health Care Careers
- CAH143 Introduction to Allied Health Skills.

This course requires verification of completion of prerequisite courses or other requirements. In person or mail in registration will be required. Please see course description for more information.

Other program requirements PRIOR to Clinical:

- Provide evidence of a negative TB test or chest X-ray.
- Undergo a physical examination and provide proof of up-to-date immunizations.
- Current American Heart Association Health Care Provider CPR card or register for Health care Provider CPR (SAF112 or MAH160).
- Provide proof of health insurance.
- Undergo a background investigation and fingerprinting. Fees for background check and fingerprinting are included in course fees.
- Students will receive paperwork for their physical exam, immunizations, fingerprinting and background check during the beginning of the Phlebotomy course, CAH483.

Payment plan available

Take advantage of FCC's payment plan by registering for CAH144, CAH143, CAH483, CAH484, and CAH466 simultaneously. This allows you to divide your total cost into automatic monthly payments from either a checking/savings account or major credit card. The plan is interest free with a non-refundable enrollment fee of \$25.00. Come to the Student Accounts Office once enrolled to pay the down payment and receive instruction on how to enroll in the plan. Call 301.846.2456 or email cashiers@frederick.edu with any questions.

CAH144 Intro to Health Care Careers

Gain the knowledge and skills needed to perform effectively in a learning environment and work productively in a health care setting. You will learn basic competencies of anatomy and physiology, HIPPA, workplace professionalism, communication and customer service, diversity, cultural competencies, task prioritization, and documentation specific to the health care environment. Required course for students entering Certified Nursing Assistant Program or Phlebotomy Technician Program.

CAH143 Intro to Allied Health Skills

This course is designed to introduce you to the basic patient skills required as a health care professional. Continue your understanding of anatomy and physiology, the techniques of determining vital signs, blood pressure, respiration, pulse, and patient communications. These skills enable you to function more effectively as a professional in a healthcare setting. Required course for students entering Certified Nursing Assistant Program or Phlebotomy Technician Program.

CAH483 Phlebotomy Technician Preparation I: Theoretical Applications

In Part I, Theoretical Applications, students learn basic phlebotomy technical background and professional preparation for working as a phlebotomist. Students are introduced to anatomy and physiology with special emphasis on the cardiovascular and lymphatic system, applicable medical terminology and an overview of healthcare settings where phlebotomy services are performed. Students learn and apply professional ethics and behavior; interpersonal and written communications, including cultural competency; systems of documentation; and safety and infection control. Students will develop knowledge and comprehensive skills to prepare them to perform venipunctures completely and safely as they progress to Part II: Practical Applications.

The full program includes classroom and both in-class and on-site clinical practice at local health care facilities. This program requires study time outside of class and includes both written and practical (hands-on) skills assessments, which must be passed prior to starting the clinical course. The program prepares students to take several national certification exams.

CAH484: Phlebotomy Technician Preparation 2: Practical Applications

Phlebotomy Technician II: Practical Applications is a continuation of Part I: Theoretical Applications. In this course students learn to perform venipuncture and specialized phlebotomy procedures. Students are familiarized with blood collection equipment and selection, specimen handling and identifying complications related to blood collection and

medical errors. Students train on a variety of procedures and techniques for typical and special populations clients. Special topics in specimen uses for testing in forensics, workplace and sports are explored. Hands-on skills practicums prepare students for the clinical course. The full program includes classroom and on-site clinical practice with experienced phlebotomists at local health care facilities to give students hand-on professional experience. The program prepares students to take several national certification exams. The program requires study time outside of class and includes both written and practical (hands-on) skills assessments, which must be passed prior to starting the clinical course. Prerequisite: Successful completion of CAH 483 Phlebotomy Preparation I: Theoretical Applications.

CAH466 Phlebotomy Technician: Clinical

Participate in 100 hours of supervised clinical rotations with experienced phlebotomists in local health care facilities. Students will perform 100 supervised venipunctures. Individual skills and execution will be evaluated daily.

Medical Billing and Coding: Online

Medical billing and coding is one of the fastest-growing careers in the healthcare industry today! The need for professionals who understand how to code healthcare services and procedures for third-party insurance reimbursement is growing substantially. Physician practices, hospitals, pharmacies, long-term care facilities, chiropractic practices, physical therapy practices, and other healthcare providers all depend on medical billing and coding for insurance carrier reimbursement. This billing and coding program delivers the skills students need to solve insurance billing and coding problems. This course is designed to prepare students to sit for various national certification exams including those from the American Academy of Professional Coders (AAPC) and the American Health Information Association (AHIMA). Prerequisite: Medical Terminology.

Note: This course is not available for online registration. Registrations will be accepted at the Welcome and Registration Center at FCC's main campus, Jefferson Hall, 1st floor. For more information, contact FCC at 240-629-7904. Prerequisite of Medical Terminology

------	------------------------	------	----------

The American Heart Association strongly promotes knowledge and proficiency in all AHA courses and has developed instructional materials for this purpose. Use of these materials in an educational course does not represent course sponsorship by the AHA. Any fees charged for such a course, except for a portion of fees needed for AHA course materials, do not represent income to AHA.

Mount Airy College Center for Health Care Education

College Center Information

Mount Airy College Center for Health Care Education

An innovative partnership among Carroll, Frederick, and Howard Community Colleges, the Mount Airy College Center for Health Care Education provides education and training for current and future health care professionals.

- Opportunity**
Enroll in programs or take courses from any one of the three partner colleges.
- Affordability**
Pay the in-county tuition rate for a program, no matter which partner college operates the program.
- Convenience**
Take classes offered by three partner colleges at one central location.

About the Partner Community Colleges

Each partner community college is fully accredited by the Middle States Commission on Higher Education and the Maryland Higher Education Commission (MHEC).

FAQ

Where is the Mount Airy College Center for Health Care Education Center (MACC) located?

1902 Back Acre Circle in Mount Airy, MD 21771 (turn off Rt. 27 at the Twin Arch Shopping Center and proceed on Twin Arch Road to Back Acre Circle.)

Who are the partnering colleges?

- Carroll Community College
- Frederick Community College
- Howard Community College

How do I register for a class?

Registration for Mount Airy College Center courses begins November 13. Students register and pay tuition and fees for any and all courses at their home college (the college in the county where you reside). All three colleges will list courses offered in Mt Airy. It is important that you register at your home college to avoid out-of-county charges. Out-of-state students may register at any of the three colleges; out-of-state fees will apply.

Does the cost of a course differ at MACC?

There may be a different cost of a course at the Mount Airy site since the cost depends on the institution which is sponsoring/arranging the course and the expenses associated with a satellite center. For example, a Carroll Community College allied health course may cost \$500 when offered at the Carroll campus but \$600 when offered through another college at Mount Airy. Efforts have been made to control costs. Currently, we are not offering payment plans for courses at the center.

What if I change my mind or want to drop my course(s)?

Students will follow the registration, payment, schedule change, and course withdrawal rules and procedures of their home college (the school where you are registered). For example if you register for a course at Howard, you follow Howard's rules without regard to which campus is offering the course.

Where will I get textbooks, manuals or supplies required for my course?

In most cases, textbooks, manuals and supplies will be included in the cost of the course and available at your first class. That information will be included with the course information on the website and in course schedules advertising the course. If the course description indicates that you must purchase the book/manuals/supplies, it will be available at your home college bookstore unless otherwise indicated. All three colleges have online purchasing available through their bookstores.

If I am enrolled in a training program that includes a clinical experience, where will I go for the clinical part of the training?

The clinical experiences are arranged by the college sponsoring the course and will be in Carroll, Frederick, or Howard Counties. In some cases, the clinical site will be in the Mount Airy area. Students will be expected to provide their own transportation to the clinical site.

Caregiving Guide:
Families with Dementia and Alzheimer's

Caring for someone experiencing Alzheimer's disease and other types of dementia is a challenge for family members and loved ones. Be prepared to navigate the demanding road ahead and plan for the care that is best suited to you and your loved one. Learn to recognize the signs and the progression of different types of dementia; how to plan for care in the home, going to the hospital or other facility; and about eldercare law/lawyers and legal considerations as your family needs change. Create and take home a customized Go Bag with everything needed for going to the doctor, hospital or facility.

MAH114 | 6 hours | \$85 (\$45 tuition + \$40 fees) 

INSTRUCTOR: CE Instructor

7538 Sa 9:00 a.m.–3:00 p.m. 3/5 MACC 114

Medicine Aide Update

Meets the Maryland Board of Nursing renewal requirements for the Certified Medicine Aide (CMA). Designed to keep the practicing CMA informed and updated regarding new medications, non-parenteral drug administration, policies and practices, and medications needed by geriatric clients. Emphasis is on new drug therapies and the role of the medicine aide in providing safe and competent care. Upon registration, students must submit a copy of their current CNA/GNA certification, proof of successful completion of their initial CMA training course in Maryland, and must verify current CNA practice of at least 16 hours within the last 2 years, and must verify active practice as a CNA/GNA/CMA in a licensed nursing home for at least 8 hours within the last 2 years, and must verify active practice as a CMA for 100 hours within the last 2 years. Verification can be provided by the employer on facility letterhead. Please note: The Maryland Board of Nursing requires that this update must be completed no more than 90 days before the expiration of the CNA/GNA/CMA certification.

Note: Call 240-629-7904 if interested in the class. You must meet with the Program Manager before registering in order to verify all documentation.

MAH111 | 8 hours | \$128 (\$88 tuition + \$40 fees)  

INSTRUCTOR: CE Instructor

7535 Sa 8:00 a.m.–4:30 p.m. 5/7 MACC 114

Nurse Refresher I: Theory

Provides learning experiences for nurses who have been out of the workplace and who are planning on returning to work. Combined with the clinical portion (MAH106) this course meets the Maryland Board of Nursing requirements to reactivate your license. Criminal Background checks and drug testing at an additional cost are required for the clinical portion. Information distributed at first class session.

MAH105 | 88.5 hours | \$1005 (\$550 tuition + \$455 fees)  

INSTRUCTOR: CE Instructor

7532 TuTh 6:00–9:45 p.m. 5/17–8/9 MACC 114

Class on 5/17 will be held 5:30-10:15 pm

**Note: MAH 106 registration available summer 2016*

Principles and Practices of IV Therapy

Don't be frustrated; be prepared when your patient needs an IV. Enhance your skills as a practicing nurse, IV tech, or EMT by taking this course from our expert on peripheral intravenous therapy and the care of the client requiring this therapy. Topics include: vein and device selection, venipuncture techniques, and basic care measures needed to provide quality care to the patient.

MAH118 | 8 hours | \$148 (\$88 tuition + \$60 fees)  

INSTRUCTOR: CE Instructor

7540 Sa 8:00 a.m.–4:30 p.m. 6/11 MACC 114

Advanced Principles and Practices of IV Therapy

Prerequisite: MAH118 Principles of IV Therapy Build upon the basics covered in Principles and Practices of IV Therapy. Designed for the RN to enhance practice with patients requiring advanced IV therapies. Topics include: practical application and troubleshooting skills for central lines; IV therapies in the elderly and pediatric population; TPN and blood administration.

MAH119 | 8.5 hours | \$148 (\$88 tuition + \$60 fees)  

INSTRUCTOR: CE Instructor

7541 Sa 8:00 a.m.–4:30 p.m. 6/18 MACC 114

Professional Preparation in Healthcare

Learn the essentials of becoming successful as a student and employee in today's healthcare systems. Topics include communication, working well on teams, respecting and valuing differences, and the importance of professionalism. Discuss the availability of healthcare careers in the local region, marketing your skills to potential employers, resumes, application letters and how to prepare for interviews.

MAH115 | 7.5 hours | \$85 (\$55 tuition + \$30 fees)  

INSTRUCTOR: CE Instructor

NEW! Yogalates

Experience the best of both worlds! Yogalates merges yoga and Pilates to help develop core strength, tone muscles, increase flexibility and reduce stress. No previous experience with yoga or Pilates is necessary. Wear loose-fitting clothing and bring a yoga mat to class.

MAH120 | 6 hours | \$65 fee

INSTRUCTOR: CE Instructor

7533 M 5:30 pm–6:30 p.m. 4/4–5/9 MACC 106

DENTAL ASSISTING & DENTAL RADIOGRAPHY

Introduction to Dental Assisting

Participants will have entry-level dental assisting skills upon successfully completing this course, which is approved by the Maryland State Board of Dental Examiners. Course covers terminology, anatomy, charting and medical history, instruments, four-handed dentistry, gypsum, acrylic, amalgam, cements, impression materials, oral hygiene, darkroom procedures, infection control, sterilization and OSHA regulations. High school diploma, or equivalent, and textbook required.

Note: This course is not available for online registration. Registrations will be accepted at the Welcome and Registration Center at FCC's main campus, Jefferson Hall, 1st floor. For more information, contact FCC at 240-629-7904.

Prerequisite: MAH 115 Professional Preparation in Health Care

MAH150 | 40 hours | \$979 (\$680 tuition + \$299 fees)  

INSTRUCTOR: CE Instructor

7546 W 5:00–9:15 p.m. 5/18–7/20 MACC 114

Oral Radiography

Further your dental assisting career and prepare to sit for the DANB Dental Radiation Health and Safety Certification Exam. Approved by the Maryland State Dental Association. Oral Radiography Clinical may take place at your place of employment or at MSDA. You must either be working as a dental assistant or have proof of successful completion of a basic dental assisting course. If not currently employed at a dental practice you must register separately for Oral Radiography Clinical. This course has an online component.

Note: This course is not available for online registration. Registrations will be accepted at the Welcome and Registration Center at FCC's main campus, Jefferson Hall, 1st floor. For more information, contact FCC at 240-629-7904.

Prerequisite: You must be employed as a dental assistant and employer must be willing to oversee clinical requirements at place of employment.

MAH149 | 30 hours | \$599 (\$429 tuition + \$170 fees)  

INSTRUCTOR: CE Instructor

7545 Tu 9:30 a.m.–12:45 p.m. 3/29–5/31 MACC 114

Oral Radiography + Clinical

Prepare to sit for the DANB Dental Radiation Health and Safety Certification Exam. Clinical practice (including full-mouth series and two bitewing x-rays) takes place at the Maryland State Dental Association training facility. Students must be concurrently enrolled in Oral Radiography.

Note: This course is not available for online registration. Registrations will be accepted at the Welcome and Registration Center at FCC's main campus, Jefferson Hall, 1st floor. For more information, contact FCC at 240-629-7904.

Prerequisite: You must either be working as a dental assistant or have proof of successful completion of a basic dental assisting course.

MAH152 | 33 hours | \$955 (\$510 tuition + \$445 fees)  

INSTRUCTOR: CE Instructor

7547 Tu 9:30 a.m.–12:45 p.m. 3/29–5/31 MACC 114

Radiation Safety Update

Renew your certification as a Dental Radiation Technologist. Gain an update on safety and technological advances related to the placement and exposure of dental radiographs. Topics to be covered include fundamental principles of radiography, patient safety, and operator safety. Approved by the Maryland State Board of Dental Examiners.

Note: This course is not available for online registration. Registrations will be accepted at the Welcome and Registration Center at FCC's main campus, Jefferson Hall, 1st floor. For more information, contact FCC at 240-629-7904.

MAH153 | 9 hours | \$199 (\$127 tuition + \$72 fees)

 Eligible for senior tuition waiver.

 Eligible for disabled & retired tuition waiver.

See pages 66 and 67.

MEDICAL BILLING & CODING

Medical Coding for the Physician's Office–AAPC

Prepare to sit for the American Academy of Professional Coders (AAPC) national certification exam. Learn medical terminology and how to use the coding manuals for CPT, ICD-9 and HCPCS to describe and document medical services. Course includes your first year's membership in AAPC, textbooks and certification testing. Prerequisite: Medical Terminology for Health Careers.

Note: Prerequisite: MAH130 Medical Terminology for Health Careers.

MAH128 | 100 hours | \$1875 (\$1130 tuition + \$745 fees)  

INSTRUCTOR: CE Instructor

7542 MW 5:30–8:45 p.m. 4/18–8/17* MACC 108
*No class 5/30 and 7/4

Medical Terminology for Health Careers

This course is designed to help the health care provider or student develop an understanding of the terminology used by individuals who work in the health care delivery systems or who perform job tasks which require the use of medical terminology. Topics include: basic anatomic descriptions as they relate to medical terminology, and use and interpretation of medical terminology.

MAH130 | 30 hours | \$345 (\$315 tuition + \$122 fees)  

INSTRUCTOR: CE Instructor

7544 W 6:00–9:15 p.m. 5/18–7/20 MACC 108

Construction & Building Trades

ELECTRICAL

Electrical Theory and Fundamentals

This course covers basic principles and fundamentals of electricity and electrical work. Course will include components of schematics and blueprints, importance and role of the National Electrical Code, and safety. Students will receive hands-on experience with tools of the trade, wiring, and installing components of accessory terminations. This course is also offered for credit as BLD141. See credit schedule for more information.

Note: You must register on campus. This course is offered in a Hybrid format where the lecture portion of the course is completed online outside of class meeting times.

ELC120 | 90 hours | \$603 (\$464 tuition + \$139 fees)  

INSTRUCTOR: CE Instructor

7620 MW 6:00–9:00 p.m. 3/28–5/11 Monroe Center/MC117

National Electric Code – NEC – Update –10 HOUR

This course covers the updates to the National Electric Code (NEC). The NEC is updated every 3 years. Learn about the important changes that have happened to the NEC, and how perform new calculations. An overview of NEC navigation and application will assist you in staying compliant. There will also be time to cover NEC related questions.

TRD265 | 10 hours | \$165 (\$149 tuition + \$16 fees)  

INSTRUCTOR: Charles LoSchiavo

7909 ThF 4:00–9:00 p.m. 3/31–4/1 Monroe Center/MC111

Specialized Systems

This course will cover topics in the electrical field such as CAT5, CAT6, CATV, fiber optics, fire alarms, photovoltaic, and electric controls. Students will receive hands-on experience working with materials and components in a lab setting. Students will also be introduced to the National Electrical Code (NEC) codes governing these various sub-fields to the electrical industry. Also offered for credit as BLD146. See credit schedule for more information.

Note: You must register on campus. This course is offered in a Hybrid format where the lecture portion of the course is completed online outside of class meeting times.

ELC123 | 90 hours | \$603 (\$464 tuition + \$139 fees)  

INSTRUCTOR: Michael Bonner

8071 MW 6:00–9:00 p.m. 3/28–5/11 Monroe Center/MC116

HVAC

Fundamentals of HVACR

This course will cover the fundamentals of heating, cooling, ventilation, humidity control and basic refrigeration. Course includes EPA CFC certification. Students will receive hands on experience in a lab setting. Course also offered for credit as BLD109. See credit schedule for more information.

Note: You must register on campus. This course is offered in a Hybrid format where the lecture portion of the course is completed online outside of class meeting times.

HVC121 | 90 hours | \$603 (\$464 tuition + \$139 fees)  

INSTRUCTOR: CE Instructor

7626 TuTh 6:00–9:00 p.m. 3/29–5/12 Monroe Center/MC119

Controls for HVACR

Covers topics of electrical controls for HVACR with respect to thermostats, pressure, safety and temperature devices and valves. In a lab environment, students will be able to identify and apply usage of these components. Also offered for credit as BLD110. See credit schedule for more information.

Note: You must register on campus. This course is offered in a Hybrid format where the lecture portion of the course is completed online outside of class meeting times.

HVC122 | 90 hours | \$603 (\$464 tuition + \$139 fees)  

INSTRUCTOR: **CE Instructor**

7627 MW 6:00–9:00 p.m. 3/28–5/11 Monroe Center/MC119

Fossil Fuels and Hydronic Heating

This course will cover fossil fuel heating devices, hydronic, and forced air equipment. Students will apply troubleshooting, installation, service, and preventative maintenance techniques on these systems in a lab setting. This course is also offered for credit as BLD114. See credit schedule for more information.

Note: You must register on campus. This course is offered in a Hybrid format where the lecture portion of the course is completed online outside of class meeting times.

HVC125 | 90 hours | \$603 (\$464 tuition + \$139 fees)  

INSTRUCTOR: **Nick Pace**

8070 MW 6:00–9:00 p.m. 3/28–5/11 Monroe Center/MC119

WELDING

Introduction to Welding

Introduces the students to the basic processes in the welding field. Emphasizes welding safety. Introduces the various types of welding equipment, identification and selection of electrodes, types of welds, and the different welding positions. Explores basic metallurgy (weldability), and welding defects and problems.

Note: You must register on campus. Sections 7617 and 7616 of this course are offered in a Hybrid format where the lecture portion of the course is completed online outside of class meeting times.

WLD160 | 90 hours | \$658 (\$464 tuition + \$194 fees)  

INSTRUCTOR: **John Hill**

7616 TuTh 5:00–9:00 p.m. 3/29–5/12 Monroe Center/MC118

Advanced Welding: SMAW

Focuses on Shielded Metal Arc Welding (SMAW) and Oxyfuel cutting processes on carbon steel. Students will develop skills to weld fillet and groove welds in all positions. Students will perform a SMAW welder performance qualification test on limited thickness test plates in the 3G, uphill position on carbon steel in accordance with American Welding Society D1.1 Structural Welding Code. This course is also offered for credit as BLD122. See credit schedule for more information.

Note: You must register on campus. This course is offered in a Hybrid format where the lecture portion of the course is completed online outside of class meeting times.

WLD161 | 90 hours | \$658 (\$464 tuition + \$194 fees)  

INSTRUCTOR: **John Hill**

7614 MW 5:00–9:00 p.m. 3/28–5/11 Monroe Center/MC118

Advanced Welding: GTAW

Introduces Gas Tungsten Arc Welding (GTAW) and Plasma Arc cutting on carbon steel, stainless steel, and aluminum. Topics include welding safety, basic machine maintenance, and welding techniques.

Note: You must register on campus.

WLD162 | 90 hours | \$658 (\$464 tuition + \$194 fees)  

INSTRUCTOR: **Becky Lorenz**

7613 MW 9:00 a.m.–4:30 p.m. 3/28–5/11 Monroe Center/MC118

INDUSTRY TEST PREP

Electricity: Journeyman/Master Exam Prep

Prepares students for the master's license exam. Reviews the NEC, calculations, and other critical components to prepare for the exam. Emphasis is on calculations. Students must bring a 2014 National Electrical code book.

TRD157 | 30 hours | \$239 (\$229 tuition + \$10 fees)  

INSTRUCTOR: **Steve Brako**

7965 Th 6:00–9:00 p.m. 3/3–5/12* Monroe Center/MC110

*No class 3/24.

MD Stationary Engineer Exam Prep II

This course is designed for the purpose of assisting the Stationary Engineer in becoming a licensed 3rd, 2nd, or 1st class Engineer in Maryland (pending MD DLLR eligibility). This course will provide an overview of general stationary engineer knowledge, code, and problem solving; as well as basic electricity; boiler types and equipment; burners and fuel train; and pumps and valves. The course will also cover sequential operations; inspections and maintenance; central station and chillers and other topics pertinent to the license exam. Students registering for the course should have a general knowledge of building system components such as boilers, chillers, pumps, valves, and electricity and plumbing fundamentals. Students will receive 4.5 hours of continuing education upon successful completion of the course.

TRD190 | 45 hours | \$259 (\$239 tuition + \$20 fees)  

INSTRUCTOR: **Drew Taylor**

7966 TuTh 6:00 p.m.–9:00 p.m. 5/17–7/5 Monroe Center/MC111

EPA 608/CFC Certification

The EPA 608 certification is required for all technicians working with CFCs. This course will prepare you to take the exam. Core, Type 1, 2, & 3 will all be reviewed. At the end of the class, each student will have the opportunity to take the EPA 608 exam. Students will need to pass Core and one or more of the three Types to receive certification. Students passing all four sections will receive Universal certification.

TRD260 | 8.5 hours | \$159 (\$109 tuition + \$50 fees) 

INSTRUCTOR: **Charles LoSchiavo**

7910 Sa 9:00 a.m.–5:30 p.m. 4/9 Monroe Center-TBA

CONSTRUCTION & BUILDING TRADES

PROFESSIONAL DEVELOPMENT

Into to AutoCAD I

Introduces the in-depth study of the fundamentals of AutoCAD. This is an intensive hands-on course covering the basic commands used to create 2-D production drawings. Students learn how to create and modify geometrical designs, plot from Paper Space, and use layers to organize and separate information. Also offered for credit as CAD101.

Note: Prerequisite: EN51 or ESL97. This course is not available for online registration. Registrations will be accepted at the Welcome and Registration Center at FCC's main campus, Jefferson Hall, 1st floor. A textbook is required for this class. One or more sections of this class may require online coursework outside of class meeting times. For more information, contact Adrienne at 240-629-7987.

DRF104 | 37.5 hours | \$401 (\$348 tuition + \$53 fees)  

INSTRUCTOR: **CE Instructor**

7912 Th 5:00–7:35p.m. 3/31–5/14* Braddock Hall/B114

SAFETY

OSHA 10-HOUR Construction Safety and Health Outreach Program

The OSHA Outreach Training Program for the Construction Industry provides training for workers and employers on the recognition, avoidance, abatement, and prevention of safety and health hazards in workplaces in the construction industry. The program also provides information regarding workers' rights, employer responsibilities, and how to file a complaint. Students who successfully complete this course will receive OSHA 10 cards.

TRD205 | 11 hours | \$81 (\$65 tuition + \$16 fees)  

INSTRUCTOR: **Charles LoSchiavo**

7915 Sa 9:00 a.m.–4:00 p.m. 4/23–4/30 Monroe Center-TBA

DIY: DO IT YOURSELF

Do It Yourself: Electrical Wiring

Still trying to figure out how to make that 2-way switch work in your hallway? This Do-It-Yourself class will teach homeowners electrical wiring basics to tackle projects around the home. Course will cover the methods for safely installing outlets, switches and fixtures.

DIY118 | 5 hours | \$89 (\$69 tuition + \$20 fees) 

INSTRUCTOR: **Richard Gaver**

7800 Sa 9:00 a.m.–2:00 p.m. 2/6 Monroe Center-TBA

Do It Yourself: Home Solar Energy System

Would you like to save money on your energy bill? Do you have a cabin/land without electricity? This class will teach you how to install a simple 12 volt solar system for RV, shed, small cabin, or workshop.

DIY123 | 10 hours | \$139 (\$89 tuition + \$50 fees) 

INSTRUCTOR: **Nick Pace**

7801 Sa 9:00 a.m.–3:00 p.m. 3/5–3/12 Monroe Center-TBA

Do It Yourself: Plumbing

Knowing what to do in a plumbing emergency can save time and money, and there are things that you can learn to do yourself safely. In this class we'll focus on common plumbing problems like unclogging a toilet or garbage disposal, fixing a leaky faucet, shutting off water at the main valve, installing new plumbing fixtures, or soldering pipes. This class will help you figure out when you should call a plumber and when you really can Do-It-Yourself.

DIY124 | 8 hours | \$109 (\$30 tuition + \$79 fees) 

INSTRUCTOR: **Nick Pace**

7802 Sa 9:00 a.m.–5:30 p.m. 2/6 Monroe Center-TBA

NEW! Do It Yourself: Backyard Garden Shed

Is your basement and garage full? Need more storage space? This class will teach you how to build a simple garden shed by constructing from start to finish a mock shed. Students should be prepared to work with tools and necessary materials on the first day of class.

DIY125 | 14 hours | \$149 (\$49 tuition + \$100 fees) 

INSTRUCTOR: **Nick Pace**

7804 Sa 9:00 a.m.–4:30 p.m. 4/30–5/14* Monroe Center-TBA

*No class 5/7.

Personal Enrichment

ARTS

Foundations Of Watercolor

Have you always enjoyed the appearance of a realistic transparent watercolor but wondered how to achieve it? In this course students will learn through a systematic process how to execute a detailed line drawing, transfer it to the watercolor paper, and practice flat washes with round and flat brushes. In addition, students will learn through discussion and demonstration how to create tints, complementary colors, and the use of color theory. Students can anticipate utilizing numerous practice sheets to gain mastery of techniques to render one monochromatic and one full color painting. A supply list will be given to the students the first class. Students will be inspired and revitalized by attending.

ACR418 | 15 hours | \$139 tuition

INSTRUCTOR: **Jennifer Littleton**

7573 W 6:30 p.m.–9:00 p.m. 4/6–5/11 FCC/F118

NEW! Mixed Media Exploratory Painting Class – For Artists

This is your chance as an artist to build on your painting skills and create unique artwork using mixed mediums. Using water based media such as watercolors and watercolor pencils OR acrylic paints and gel mediums build on your basic painting skills taking your compositions to a new and amazing level. Additional materials may be used such as caran dache crayons. We will go over materials in the first class; please bring your art supplies.

ACR425 | 14 hours | \$139 tuition 

INSTRUCTOR: **Dorothea Barrick**

7778 F 10:00 a.m.–12:00 p.m. 3/11–4/29* FCC/F130

*No class 3/25.

NEW! **Printmaking: Carving and Exploring a Collograph Techniques**

Explore the fine art world of printmaking and learn the techniques for carving and exploring a collograph techniques of building up plates. Then you will practice transferring images onto other mediums. You will also learn how this style of printmaking allows you to produce multiple original works of art, along with the differences between photographic reproductions and actual prints. On the first day of class, students will purchase a printmaking "kit" from the instructor for \$25.

ACR426 | 8 hours | \$79 tuition

INSTRUCTOR: Courtney Prah

7574 MW 6:00–8:00 p.m. 3/7–3/16 FCC/F118

NEW! **Recycled Art: Creating Artwork with Imagination**

Beauty is in eye-of-the beholder and the eye of an artist! In this course you will learn how to use nontraditional materials to create unique artwork. Think beyond pencils and paint. We will be making both 3D and 2D art using found or recycled materials such as magazines. Please be prepared to pay the instructor on the first day of class a \$25 fee for the "art kit" to be used in class.

ACR427 | 8 hours | \$79 tuition

INSTRUCTOR: Courtney Prah

7779 Sa 10:00 a.m.–12:00 p.m. 2/6–2/27 FCC/F130

NEW! **Color Theory: Elements and Harmony**

This class is a simple and fun introduction to the physics and expressive aspects of color. You will learn and create as you begin to understand the building blocks of color relationships and the color wheel by discussing theory. Then you will create small artworks in an integrated study of influential artists with hands-on "ink-stick" exercises on watercolor cards. Please be prepared to pay the instructor on the first day of class a \$20 supply fee for the materials used in this class.

ACR432 | 12 hours | \$99 tuition

INSTRUCTOR: Kelly Phebus

7576 MW 6:00–9:00 p.m. 2/22–3/2 FCC/F118

PERSONAL ENRICHMENT

Drawing for the Absolute Beginner

Have you always been interested in drawing, but never really knew how to get started? If so, then this is definitely the course for you! Gain a solid foundation and understanding of the basics to drawing and become the artist you've always dreamed you could be! You'll gain a solid understanding of the many tools of the trade. You'll become intimately familiar with paper types, drawing styles, rendering techniques, and the basic principal of perspective, layout, design, lighting, volume, and space. You'll even discover how best to get in touch with your right brain. If you have an interest in learning what it's like to draw or would love to increase your current knowledge in the field of art and illustrating, then this course aims to fulfill all of your needs.

Note: Classes start the second Wednesday each month. During the registration process you will designate the month that you chose to begin the class. You will have six (6) weeks from the class start date to complete the class. After you register, you will receive an email with instructions on how to set up your password to enter into your online class.

AMERICAN SIGN LANGUAGE

Discover Sign Language

It's truly amazing that we can communicate just by using our hands! Add different facial expressions, and you have a conversation: the language of Deaf people. In this course, you'll discover how to use this graceful, expressive language to communicate with Deaf people. You'll begin with an introduction to the language itself, and learn to create the signs for numbers. You'll also master the sign alphabet so you can fingerspell proper names. Then you'll learn to sign phrases and expand to complete sentences, and see how to put it all together so you can introduce yourself and start a conversation. Along the way you'll learn signs for colors, numbers, where you live, family, and the activities. Throughout, you'll learn by watching videos that demonstrate how to make the signs and how to incorporate facial expressions to communicate in this beautiful language. This course is taught using the best practices of the industry with a minimum of audio support. Throughout, you'll be immersed in silence, so you'll gain an understanding of the perspective of Deaf people and sign language.

Note: Classes start the second Wednesday each month. During the registration process you will designate the month that you chose to begin the class. You will have six (6) weeks from the class start date to complete the class. After you register, you will receive an email with instructions on how to set up your password to enter into your online class.

FOREIGN LANGUAGES

Instant Italian

This dynamic course will teach you how to express yourself comfortably in Italian. You'll learn practical, everyday words and phrases that will make your stay in Italy more enjoyable. You'll read, hear, and practice dialogues based on typical situations that you're likely to encounter while staying in Italy. The dialogues and follow-up exercises of each lesson will teach you to communicate in Italian in a wide variety of settings. You'll be surprised by how quickly and easily you can learn many useful expressions in Italian! Essential words and phrases are written phonetically by using sounds that are familiar to you from English words. The course audio feature lets you hear the words and phrases spoken aloud with just a click of your mouse. Short exercises are included with each lesson to help you reinforce what you've learned and gauge your progress, making it easy to pinpoint areas that you still need to review. The exercises also give you immediate feedback; you'll know whether you answered correctly as soon as you finish. You'll be pleased at how quickly this course helps you build your skills, and prepares you for your next adventure in *Italia*.

Note: Classes start the second Wednesday each month. During the registration process you will designate the month that you chose to begin the class. Beginning Conversational French

This course will teach you how to communicate easily and comfortably with those who speak French. You'll learn practical, common phrases that will make your trip to the many French-speaking regions of the world more pleasant. Each lesson introduces a scenario, presented in short dialogues. You'll be able to practice and learn both sides of the conversation, so you'll easily understand and expect common responses. Every lesson also has cultural tips, which will make you more comfortable in a foreign setting. Since proper pronunciation is important to good communication, this course will help you master the best pronunciations. Simply click on each word to hear it spoken! Every word and sentence is also written out phonetically using sounds that you are already very familiar with from English words. This course has been carefully crafted to ensure you will have no trouble pronouncing French words correctly. This course makes learning French fun and surprisingly easy. You'll be pleased with your quick progress, and you'll be prepared for your next trip!

Note: Classes start the second Wednesday each month. During the registration process you will designate the month that you chose to begin the class. Introduction to Natural Health and Healing

Would you like to learn more about natural health but don't know where to start? If so, then this is the course for you! We'll discuss the various stages of health and illness, and you'll discover that true health means wholeness of the mind, body, and spirit. You'll start a personal health journal to evaluate your current lifestyle and observe how your behaviors can affect your health. We'll also explore naturopathy, which seeks ways for the body to heal itself. You'll find out about proper breathing techniques that enhance health, and you'll learn the value of hydrotherapy, diet, biorhythms, and fasting. We'll also examine using the power of the mind for healing the body—discussing brain function tests, visualization, and relaxation therapies. You'll see the great power of belief. Then we'll delve into vitamins, minerals, antioxidants, free radicals, and the basic requirements that constitute a healthy diet. After our talk, you'll be able to develop menus that improve health. We'll also look at herbal healing, aromatherapy, body therapies, massage techniques, osteopathy, chiropractic, Tai Chi, reflexology, yoga, Feng Shui, therapeutic touch, natural remedies for common emergencies, and much more. By the end of this course, you'll have begun taking charge of your own health and healing!

Note: Classes start the second Wednesday each month. During the registration process you will designate the month that you chose to begin the class. You will have six (6) weeks from the class start date to complete the class. Yoga

Yoga is a practice of physical postures, integrated with the breath, to release tension and promote strength and flexibility of body, mind, and emotions. Yoga postures, breathing, and relaxation can alleviate many common problems that leave you feeling tired and drained of energy. Regular practice will: increase your strength, flexibility, and endurance; bring clarity and calmness to your mind and emotions; release muscular tension; help correct many postural problems; make you feel fit and vital; and help you relax. The ultimate benefit is that Yoga awakens a deeper awareness and understanding within you. This is a natural progression that begins with increased bodily awareness. As you become skilled at synchronizing breath and movement, you learn to turn your attention inward while moving. Eventually, you develop the recognition that is possible to stay centered and balanced in any situation.

Introduction to Interior Design

Are you a creative person with an eye for design? If so, this course will show you how to transform plain living spaces into beautiful and functional rooms. Interior design takes training as well as talent, and these lessons will give you the know-how you need to design a room from floor to ceiling. You'll delve into color theory, industry trends, spatial arrangements, floor plans, traditional and modern interior design ideas, and other basics. In addition, you'll explore a range of careers in interior design and get insider tips for entering this exciting field. Because interior design is constantly evolving, you'll also learn about some of the latest trends affecting the industry. You'll investigate "green" sustainable design, and you'll find out how to modify your designs for people with special needs. As you master design skills step-by-step, you'll complete your first project: a fully developed room design complete with spatial layout, lighting, and finish selections. Your new knowledge and hands-on practice will give you the confidence you need to start creating beautiful residential interiors for yourself and others.

Note: Classes start the second Wednesday each month. During the registration process you will designate the month that you chose to begin the class. You will have six (6) weeks from the class start date to complete the class. MOTORCYCLE SAFETY**Motorcycle Safety: Basic Rider**

Participants will learn the special skills and mental strategies necessary for responsible motorcycle operation. Basic Rider course is divided into two levels. Level I concentrates on the basic skills of clutch and throttle control, straight-line riding, turning, shifting and stopping. Level II builds on the basic skills and provides practice in the collision avoidance skills, stopping in the shortest distance, swerving, and proper cornering techniques. Students will learn about the motorcycle controls and how to operate them, and how alcohol and other drugs affect one's ability to ride safely. A very important segment of the course will instruct students how to create their own strategy for riding in traffic, and dealing with special situations. The instructors, all experienced motorcyclists, will advise on what to wear for protection and comfort.

PHOTOGRAPHY

Black and White Photography

There's more to black and white photography than merely turning a color photo into B&W through the magic of software. Learn how to look for subjects that will result in good B&W images due to contrast, tonal ranges, textures, and shape. Use your camera's own settings to enable you to "see" in black and white, yet still have color images as well. Shoot in the field, then learn how to process your photos to create the look you want in a monochrome image. Preparing B&W images for prints will also be addressed. Students with a DSLR camera will get the most out of this course, but other cameras may be used.

ACR150 | 12 hours | \$129 (\$79 tuition + \$50 fees) 

INSTRUCTOR: **Cam Miller**

7569 MW 6:00–9:00 p.m. 3/28–4/4 E108 & Sa 9am–12pm 4/2 E109

Flower Photography

Learn to take beautiful photos of seasonal flowers without needing special equipment. The techniques you will learn for capturing beautiful blooms apply to any camera. Photos will be taken in the classroom as well as in a garden. You will also learn how photo editing techniques will enhance the beauty of your blooms.

ACR108 | 6.5 hours | \$89 fee

INSTRUCTOR: **Carolyn Miller**

7563 Sa 9:00 a.m.–3:30 p.m. 5/7 FCC/E108

Intro to Flash Photography

Learn to use flash photography to expand your vision and create striking images. Whether you already have an external flash or thinking of acquiring one soon, this class will teach you what you need to know. By learning Flash Photography you will be able to produce extraordinary photographs under a wide variety of lighting conditions. You will learn the fundamentals of flash photography and gain an understanding of the relationship between flash and ambient light. This class will take the mystery out of all the technical jargon such as Sync, 1st-curtain, 2nd-curtain, E-TTL, and High-Speed Mode. Learn how to modify the quantity and quality of light to match your photographic vision. Learn how to calculate flash exposures and use flash in manual and auto modes. Find out what equipment works the best for you for the least amount of money. This is a hands on class. We will take a short lunch break (lunch not included). Bring your camera, manual, battery and flash if you have one.

ACR147 | 6.5 hours | \$99 (\$40 tuition + \$59 fees) 

INSTRUCTOR: **Robert McMillan**

7568 Sa 9:00 a.m.–3:30 p.m. 2/13 FCC/E125

Secrets of Better Photography

Master your digital camera and learn the secrets behind outstanding photos! Whether you have a digital SLR, a point-and-shoot camera, or something in between, you'll learn how to use it the way you want to in this hands-on course! You also have the opportunity to have your lesson assignments critiqued by our knowledgeable teaching team of professional photographers. You'll see how to choose the best photographic equipment for you and how to compose images with style. Exposure topics like aperture, shutter speed, metering, and ISO settings will all make sense as we break them down into simple concepts. If you want to work with manual exposure on your digital SLR, we cover that, too! We'll also explore natural and artificial lighting, freezing or blurring motion, portraiture, children's photography, pet photography, photojournalism, and digital editing options. Secrets of Better Photography is also an excellent class to prepare you for the more advanced class, Travel Photography for the Digital Photographer.

Note: Classes start the second Wednesday each month. During the registration process you will designate the month that you chose to begin the class. You will have six (6) weeks from the class start date to complete the class. After you register, you will receive an email with instructions on how to set up your password to enter into your online class.

Learn to Use Your Digital Camera

Taking pictures should be fun not frustrating, right? Learn to operate your own point-and-shoot camera to take great pictures and learn its various functions. Bring your camera and its manual to class. We will provide a series of lectures and hands-on demos, to help you become the expert at using your own camera. Weekly assignments cover the various functions of your camera and include exposure, archiving, photo manipulation, and more. This is not a computer class.

Image Color Correction & Restoration

Learn to enhance any digital image to professional standards. Bring old faded and damaged photos, negatives and slides back to life. Become proficient at digital repair and restoration of old photos. Learn how to colorize black & white images. You will learn topics such as advanced color correction, image restoration, colorizing B&W photos, repairing damaged photos, removing dust and scratches. Become proficient at using layers, curves, levels, cloning brushes, content aware tools, blurring, distorting, straightening and many other useful techniques. These techniques will be applicable to most photo software suites and will be demonstrated using Photoshop CS6, CC and Elements. Proficiency at using either Windows PC or Apple Mac is required.

ACR152 | 10 hours | \$139 (\$79 tuition + \$60 fees) 

INSTRUCTOR: Thomas Jackson

7570 F 9:00–11:30 a.m. 4/1–4/22 FCC/E108

Digital Darkroom: Enhancing Your Digital Photos

Want to do more with your digital photos? Once you have a digital image stored on your computer via digital camera, scanner, or ordering a picture disk with your film processing, you can enhance your photos by eliminating red-eye, cropping your photos, adding borders or adding special effects. Create your own greeting cards using professional graphics or your own custom photographs. You simply will not believe what you can do with digital photography! Learn how to organize your pictures for easy retrieval. Learn to use such features as clone painting and using the air brush to give your photos that professional touch. See how easy it is to have your photos tell a slide show story with a musical background using Microsoft Photo Story. Course uses Adobe Photoshop Elements software.

ACR123 | 15 hours | \$139 (\$95 tuition + \$44 fees)

Register early. Each course has a maximum number of students that can enroll, and popular courses may fill quickly.

Course cancellation decisions due to low enrollment are typically made three business days prior to the course start date.

Introduction to Photoshop CS6

Photoshop is the world's best-known photo-editing program. Artists, photographers, designers, and hobbyists all rely on Adobe Photoshop for image creation and editing. You'll learn how to use Photoshop with detailed, step-by-step instructions that you'll have no trouble following: even if you've never used a computer graphics program before! And you'll have a lot of fun doing it. Photoshop CS6 has a host of impressive new features for photographers, and you'll encounter a number of them. We'll begin with an introduction to the Photoshop environment. Next, you'll learn techniques for creating simple digital paintings (including some brushes that let you create the look of an oil painting from a photo). Then you'll be editing your own photographs to get rid of dust and scratches, fix the color, and correct image exposure. You'll master techniques for switching the backgrounds on images and removing wrinkles and blemishes from photos, just like they do in magazines. You'll also learn about the new content-aware Move tool in CS6 that, like magic, lets you move something on an image while intelligently replacing the "hole" left behind. By the time you finish this fun, hands-on, project-oriented course, you'll be well on your way to expressing yourself with the most exciting graphics program ever developed.

Note: Classes start the second Wednesday each month. During the registration process you will designate the month that you chose to begin the class. You will have six (6) weeks from the class start date to complete the class. Photoshop Elements Introduction

This class will familiarize students with the basic tools and commands that allow them to properly adjust the light, darkness, color balance, and contrast of images to make poor quality images come to life. Image cropping, sizing, file formats, and resolutions will also be discussed. Prerequisite: Windows experience.

Note: Book Required. Available in Bookstore.

CMS186 | 10 hours | \$149 (\$89 tuition + \$60 fees)  

INSTRUCTOR: Thomas Jackson

7579 M 6:00–8:30 p.m. 3/7–3/28 FCC/E109

Photoshop Elements Advanced

This advanced Photoshop Elements course is for professional photographers looking to take their skills and their photography to a new and creative level. Designed for Photoshop users who have already learned Photoshop basics, we will study advanced topics in much more detail. This course will combine digital presentation along with a number of detailed projects that we will work through as a group. We will cover more advanced subjects such as HDR, layers, curves, color balance, histograms, cloning and creative usage of filters for creating borders and nice looking photo presentations. Learn techniques that will take your photographs to the next level and set yourself ahead of your competition.

Note: Book Required. Available in Bookstore.

CMS319 | 10 hours | \$159 (\$69 tuition + \$90 fees)

PRIVATE MUSIC INSTRUCTION & ENSEMBLES

FCC Jazz Ensemble

Join the FCC Jazz Ensemble and perform the best in big band jazz. Includes numerous performances throughout the Frederick community, as well as an on-campus concert. Some prior experience in ensemble playing necessary. Contact the instructor (301.733.0859) for eligibility and section placement.

Note: Please call instructor for eligibility and section placement. On-Campus Concert - Friday, April 22. Last day to register is 2/5/2016.

MUS100 | 37.5 hours | \$149 fee

INSTRUCTOR: Howard Burns

7612 W 7:45–10:10 p.m. 1/27–5/11* FCC/F109
*No class 3/23.

FCC Flute Ensemble

Join fellow flutists for some casual music-making in a non-competitive setting. Open to both young musicians and adults at intermediate to advanced levels. Includes performances in the Frederick community as well as participation in an on-campus recital. Contact instructor (301.663.8213) for eligibility.

Note: Please call instructor for eligibility. On-Campus Concert - Thursday, April 7. Last day to register is 2/5/2016.

MUS118 | 19.5 hours | \$135 fee

INSTRUCTOR: Jennifer Rundlett

7807 W 7:45–9:15 p.m. 1/27–5/11* FCC/F105
*No class 3/23.

FCC Wind Ensemble

Join FCC's Wind Ensemble and play great original band music by leading composers, as well as transcriptions of classics and standards. Open to college and community wind players with previous experience in high school or college/university bands and to high school band players, with permission of director. Solo opportunities available to qualified players. Includes performances in the Frederick community as well as participation in an on-campus recital. Even if you haven't played for a while, come join the band and improve along with us! Contact instructor (301.474.0019) for eligibility and section placement. Register for credit through the academic division [MU123].

Note: Please call instructor for eligibility and section placement. On-Campus Concert - Friday 6/5, 7:30pm - TBA. Last day to register is 2/5/2016.

MUS123 | 35 hours | \$149 fee

INSTRUCTOR: Aaron Lovely

7808 W 6:30–9:00 p.m. 1/27–5/11* FCC/F145
*No class 3/23.

FCC Percussion Ensemble

The FCC Percussion Ensemble is open to college students and community musicians with a love of percussion. In addition to performing standard percussion ensemble repertoire and transcriptions of rock, jazz and popular music, the groups will explore percussion music from around the world. Previous ensemble experience on drums, keyboard or auxiliary percussion is recommended, but not required. Includes performances in the Frederick community and participation in an on-campus recital. Contact the instructor (410.663.9329, gherron@hotmail.com) for more information.

Note: Please call instructor for eligibility and section placement. On-Campus Concert - TBA. Last day to register is 2/5/2016.

MUS126 | 30 hours | \$139 fee

INSTRUCTOR: Gregory Herron

7615 M 6:30–8:30 p.m. 1/25–5/9 FCC/F146

String Ensemble

FCC String Ensemble for beginning and returning music lovers, performing music of the Baroque, Classical, Romantic and Contemporary periods. Participants of all ages are welcome; must have had at least a year of study on their instrument. Includes participation in an on-campus recital. Contact the instructor (410-248-3312) for more information. Register for credit through the academic division (MU171).

Note: On-Campus Concert - Thursday, May 12. Last day to register is 2/5/2016.

MUS128 | 21 hours | \$135 fee

INSTRUCTOR: Vivian Fleming

7809 Th 7:45–9:15 p.m. 1/28–5/12* FCC/F109
*No class 3/24.

FCC Guitar Ensemble

From Bach to Bluegrass, this group will explore the masterworks for the classic and mixed guitar ensemble. Come join the fun of playing in a variety of size groups ranging from duets, trios, quartets, and larger groups. This course will culminate with a public performance at the end of the semester, and is designed for students with some note reading experience. Minimum note reading requirements include reading and playing in first position, reading basic rhythmic patterns including eighth and sixteenth notes. Students must provide their own instrument. Contact the instructor Mark Edwards at 334.538.0254 for information.

Note: Please call instructor for eligibility and section placement. Last day to register is 2/5/2016.

MUS131 | 22.5 hours | \$135 fee

INSTRUCTOR: Mark Edwards

7810 F 5:30–7:00 p.m. 1/29–5/13* FCC/F109
*No class 3/25.

Online Course

Eligible for senior tuition waiver.

Eligible for disabled & retired tuition waiver.

See pages 66 and 67.

PERSONAL ENRICHMENT

FCC Handbell Choir

Meet fellow music lovers by experiencing the joys and challenges of Handbell Choir. This group is open to adult and student musicians of all ages with no prior ringing experience. They will explore a mixture of bell and choir chime techniques through a wide variety of music from different time periods. Some music reading skill is recommended for ease of experience as the group progresses from beginning to intermediate bell music during the semester. The choir plans to participate in FCC concerts. Contact the instructor, Barbara Scheffter at BScheffter@frederick.edu or 301-512-8066 for information and audition requirements.

Note: Please call instructor for eligibility and section placement. On-Campus Concert - Thursday, 4/7, 7:30pm. Last day to register is 2/5/2016.

MUS132 | 22.5 hours | \$135 fee

INSTRUCTOR: CE Instructor

7811 W 5:30–7:00 p.m. 1/27–5/11* FCC/F109
**No class 3/23.*

FCC Jazz Workshop: Introduction

This class is for those who are beginning their exploration of the world of Jazz. Discover the language of jazz improvisation and learn techniques for using jazz harmony and rhythms in an ensemble setting. Students should already be able to read music, play major scales on their instruments and possess some basic knowledge of music theory. Because this class will focus primarily on improvisation, students will be play from provided lead sheets rather than written parts. The class is part lecture and part practical application on your instrument. Performance opportunities include an on-campus concert. Participation in an on-campus recital with instructors approval. All instrumentalists welcome: any instrument you like to groove on!

Note: Please call instructor at 301-302-5945 for eligibility and section placement. Last day to register is 2/1/2016.

MUS133 | 30 hours | \$149 fee

INSTRUCTOR: Anita Thomas

7917 M 7:30–9:30 p.m. 1/25–5/9* FCC/F145
**No class 3/21.*

FCC Jazz Workshop: Advanced

Be part of the advanced FCC jazz workshop. This class is a continuation of beginner jazz workshop. As students will work on more complex songs and harmonic concepts they must be able to read music, play all major and minor scales on their instrument and already have knowledge of music theory including scales, arpeggios and chord symbols used in jazz. Previous experience in jazz ensemble playing is necessary. Because this class focuses on improvisation, individual parts are not provided, but some lead sheets are included. The class is part lecture and part practical application on your instrument. Performance opportunities include an on-campus concert. All instrumentalists welcome: any instrument you like to groove on!

Note: Please call instructor at 301-302-5945 for eligibility and section placement. Last day to register is 2/1/2016. On campus recital Tuesday, May 10, 7:30pm.

MUS134 | 30 hours | \$149 fee

INSTRUCTOR: Anita Thomas

7916 M 5:00–7:00 p.m. 1/25–5/9* FCC/F145
**No class 3/21.*

Note: Please schedule private music lessons individually with instructor.

TECHNOLOGY BASICS

Adobe Illustrator, Intro

Adobe Illustrator is used for website and graphic design. In this introductory class you will learn to draw shapes, create paths, and use color. This class also covers grouping, working with type, stacking order, layers, printing considerations, and saving and uploading your work to the web. Experience with MS Windows is required.

Note: Book Required. Available in Bookstore.

CMS358 | 15 hours | \$199 (\$99 tuition + \$100 fees)

INSTRUCTOR: Vicky Nuttall

7581 MW 6:00–9:00 p.m. 5/2–5/16 FCC/E109

Adobe InDesign: An Introduction

Adobe InDesign is an exciting software that you can learn to use to create unique, high-quality print publications and documents. Students learn how to create the layouts for various types of print documents such as posters, postcards, tent cards and brochures. You will also learn how to import and format pictures and graphics. In this class you will also use Illustrator and Photoshop as well to edit photos and graphics through the link by InDesign, with these software design packages.

Note: Book Required. Available in Bookstore.

TEC200 | 12 hours | \$149 (\$89 tuition + \$60 fees)

Facebook

Facebook can be your lifeline and connection to friends and family! And if you learn the right way to “post,” Facebook can be tons of fun and enrich your social life! You will learn how to create your own personal page, post your pictures, share pages, comment on what your friends are posting, and much more. This class also covers how to manage security settings, set-up events, Facebook apps, groups, messaging and Facebook etiquette. This class is a must for new users and for those of you who are on Facebook and want to learn more!

Intro to the iPad®

Thinking about buying an iPad® or already have one, but maybe not sure how to put it to its best use? We will show you how to setup the iPad® and how to use it. Learn basic maintenance, which accessories will maximize your experience, and how to use some of the pre-installed applications. Learn how to use the map to find directions and how to take pictures. You will be shown how to surf the web, and even find your device if it is lost. Use the mail app to connect with your friends and family. The iPad® inspires creativity and hands-on learning with features you won't find in any other educational tool. If you own an iPad®, please bring it to class. If you don't, you will have use of one during class time.

TEC139 | 3 hours | \$49 tuition

INSTRUCTOR: William O'Neal

7633 M 6:00–9:00 p.m. 4/4 FCC/E123

iPad®: Intermediate User

This takes a more in-depth look into what your iPad® can do for you. Learn how to manage your Contacts, Calendar, and Music. This hands-on class goes into the functionality of each application and how to best use its capabilities. Learn how to set up your calendar to organize and distinguish between family, work, volunteer and other events; set up playlists and more. You will also get to hear about some of the top apps out there and all the great things they can do for you. If you own an iPad®, please bring it with you to class. If you don't, you will have use of one during class time.

TEC141 | 3 hours | \$49 tuition

INSTRUCTOR: William O'Neal

The Cloud: Get Your Devices to Share

Now that you are using your computer for Email and perhaps your calendar and your contact list, wouldn't it be great to be able to have all this information shared among all your devices including your home computer, your laptop, your iPad® tablet and your smart phone? This is where keeping this information in "the cloud" comes in. Learn about "the cloud" and how to interface all your devices with this information. Make a change on one device and have it show up on all your other devices. If you are interested in learning what options you have to "bring it all together" then this class is for you. Prerequisite: Knowledge of each device that you want to share information on.

THE WRITER'S INSTITUTE**Beginning Writers Workshop**

If you've always wanted to write but have no idea where to start, this course will demystify the process for you. You'll get a taste of the writing life, improve your writing skills, and develop new ways to stretch your creative muscles. This exciting, hands-on course for the creative writing novice is filled with challenging exercises, expert advice, and plenty of direct support and encouragement. As you work your way through the lessons, you'll develop your own short, creative fiction or nonfiction piece. Our emphasis in this course is on developing your skills through practice, so you'll spend more time writing than reading. You'll master important concepts by completing enjoyable writing exercises and assignments, and you'll discover a variety of strategies and techniques the pros use to develop characters, create a compelling point of view, build interest through dialogue, and add meaning to your stories.

Note: Classes start the second Wednesday each month. During the registration process you will designate the month that you chose to begin the class. You will have six (6) weeks from the class start date to complete the class. After you register, you will receive an email with instructions on how to set up your password to enter into your online class.

PERSONAL ENRICHMENT

Grammar Refresher

Whatever your goals, a grasp of English grammar is important if you want to improve your speaking and writing skills. This course will help you gain confidence in your ability to produce clean, grammatically correct work. You'll explore the basics of English grammar—like sentence structure and punctuation—as well as more sophisticated concepts—like logic and clarity. A patient instructor, memorable lessons, vivid examples, and interactive exercises will give you ample opportunity to put what you learn into practice. Reacquaint yourself with old, forgotten rules, meet some new ones, and discover your own grammatical strengths.

Note: Classes start the second Wednesday each month. During the registration process you will designate the month that you chose to begin the class. You will have six (6) weeks from the class start date to complete the class. After you register, you will receive an email with instructions on how to set up your password to enter into your online class.

Introduction to Internet Writing Markets

The Internet provides unlimited opportunities if you're a writer, whether you just have a few hours a week to blog or want a full-time publishing career or just plan to promote your books or business on the Web. There is no single way to become successful writing for the Web, so this course shows you the hundreds of different choices you have, and helps you set your own goals. In fact, by the end of the course, you'll have your very own publishing plan, from the steps to take in developing your writer's platform or brand, to the markets that will help you accomplish your goals. You'll learn the secrets of how to be successful in publishing online. That includes things like search skills, website traffic evaluation, identifying your own expertise and gathering it into a CV, research strategies, RSS feeds, online interview tips, crowdfunding large projects, and more. Markets are different on the Internet, so you'll take an in-depth look at them too. From paying publications to setting up a passive income earning stream, you'll go from the familiar, like online magazines, to the little known, like freelance marketplaces, along with different types of online jobs for writers. Every wondered if it would be better to start a WordPress blog or a Twitter microblog? Whether it's legal to publish fan fiction or not? How you can make some extra money if you also take photos or make videos? This course will answer all your questions about publishing on the Internet.

Course Revised June 2015

Note: Classes start the second Wednesday each month. During the registration process you will designate the month that you chose to begin the class. You will have six (6) weeks from the class start date to complete the class. Write Your Memoir

Do you have a desire to write about your life? Have you been a witness to history, even if it is your own. Writing about your life may be a great gift and therapy, if you really dig deep. Even if it means revealing truths some people keep secret, you may have a good memoir in you no matter how ordinary or extraordinary. In "Write your Memoir" you will learn to develop characters people care about. With guidance you will find your own style and tone. And learn to create dialogues and anecdotes that bring these memories to life.

YOUTH PROGRAMS

NEW! A WWII POW and Purple Heart Hero

Follow the footsteps of a local Washingtonian, Lieutenant Leo L. Jordan, who piloted a B-17 Bomber during WWII. This class will take students on a brief historical tour of what life was like for an American soldier during WWII. In order to trace this American soldier's route through Nazi Germany and ultimately to Stalag Luft Prison camp, students will use maps, photographs, de-classified flight mission reports and Lieutenant Jordan's first person account of his plane's mid-air collision. Find out what it was like to be a POW and how he was able to survive.

AGES 10-14

HSE120 | 8 hours | \$79 fee

INSTRUCTOR: **Debbie Shaw**

7826 F 12:30-2:30 p.m. 4/1-4/22 FCC/E125

NEW! Fall in Love with Shakespeare: The Tempest

Magic, romance, psychological control, high comedy, morality, illusion and dark undertones entwine themselves into this irresistible and timeless tale. Join Suz to unravel the themes and get lost in the enchantment. *The Tempest* is an unusual Shakespeare play, usually lumped in with the comedies because it has a happy ending. However the plot is quite serious and it could easily have turned into a tragedy. Become familiar with this classic tale and decide for yourself.

AGES 13-16

SCIENCE & MATH

NEW! Physics Begins With an M...Mysteries, Myths, Math and Magic

Why is the sky blue? How do magnets work? How might you survive if your parachute doesn't deploy? Have you ever seen a test tube 'disappear' when placed in cooking oil or used ice to start a fire? Have you heard that astronauts in space are weightless because they are beyond the earth's atmosphere or that cats can see in the absolute dark? These questions and more will be answered as you explore physics concepts in this hands-on class while solving some Mysteries, busting some Myths and uncovering some Magic, using a little math and a lot of PHUN!

AGES 13-16

HSE171 | 12 hours | \$109 fee

INSTRUCTOR: **Lisa Duckworth**

7830 F 1:00-3:00 p.m. 3/11-4/22* FCC/C229

*No class 3/25.

Trading Card Games: Create and Play

Are you interested in trading card games like Pokémon, Magic: The Gathering, My Little Pony or Yu-Gi-Oh? If you've ever wanted to design your own game, this is the class for you. Begin by studying how these card games work and how to play them. Using what you have learned about some of the most popular card games you'll create your very own Trading Card Game by designing the cards and crafting the mechanics, the rules, the strategy and then printing and laminating the cards into functional playing decks. How about an official tournament for your new card game? Since most popular card games start out with homemade art and lamination, you might end up designing the next Magic: The Gathering.

PROGRAM GUIDELINES

Thank you for your interest in youth programs at FCC. Please note, an Emergency Contact Form, completed during registration, is required before a child participates in a program. As FCC is a public institution, students and visitors may be photographed and appear in marketing materials without prior permission. To have your child(ren) excluded from these photographs, indicate your request on the Emergency Contact Form. Questions? Call 301.846.2661.

MONDAY, FEBRUARY 15

LEGO® Mindstorm: Robot Races - all day

LEGO® Mindstorm: Robot Races! Students will spend the morning creating and building robots with LEGO® Mindstorm Robots. Then the fun ensues in this all day class as they set up challenges and roadblocks using a computer and an infrared transmitter. Can their robot win the race? Students only need to bring along their enthusiasm and imagination and they'll have a blast with robotics fun!

AGES 7-11

KID119 | 8 hours | \$69 fee

INSTRUCTOR: Ryan Hahn

7836 M 8:30 a.m.-4:30 p.m. 2/15 FCC/E124

Explore Japanese Art

Sample some of the rich traditions of the Japanese culture through various art forms. Possible projects include Origami - the art of Japanese paper folding, Sumi-e - traditional brush painting and making paper lanterns. Each artistic endeavor will include a brief study of the rich history & background of this cultural mecca.

AGES 7-11

KID152 | 3.5 hours | \$34 fee

INSTRUCTOR: Rowland Cooney

7840 M 8:30 a.m.-12:00 p.m. 2/15 FCC/E126

Duct Tape Creations

Take a colorful roll of Duct Tape, add a kid and a little imagination, combine it with the basics of creative sculpting and what have you got? Some pretty cool art, that's what! Duct Tape is versatile and amazing and the possibilities of what you can create with it are endless. We supply the Duct Tape and your creations are ready to take home at the end of the class. How cool is that?

AGES 7-11

KID151 | 3.5 hours | \$34 fee

INSTRUCTOR: Rowland Cooney

7839 M 1:00-4:30 p.m. 2/15 FCC/E126

TUESDAY, FEBRUARY 16

Fossils Unearthing Secrets from the Stones: All Day Explorations!

Fossils are clues to help understand the history of life, past climates and ancient landscapes. Insects, animal bones, shark teeth, shells, fish and dinosaurs have all been found in fossils and have a story to tell about long ago. Find out how fossils were formed, check out some ancient relics from thousands of years ago and create your own fossils as you release your inner Paleontologist.

AGES 7-11

KID271 | 8 hours | \$69 fee

INSTRUCTOR: **Debbie Shaw**

7843 Tu 8:30 a.m.–4:30 p.m. 2/16 FCC/E124

Clay Dudes and Flowers and Beads, Oh My

Learn the basics of sculpting with polymer clay as you create beads, flowers, cartoon characters, scary creatures or jewelry in this hands-on class. Students will design and build mini masterpieces, learning the importance of armatures, technique, texture, color and detail.

AGES 7-11

KID155 | 3.5 hours | \$34 fee

INSTRUCTOR: **Rowland Cooney**

7842 Tu 8:30 a.m.–12:00 p.m. 2/16 FCC/E126

Origami

Origami (Ages 7-11) Take a square piece of paper and turn it into a flower, an airplane, an animal, a piano or a cup you can drink out of. That is the ancient art of Japanese paper folding. Students will not only learn about the different types of paper used to create these small masterpieces but they will fold and crease and create until their hearts are content, or until the class is over!

AGES 7-11

KID301 | 3.5 hours | \$34 fee

INSTRUCTOR: **Rowland Cooney**

7844 Tu 1:00–4:30 p.m. 2/16 FCC/E126

MONDAY, APRIL 11

A Taste of Mexico: Art Discovery

Explore a taste of the artistic traditions of Mexico through various art forms. Possible projects include painted masks and Day of the Dead folk art. In this hands-on class, time will fly as you experience the rich culture of this colorful and neighboring country.

AGES 9-11

KID154 | 8 hours | \$69 fee

INSTRUCTOR: **Rowland Cooney**

7841 M 8:30 a.m.–4:30 p.m. 4/11 FCC/E124

TUESDAY, APRIL 26

Gelli-printing for All Day Fun

Open the door to the wonderful world of printmaking possibilities. Learn how to make extraordinary creative prints using homemade gelatin! Using ink, acrylic paint, organic and inorganic materials, explore fun layering techniques, texture and design layout while creating one-of-kind prints. Sometimes art can be messy, so bring a smock or an apron if you have one!

AGES 7-11

KID302 | 8 hours | \$69 fee

INSTRUCTOR: **Debbie Shaw**

7845 Tu 8:30 a.m.–4:30 p.m. 4/26 FCC/E125

LEGO® Mindstorms: Fun With Robots

This class may be shorter than the summer Kids on Campus experience, but it is just as awesome! Working with a partner in this hands-on robot laboratory, you will build and program a robot using your creativity, problem solving skills and logic. Your enthusiasm and imagination will be utilized as you learn key STEM concepts!

AGES 7-11

KID120 | 3.5 hours | \$34 fee

INSTRUCTOR: **Rowland Cooney**

7837 Tu 8:30 a.m.–12 p.m. 4/26 FCC/E124

LEGO® Architecture

Celebrate the past, present and future of architecture through your very own hands-on LEGO® interpretations. Using LEGO® Architecture kits and your imagination, design and build models which might include the Pyramids, the Great Wall of China and the Seattle Space Needle. With a combination of architecture, art and science, this class is sure to please the designer and builder in everyone.

AGES 7-11

KID121 | 3.5 hours | \$34 fee

INSTRUCTOR: **Rowland Cooney**

7838 Tu 1:00–4:30 p.m. 4/26 FCC/E124

You're Invited!

Information Sessions

Join us for a variety of career information sessions and presentations at the Monroe Center as well as exciting open house events on our main campus this spring at FCC.

Career Information Sessions

**The Monroe Center
200 Monroe Avenue
Feb 10 • Mar 9 • April 13, 5:00–7:00 p.m.**

**Certification & Licensure
Construction & Building Trades
Healthcare & Wellness**

Learn about expert, hands-on career training opportunities. Meet our highly-qualified staff, tour our state-of-the-art facilities, review course options and more!

ILR 55+ Spring Open House

**FCC Conference Center
Fri., Feb. 12, 9:30 a.m.–12:00 p.m.**
Preview new programs, meet ILR instructors and register early for classes.

Kids on Campus & Teens on Campus

**FCC Conference Center
Sat., Mar. 12, 10 a.m.–12 p.m.**
Meet program staff, preview new summer offerings and register on site!

Adult Education

Attend a free orientation session to become familiar with the program, determine eligibility requirements and learn more. Visit frederick.edu/AdultEd

NOTE: Prior to attending, please confirm dates, times and information at frederick.edu.

See map on page 68 for open house locations.

FCC's Adult Education Program

Adult Basic Education & High School Diploma Preparation for adults and out-of-school youth 17 and over.

Learn more about our Adult Education programs

High School Diploma Preparation Classes

Preparing for your high school diploma?

Adults and out-of-school youth 17 or older can get ready to test for a Maryland high school diploma.

Adult Basic Education Classes

Need to build basic skills in reading, writing or math?

The Adult Education Program offers small classes, friendly instructors, and a relaxed atmosphere.

Did you know?

The State of Maryland offers two diploma options for adults and out-of-school youth.

> Pass the GED® exam

Take and pass all four sections of the GED® test – Language Arts, Math, Science, and Social Studies to receive a Maryland high school diploma. More information at: www.gogedgo.org.

> Complete the National External Diploma Program

Earn a traditional high school diploma through NEDP's innovative approach. If you qualify, you can work from home, the library, or wherever you have a computer. The program is flexible and confidential and can be completed in 6 to 12 months. Use the skills you've gained from life and experience to demonstrate your high school level skills.

More information at: www.casas.org/nedp

**Office located in Building A,
Annapolis Hall, Suite 106**

Monday - Thursday 8:30 a.m. - 8:00 p.m.

Friday 8:30 a.m. - 4:30 p.m.

The Adult Education Program at FCC is a grant-funded program providing academic classes and other services to Maryland residents who do not have a high school diploma. Students must be at least 17 years of age and not enrolled in public school.

Services include:

- Assessment of academic skills
- Classes at all levels, from basic skills through high school diploma preparation
- Employment support services for job seekers
- College and career support services for students considering college or career training

If you qualify and want to sign up, we'll complete Part 1 of the two-part registration process with you the same day.

- Childcare is NOT provided; please, no children at orientation.
- Dates shown are Part 1 of the registration process. Part 2 is scheduled at Part 1.
- Students under age 19 should bring verification of official withdrawal from last school attended or homeschooling.

→	Take the first step by attending a free orientation session.	
Date	Time	Room
Wed., 2/17/2016	6:30 p.m.	E124B

Wed., 4/20/2016	9:00 a.m.	E124B
Th., 4/21/2016	6:30 p.m.	E124B

Adult Education programs are supported by grant funding from the Maryland Department of Labor, Licensing and Regulation and the U.S. Department of Education.

English as a Second Language

(ESL) at FCC

FCC offers ESL courses for immigrants, international students, and professionals who want to improve their English language skills. With three programs to choose from, we are sure you will find the right class for you!

Learn more about our ESL programs below

Basic ESL

- Free classes for students who need to learn basic English
- Courses teach students English for life and work:
 - Improving day-to-day communication
 - Understanding American culture
 - Functional skills like using money, shopping, reading signs, etc.

Targeted ESL

- Fee-based classes for students who have an intermediate or higher level of English.
- Courses focus on specific English skills: for example, oral skills development, reading, writing, and grammar.
- Courses are designed to transition students from basic English to formal professional or academic English.

Academic ESL (credit)

- Tuition-based classes for students with high-intermediate or higher proficiency in formal English.
- Courses focus on developing academic English in grammar, reading, writing, speaking, and listening.
- Courses are designed to prepare students for the rigor of degree programs and/or professional communication.
- Students may be eligible for federal financial aid.
- These courses count toward credit requirements for F-1 visas.

For information about Academic ESL, refer to the college's credit course catalog or online schedule at www.frederick.edu

Basic ESL

FCC's basic ESL program provides instruction in reading, writing, listening, speaking, grammar, vocabulary, and pronunciation skills. Courses are for students 17 years of age or older who have had little or no English training, and who are NOT enrolled in high school.

Learn more about our ESL programs below ↓

We offer:

- Caring teachers who work hard to make your English language learning successful
- A program of study that meets your needs
- Skill evaluation and testing at the beginning and end of all classes
- Certificates issued upon successful completion of your courses

Most classes are held two times per week for three hours and are offered at a variety of times including day, evening, and Saturday options at multiple locations throughout the county, including:

- Frederick Community College, main campus
- FCC's Monroe Center on Monroe Avenue
- Frederick High School
- Monocacy Middle School

New classes begin about every 10 weeks.

All Basic ESL classes are free.

Orientations take approximately three hours to complete and are given in two parts (the date for part two will be given out at part one). Saturday orientations last approximately 5 hours. You do not need to register for an orientation. (Childcare is NOT provided; please, no children at orientation.)

Targeted English

8 week sessions of intensive English pre-academic studies.
Now Enrolling for Session 3: February 22 - April 21
and Session 4: May 2 - June 5

Learn more below

We offer:

- Excellent instructors who will provide a supportive yet challenging environment.
- Pre-academic courses that will help you begin to use formal English.

Reading 1 & 2

This pre-academic reading course will help build confidence in reading academic texts by teaching skills and strategies for effective reading, vocabulary building, note-taking, and critical thinking. Students will discuss and write about what they have read to help improve speaking and writing skills.

MW 10:30 a.m.-12:00 p.m. or 6:00-7:30 p.m.

Listening & Speaking 1&2

These courses are designed to help students understand informal and formal American English and will help them learn how to use listening and speaking strategies for successful communication.

MW 12:30-2:00 p.m. or 7:45-9:15 p.m.

Writing 1 & 2

In this pre-academic course, students will work on improving their writing by developing their understanding of sentence grammar, pre-writing and editing skills, and organization. Students will work on writing paragraphs and improving sentence grammar.

T/Th 10:30 a.m.-12:00 p.m. or 6:00-7:30 p.m.

Grammar 1 & 2

In this grammar course, students will develop and practice the proper use of English verb tenses and apply sentence structure rules when speaking and writing.

T/Th 12:30-2:00 p.m. or 7:45-9:15 p.m.

Fundamentals of Writing Workshop

This workshop is designed to give students individualized coaching on their writing. Students will work on writing projects based on their needs and goals as writing students and will work at their own pace and at their own level. Enrollment is ongoing for the workshops.

Mondays 6:30-9:30 p.m. or Fridays 9:00 a.m.-12:00 p.m.

The cost is:

Each course costs \$149 and includes textbooks.

Eligibility:

Eligible students meet one or more of the following pre-requirements:

- CASAS test score of 210 or higher
- LOEP placement scores of 200 or higher

Register Now in A-106!

M-Th 8:30 a.m.-8:00 p.m.

Friday 8:30 a.m.-4:30 p.m.

Friday, 8:30 a.m. to 4:30 p.m.

College Closed

March 23-27, May 28-30

REGISTER FOR ONLINE CLASSES

Continuing Education and Workforce Development offers a variety of affordable and convenient education, professional development and job training opportunities via the internet 24 hours a day, seven days a week. Prior to registering for an online course, be sure to review individual course requirements for each class.

Technical Requirements

Internet access, email and Internet Explorer or Mozilla Firefox browser.

TO REGISTER AND ACCESS YOUR CLASS

- Visit frederick.edu/QuickEnroll and scroll to "Online Classes" in the far right column
- Click a subcategory and then a course title for class details
- To register, click "Add to Cart" (first-time users will be prompted to create a new student profile)
- Submit payment (debit or credit card)
- Two separate emails will confirm your payment and registration. An additional confirmation will arrive (up to 48 hours prior to your class) with details and steps to access your online classroom.

Blackboard

The below courses provide instruction through Blackboard, an online learning management system. Access to these classes is provided to registered students 48 hours prior to the class start date.

- Building Trades: WLD160-WLD164; HVC121-HVC125; ELC120-ELC123
- Child Care: CHI113, CHI114, CHI131, CHI136, CHI140, CHI145 and CHI146
- Computers: CMT110
- AutoCAD: DRF104
- Medical Terminology: MED108, MED222

ADDITIONAL ONLINE COURSES

Students registering for the below online courses will receive an email with information on accessing the online component upon registration, or within 48 hours prior to the class start date.

- Pesticide Use & Safety: CPD390
- CCNA Networking: CCO110-CCO113
- Child Care: CHI151 and CHI300-CHI336
- Medical Billing & Coding: CAH244
- Real Estate: REA353, REA356

DROPPING A CLASS

By phone: Call 301.624.2888. If you have to leave a message, your drop will be based on the date/time of the message.

In person: Visit the Welcome Center (Jefferson Hall) during regular business hours.

By email: Email your request to cerequest@frederick.edu. Your drop will be based on the date/time of the email.

By fax: Visit www.frederick.edu (keyword: drop/add form) to print the form, complete and fax to 301.624.2799. Refunds are determined based on the date the form is received.

REGISTRATION INFORMATION

CONTINUING EDUCATION REGISTRATION FEE

A \$5 per-term registration fee – applicable for each term in which a student enrolls in a class – is due in full at the time of registration. This fee is assessed on a per-term basis and is subject to change. Terms are defined as January 1 through June 30 and July 1 through December 31. The Continuing Education Registration Fee is refundable **ONLY** when FCC cancels a course or a student drops a course at least 1 business day prior to class start **AND** the canceled/dropped course is the only course that student has enrolled in for the term.

Additional Fees

- Out-of-County: Legal residents of Maryland residing outside Frederick County pay \$5 more per course
- Non-Maryland residents pay \$10 more per course

DROPPING A CLASS

By phone: Call 301.624.2888. If you have to leave a message, your drop will be based on the date/time of the message.

In person: Visit us in our Welcome Center (Jefferson Hall)

By email: Email your request to cerequest@frederick.edu. Your drop will be based on the date/time of the email.

By fax: Visit frederick.edu to print the form, complete and fax to 301.624.2799. Refunds are determined based on the date the form is received.

COURSE REFUNDS

If a course is canceled by the college, 100% of applicable tuition and fees will be refunded to students.

Students may officially withdraw from a class and receive a refund by completing the Add/Drop form and submitting the form (or signed written request) to staff in the Welcome Center during business hours at least one (1) business day prior to the start of the class.

Exceptions to the refund policy must be requested in writing to the Vice President of Continuing Education & Workforce Development and are made on a case-by-case basis.

If a student is eligible for a refund and paid by credit and debit card, refunds are submitted directly to student's credit or debit card account. If cash, a check or a money order was submitted at the time of registration, a refund will be mailed to the student usually within 10 to 14 business days from the class drop date.

SW SENIOR CITIZEN STUDENTS

Tuition on select eligible courses is waived for Maryland residents 60 years of age and older. Associated course fees (books and/or supplies) may still apply and are due at the time of registration. Eligible courses are identified by the SW icon following course descriptions.

For additional information and/or assistance, please contact the Student Accounts office at 301.846.2658.

W DISABLED AND RETIRED STUDENTS

Maryland residents out of the workforce as a result of total and permanent disability, enrolling in a class designed to assist in securing employment, are exempt from payment of tuition as defined in Section 16-106 Education Article, Annotated Code of Maryland.

Individuals enrolled in classes as part of a degree or certificate program designed to lead to employment may take up to 12 credits per semester. Otherwise, individuals may enroll in classes equating to 6 credits per semester.

To receive a disabled and retired waiver of tuition:

- Provide certification of total and permanent disability from either the Social Security Administration, the Railroad Retirement Board, or in the case of a former federal employee, the Office of Personnel Management.
- Apply for state or federal student financial aid. (A requirement for individuals enrolling in a degree or certificate program.) If financial aid is awarded, these monies will be applied toward tuition. If a balance of tuition remains after financial aid has been applied, a waiver may cover the remaining balance. (Financial aid does not include student loans.)
- Submit payment of course fees (required to hold classes). Visit our Financial Aid Tuition & Fees page and scroll down for detailed fees.

For additional information and/or assistance, please contact the Welcome Center at 301.846.2431.

DEFERRED TUITION PAYMENT PLAN

FCC provides a payment plan for certain continuing education classes. This allows you to divide your total cost into automatic monthly payments from either a checking/savings account or major credit card. The plan is interest free with a non-refundable enrollment fee of \$25.00. Stop by the Student Accounts Office once you've enrolled to pay the down payment and receive instruction on how to enroll in the plan. Call 301.846.2456 or email cashiers@frederick.edu with any questions.

Classes eligible for the plan are:

- Certified Nursing Assistant (CNA)
- Phlebotomy
- Medical Billing & Coding (Online)
- Commercial Driving (CDL)
- SHRM-CP and SHRM-SCP Certification Exam Prep
- Home Inspection Pre-Licensure
- Payment plans are available for the following courses at the Mount Airy College Center for Health Care Education.
- Dental Assisting and Dental Radiography
- Certified Nursing Assistant
- Medical Coding for the Physician's Office - AAPC

BILLING ARRANGEMENTS

Full payment of tuition and fees or third-party payment documentation must accompany the completed registration form(s). Students are individually responsible for payment of tuition, fees and all other charges. If the college does not receive payment from third parties, students will be billed directly for all charges and are expected to pay.

Employees of businesses that operate within Frederick County are eligible for in-county tuition, regardless of their legal domicile. The employee must provide verification of current employment from the human resources office of the Frederick County business at the time of registration.

COURSE CANCELLATION

Courses may be canceled as a result of low enrollment. These decisions are typically made three business days prior to the course start date.

MAXIMUM ENROLLMENT

Each course has a maximum enrollment. When reached, the course is no longer open to additional students. Popular courses reach maximum enrollment early. Register early to reserve your seat.

COURSE CHANGES

The college reserves the right to make changes in any course due to unforeseen circumstances.

BOOKSTORE (STUDENT CENTER, ROOM H-117)

Continuing Education textbooks can be purchased a week prior to the class start date.

Monday – Thursday..... 8:30 am to 8 pm
Friday 8:30 am to 1 pm

SERVICES FOR STUDENTS WITH DISABILITIES

The college provides support services to maximize independence and encourage the integration of students with disabilities into all areas of college life. The particular needs of each student are considered on an individual basis. Students with disabilities are encouraged to contact the Services for Students with Disabilities office as early as possible after applying for admission. Call 301.846.2408. Reasonable accommodations, based on documentation, are then offered to qualified students for courses and placement testing. Students in need of sign language interpreting services should contact the office two weeks prior to the beginning of classes to ensure services are in place.

Requests for sign language interpreting may be made to the Coordinator for Deaf/Hard of Hearing Services at 301.846.2476 (Voice) or via e-mail at interpreting@frederick.edu.

CONTINUING EDUCATION RECORD

Please contact the Welcome Center in writing to obtain a copy of your noncredit course record. Course records contain a student's complete noncredit course history as of July 1, 2001. Beginning fall 2004, the record also records whether a CEU-bearing course was successfully completed.

The Continuing Education Certificate is an informal award (does not count towards a degree or academic certificate requirements) offered by Frederick Community College. The certificate is awarded in identified noncredit instructional areas for individual courses or an

identified sequence of courses generally totaling 90 or more hours of instruction leading to an occupational objective. Instruction typically consists of noncredit learning experiences but may also include credit coursework.

FAMILY EDUCATIONAL RIGHTS & PRIVACY ACT OF 1974 (FERPA)

FERPA, commonly known as the Buckley Amendment, was issued by the Department of Health, Education and Welfare in the 1976 Federal Register. The regulations were transferred to the Department of Education when it was established and codified in Part 99 of Title 34 of the Code of Federal Regulations.

The purpose of FERPA is to afford certain rights to students concerning their educational records. FERPA applies to all schools that receive funding under most programs administered by the Secretary of Education. Most post-secondary institutions, both public and private, generally receive such funding and must, therefore, comply with FERPA. FERPA applies to all education records maintained by a post-secondary institution, or by any party acting for the institution, which are directly related to the student. These include but are not limited to assessment test scores, academic standing, rosters, class schedule, or any information that would make the student's identification easily traceable. FCC may release directory information, which includes student's name, dates of attendance, and enrollment status—see the FCC catalog for a complete list. Students wishing to restrict directory information must contact the Welcome Center (in writing) with their request. Contact the Welcome Center for additional information.

ALTERNATE CALENDARS

FCC continuing education classes are held at several off-campus locations. Each off-campus location is closed on specific dates for a variety of reasons (e.g., Parent-Teacher Night, special holidays, etc.). The first night of class, your instructor will discuss information about any holidays or closings which affect your classes.

CONTINUING EDUCATION UNITS (CEU)

The continuing education unit (CEU) was created to provide a standard unit of measure, quantify continuing adult education and training activities (non-credit), and serve the diversity of providers, activities, and purposes in adult education. One CEU equals ten contact hours of participation in organized continuing

education/training experience under responsible, qualified direction and instruction. To receive CEUs you must attend a CEU-eligible class, attend at least 80% of the class, and meet all class requirements.

AGE REQUIREMENT

Students should be at least 16 years of age to enroll in most continuing education courses, except for those courses specifically designated for younger students. Students under the age of 16 who have completed at least the seventh grade may be permitted to enroll on a case-by-case basis. Students will be considered for such admission if they demonstrate the ability to profit from instruction based on a set of specific criteria. For more information, call the counseling office (301.846.2471). Certain programs or courses of study include higher minimum age for participation when the college has determined that age is a factor necessary to the normal operation of the program or activity. Minimum age is used as a measure or approximation of the level of maturity, judgment and social independence needed for successful participation in the program or activity in addition to academic skills. [Authority: 34 CFR 110.12]

Certain programs offered by the Institute for Learning in Retirement are offered as special benefits for seniors, and include a minimum age for participation in the program or activity, as is permitted by federal law. Classes may be opened to other interested individuals if space is available. [Authority: 34 CFR 110.16]

COLLEGE POLICIES & PROCEDURES

All students agree to abide by the policies and procedures of Frederick Community College, including those concerning drug and alcohol abuse, weapons on campus, student conduct, classroom behavior, discrimination, grievance, and other policies and procedures. Students understand that not abiding by these policies and procedures will subject them to the penalties stated within. See www.frederick.edu for student policies and procedures and the Student Code of Conduct.

SCHOLARSHIPS

Scholarships are available for students who enroll in continuing education programs. Students interested in applying for Continuing Education scholarships should email foundation@frederick.edu and include CE scholarships in the subject line.
