

Top Tips for Taking the Accuplacer

Relax! The Accuplacer is not a test you can pass or fail! Scores on a placement test like this help you determine whether your current level of knowledge and skills will help you succeed in a college course. This test also helps you to identify your academic strengths and weaknesses. Think of it as a thermometer... you can “test the health” of your reading, writing, and math performances. If you are not college ready, there is still time to get the help you need to improve underdeveloped skills before heading off to FCC or any other school.

Rest up! You will be able to concentrate better on the test if you get plenty of rest and eat properly before the test. Consider arriving a few minutes early to give yourself time to gather your thoughts and relax before the test begins.

Give it some thought! Read each question carefully until you understand what the question is asking. If answering an item requires several steps, be sure you consider them all.

Get familiarized with Accuplacer! The Accuplacer is a placement test that is used across the nation. Be sure you understand the directions for each test before that test session begins. If you have a problem or question during the test, raise your hand and the test administrator or proctor will help you. Although they cannot answer test questions for you, they can help you with other types of problems.

Use the QR code to access Accuplacer sample questions!

Make every effort! Be sure to answer every item. You are not penalized for guessing. Your score will provide more useful placement information if you answer every item, even if you guess. Don't be afraid to change an answer if you believe that your first choice was wrong.

Stay positive! Believe in yourself, you can do it! Positive self-talk will also help reduce your test anxiety!
