Position Summary:

This position supports student achievement and implementation of the core curriculum for the Commission on Accreditation of Allied Health Education (CAAHEP) accredited program at the College. The clinical faculty member has the responsibility and accountability for evaluating the student in the clinical or laboratory setting and monitoring performance goals. Professional communication and accountability in all modalities are cornerstones of this role.

Essential Duties and Responsibilities:

The following are the functions essential to performing this job:

1. Apply standardized principles, policies, and concepts consistently.
2. Ensure compliance of student participation in the clinical or lab setting with program guidelines.
3. Collaborate with others in routine and challenging situations.
4. Communicate accurately to meet deadlines.
5. Participate in review of the curriculum.
6. Engage students in critical thinking, problem solving, and interpersonal workplace skills.
7. Infuse diverse, multicultural perspectives into the instructional process.
8. Participate in professional development activities annually in surgical technology and education topics.

Required Minimum Qualifications:

1. Graduate of a CAAHEP accredited surgical technology program with a minimum of a certificate of accomplishment in surgical technology
2. Current credential as a Certified Surgical Technologist, CST

Clinical/Field Experience Staff, Surgical Technology

3. Two years of current experience in the operating room in the scrub role
4. Ability to push, lift, and pull a minimum of 20 pounds, with or without reasonable accommodation
5. Ability to walk or stand for extended periods of time
6. Current American Heart Association Basic Life Support CPR Certification
7. Proof of immunizations and titers for MMR, varicella, TB, Hepatitis B, Tetanus, and annual Flu vaccine, or valid documentation of alternatives
8. Clear background check, drug screen, and fingerprinting

Desired Qualifications:

1. Associate degree in surgical technology or higher degree in a technical field
2. Teaching experience in surgical technology education
3. Excellent oral and written communication skills
4. Ability to work effectively with a wide range of constituencies in a diverse community

Note: The College reserves the right to change or reassign job duties, or combine positions at any time
