Frederick Community College Spring 2017

Continuing Education & Workforce Development schedule:

The information contained in this schedule is abbreviated for registration purposes. The provisions of this publication are not to be regarded as a contract between the student and Frederick Community College. The schedule is subject to change. FCC reserves the right to cancel courses due to insufficient enrollment. Full refunds will be issued for canceled courses. Because Frederick Community College is a public institution, photographs of students, employees and visitors in common areas on campus or at ceremonies and events may appear in print or electronic marketing materials without their permission.

Frederick Community College prohibits discrimination against any person on the basis of age, ancestry, citizenship status, color, creed, ethnicity, gender identity and expression, genetic information, marital status, mental or physical disability, national origin, race, religious affiliation, sex, sexual orientation, or veteran status in its activities, admissions, educational programs, and employment.

Frederick Community College makes every effort to accommodate individuals with disabilities for College-sponsored events and programs. If you have accommodation needs, please call 301-846-2408. To request a sign language interpreter, please call 240-629-7819 or 301-846-2408 (Voice) or email Interpreting@frederick.edu. Sign language interpreters will not be automatically provided for College-sponsored events without a request for services. To guarantee accommodations, requests must be made at least five workdays in advance of a scheduled event.

If your request pertains to accessible transportation for a College-sponsored trip, please submit your request at least two weeks in advance. Requests made less than two weeks in advance may not be able to be provided.

Board of Trustees: Myrna Whitworth, Chair • David F. Buffer, Vice Chair • Debra S. Borden • Nick Diaz • Gary V. Fearnow • Roger A. Wilson
Elizabeth Burmaster, Secretary/Treasurer • Janice Spiegel, Education Liaison/Office of the County Executive

Business & Careers

ACCOUNTING, BOOKKEEPING & FINANCE

QuickBooks Levels I & II

Get the full picture of your business performance and discover the new tools available in QuickBooks 2015. QuickBooks is the premier accounting software package for small to mid-sized businesses. Take charge of your business or develop your skills for the workplace. This course offers hands-on instruction from experienced CPAs and EAs. Share real world experiences in class discussions. You will learn how to set up a company file, work with customers and vendors, use basic banking tasks, track physical inventory, prepare balance sheets and accounts, process payroll, provide estimates and time tracking and generate custom reports and forms.

Note: Prerequisites: Basic computer skills and file management as well as some familiarity with accounting concepts. This course requires two textbooks.

SMB212 | 24 hours | \$349 (\$259 tuition + \$90 fees)  

INSTRUCTOR: **Sandy Pucciarelle**

3560 F 9am – 4pm 1/20–2/10 FCC/E109

Introduction to QuickBooks 2014

Learn to manage the financial aspects of your small business quickly and efficiently with this powerful accounting software program. QuickBooks is designed especially for the small to midsized business owner who enjoys Quicken's ease of use but prefers a more traditional approach to accounting. You'll gain hands-on experience as you learn how this well-designed accounting program can make it a snap to set up a chart of accounts; reconcile your checking account; create and print invoices, receipts, and statements; track your payables, inventory, and receivables; create estimates; and generate reports. Whether you're new to QuickBooks or have already used earlier versions of this accounting software program, this course will empower you to take control of the financial accounting for your business. Technical Software Requirements: Internet access and Email; One of the following browsers: Mozilla Firefox, Microsoft Internet Explorer (9.0 or above), Google Chrome, Safari; is recommended for this course (please be sure to install this software on your computer before the course begins); can be used for this course, but please be aware that there are a few features discussed in the course that are not available in the Pro edition.

3519	Online	5/17–6/23

Intermediate QuickBooks 2014

Learning how to use QuickBooks to its full potential goes far beyond learning the basic features of the program. Even many experienced users struggle when applying certain business situations to QuickBooks. In this course, we'll go beyond the basic introductory concepts, and you'll master many of the more advanced features and applications. You'll learn how to manage multiple company files and how to export and import list data from one file to the next. If your business handles inventory, you'll learn how to enter price levels and track discounts and credits. You'll even learn how to enter and track mileage for any vehicles that you use in your business. You'll learn how to create customer statements and assess finance charges on overdue balances, and write-off these past due balances when it appears that the customer is not going to pay. This course is designed for those QuickBooks users who have a good grasp on the basics or have successfully completed the Introduction to QuickBooks course. Whether you are a small business owner, bookkeeper, or accountant needing a QuickBooks refresher, after taking this course, you'll feel more confident and secure in accounting for your business.

Performing Payroll in QuickBooks 2014

Is the thought of preparing payroll daunting? Whether you have one employee or 20, the federal and state requirements are often the same! Using the payroll feature in QuickBooks 2014, you can master efficient techniques for creating paychecks, paying taxes, and generating forms and reports quickly and easily. You'll start by learning how to prepare for the payroll process by finding the information you need on the Internal Revenue Service website, from the details of complying with withholding requirements for taxes to the process for applying for an employer identification number. Then you'll review all aspects of how to set up and maintain payroll information for your employees in QuickBooks. Once you've mastered the basics, you'll gain troubleshooting tips and solutions to help you solve common problems and mistakes to simplify the whole payroll process. By the end of the course, you'll be ready to process payroll in QuickBooks and solve many of the problems that can pop up along the way.

BUSINESS & CAREERS

Accounting Fundamentals

Demand for accounting professionals currently exceeds supply. If you're interested in increasing your financial awareness while also gaining a marketable skill, this course is for you. You'll learn the basics of double-entry bookkeeping, as well as how to analyze and record financial transactions. You'll get hands-on experience with handling accounts receivable, accounts payable, payroll procedures, sales taxes, and various common banking activities. We'll cover all the bases, from writing checks to preparing an income statement and closing out accounts at the end of each fiscal period. Whether you're a sole proprietor looking to manage your business finances or you simply want to gain an understanding of accounting basics for career advancement or for personal use, this course will give you a solid foundation in financial matters.

Accounting Fundamentals II

While it is true that accounting professionals are scarce, those with corporate accounting experience are even more rare. This course will build on the knowledge you gained in the introductory accounting course to provide you with a solid understanding of corporate accounting practices. In Accounting Fundamentals II, you'll explore such topics as special journals, uncollectible accounts receivable, plant assets, depreciation, notes and interest, accrued revenue and expenses, dividends, retained earnings, and various financial reports for corporations. If you're interested in increasing your financial awareness and accountability while also gaining a marketable skill, this is the course for you.

NEW! Introduction to 3-D Printing

3D printing has been hailed as a solution to all manufacturing problems. Obviously that is exaggerated, but what is it good for, and when is traditional manufacturing still the better choice? In this course you will learn how to separate the real promise of the technology from the hype, and understand the work flow for a consumer-level 3D printer. You will become familiar with some typical online databases of objects available to print, and get a bit of experience with free or open-source software for all stages of the process. This class will be primarily focused to introduce you to the tools of the open 3D printer ecosystem, but the principles will apply to consumer 3D printers in general.

LRN112 | 4 weeks | \$195 fee

INSTRUCTOR: **Joan Horvath**

3534	Online	2/6-3/3
------	--------	---------

NEW! Introduction to Maker Tech: The New Shop Class

Arduino. 3D printing. Wearable tech. Your students or your kids may be talking about these things, but what is all this stuff, and how can you keep up and try to get ahead of them? This class will survey the core technologies found in makerspaces and give you a start in understanding what you will need to learn to create awesome technology projects. You will also learn how to find and sort through the many free resources online.

LRN113 | 4 weeks | \$245 fee

INSTRUCTOR: **Joan Horvath**

3536	Online	4/3-4/28

ONL Note: There are multiple sections available for this course. Please ensure the one for which you are registering is the date you want. Access information will be sent 24-48 hours before class start date.

ANALYSIS & PROCESS IMPROVEMENT

NEW! Introduction to Data Analysis

Data Analysis is quickly becoming one of the most sought-after skills in the workplace. Companies have vast amounts of data, but it is rare to have someone with the ability to analyze that data to see trends and make predictions. This course will give you a basic understanding of how to analyze data in a business setting. Businesses look for candidates with an understanding of how to analyze the data they have been collecting; this course will help you start on that journey.

LRN114 | 4 weeks | \$195 fee

INSTRUCTOR: **John Rutledge**

3538 Online 2/6–3/3

NEW! Intermediate Data Analysis

Many of your business decisions involve comparing groups for differences. For example, would men and women prefer different product features? In addition, you may look at relationships between variables. Does product recognition relate to subsequent product purchase? This Intermediate Data Analysis course will introduce you to the statistics behind these group differences and relationships. In addition, you'll learn how to work with ratings, graphs and user-friendly reports of statistical results.

LRN111 | 4 weeks | \$195 fee

INSTRUCTOR: **Mary Dereshiwsy**

3531 Online 3/6–3/31

NEW! Advanced Data Analysis

After taking this Advanced course in Data Analysis, you will be able to perform inquiries that will be useful to your business or organization, and have the skill necessary to communicate these results through graphs and text that your fellow employees will understand. Take the guesswork out of important company decisions and make decisions based on statistically significant information. Whether your business is home based or a large company, this class will take you to the next level where important decision-making is concerned.

LRN110 | 4 weeks | \$195 fee

INSTRUCTOR: **Jeff Kritzer**

3532 Online 4/3–4/28

NEW! Google Analytics

If you are not reviewing your website statistics, then you are missing several key opportunities to profit from your website traffic. This course, aimed at non-technical users, will take you through all the key techniques and how to use website analytics using the world-standard Google Analytics, a free online tool. You'll understand your visitor traffic better, learn how to calculate return on investment (ROI) for your online advertising, and find out how to get more conversions and sales from your website visitors. A must for anyone serious about leverage more success from their website.

Note: Technical Requirements: Access to flash needed for audio and slide presentations.

LRN115 | 4 weeks | \$195 fee

INSTRUCTOR: **Susan Hurrell**

3540 Online 2/6–3/3

NEW! Google Apps for Business

Google has variety of web-based applications and tools to help you become more productive, including Gmail, Google Calendar, Drive, Hangouts, Documents, Spreadsheets, Presentations, and more. Move beyond the basic features you figured out on your own. Be able to use them to work collaboratively and increase productivity. Learn how to run online meetings and webinars. Learn the ins and outs of all the tools Google has to help you become more productive and improve your work communication skills. You will learn time saving tips and strategies to get more done in your work and personal life.

LRN116 | 4 weeks | \$195 fee

INSTRUCTOR: **Jennifer Selke**

3541 Online 3/6–3/31

Lean Six Sigma

In today's world, Lean is a part of the business environment. Lean Six Sigma attacks inefficiencies, non-value added wastes caused by defects, non value-added flow of information or materials, non-productive time, data storage, stacks of inventory, overproduction and extra processing. With Lean Six Sigma techniques you will have the skills to lead successfully in both service and manufacturing industries. No prerequisites required!

LRN213 | 4 weeks | \$245 fee

INSTRUCTOR: **Scott Follett**

3547 Online 4/3–4/28

FOUNDATIONAL SKILLS

Administrative Assistant Fundamentals

Rapid growth in the health, legal services, data processing, management, public relations, and other industries have created many new job opportunities for administrative assistants. This course will help you discover and master the essentials of managerial and staff support, information and records management, communications technology, travel and meeting coordination, space planning, and office ergonomics. You'll become an indispensable member of your team by identifying opportunities and implementing solutions to turn your office into a high productivity machine. This course and its follow up (Administrative Assistant Applications) may help you prepare for the internationally-recognized Certified Administrative Professional exam offered by the International Association of Administrative Professionals. Note: This course is not affiliated with, nor has it been endorsed by, the International Association of Administrative Professionals.

Fundamentals of Supervision and Management

This course will help you master the basics of business by learning the language of management. You will learn how to make a successful transition from employee to manager and you'll learn how to manage your time so that you can deal with the constant demands of a managerial job. You will learn the skills required to delegate responsibility and motivate your employees. A large part of a manager's job involves getting things done through other people, and this course will help you understand how to influence and direct other people's performance. Finally, you will learn how to solve problems and resolve conflicts so you can accomplish your job more effectively. This course is a good choice for those looking for project management experience and those aspiring to obtain a PMI credential. It's also an excellent choice for existing PMI credential holders looking for an approved activity for PMI's continuing certification PDUs. At the end of this course, you'll receive a certificate indicating your completion of Project Management Institute (PMI) PDUs equal to the number of hours of this course.

Fundamentals of Supervision and Management II

What does a supervisor or a manager need to know? Have you ever felt technically prepared for a supervisor's role, yet felt defeated by all of the people issues that seem to arise? In this six-week online course, you will learn how to be a more effective manager or supervisor. You will master the basics of communication, because effective communication is essential in your quest to be a good manager or supervisor. In addition, we will discuss how you can develop your interpersonal skills, by understanding and dealing with the various people issues that arise at work. We are going to show you how you can understand various personality traits—in yourself and in others—and how they impact the ability to get the job done. These traits include emotional intelligence, the need for power, conscientiousness, agreeableness, and more. You will be able to assess your own personality, as well as the personalities of your co-workers and boss, and you'll develop a plan of action to improve both your interpersonal skills and your work relationships. This course is a good choice for those looking for project management experience and those aspiring to obtain a Project Management Institute credential. It's also an excellent choice for existing PMI credential holders looking for an approved activity for PMI's continuing certification PDUs. At the end of this course, you'll receive a certificate indicating your completion of PDUs equal to the number of hours of this course.

PROFESSIONAL DEVELOPMENT

LEADERSHIP & MANAGEMENT

Certificate in Frontline Leadership

The workplace is changing and those that aspire to leadership and management need to continually learn new skills or hone existing skills to keep pace. This program is tailored to meet the growing need for frontline leaders by developing emerging talent into leaders on the employers' frontline across all industry sectors. Frontline managers oversee a company's primary production activities and are critical to business success. They have responsibility for profit and loss, and the motivation of employees to top performance. Ideal candidates for this program are employees who may not be in a leadership or management role, but demonstrate inherent traits that organizations desire in leaders and managers. It is also ideal for newly promoted leaders and managers that need to further refine their skills. The certificate is comprised of five modules. Maximizing Supervisory Potential & Building Trust Under Pressure, Problem Solving Results: Solutions, Improvements & Innovations, Working Through Emotions & Conflict, Needs Based Coaching, and Managing for the Performance of Others. All sessions begin with the opportunity to share experiences, ask questions and process answers prior to diving into the next session. This workshop uses proven curriculum from our partner HDI Global (previously Achieve Global) and is taught by certified instructors. Courses may be taken individually or as a series.

Note: Course materials are included in price. Payment plan is available for this course.

Payment Plans Available

Take Advantage of FCC's payment plan when you register for a series of required courses in a program. This allows you to divide your total cost into automatic monthly payments from either a checking/savings account or major credit card. The plan is interest free with a non-refundable enrollment fee of \$25. Ask about the payment plan when you register at the CE Registration Center (FCC Conference Center "E" Building), call 301.624.2888 or email CRequest@frederick.edu for payment plan inquiries.

ONL Note: There are multiple sections available for this course. Please ensure the one for which you are registering is the date you want. Access information will be sent 24–48 hours before class start date.

Maximizing Your Supervisory Potential

Supervisors frequently find themselves performing an awkward and uncomfortable organizational balancing act juggling multiple and competing elements of their job responsibilities. In this workshop, participants will explore the three critical Hallmarks of Supervisory Success: personal credibility, work group commitment, and management support. You will learn the secrets of delegation success as well as thorough planning, clear communication, and effective follow-through. Participants will learn to apply basic leadership skills and to build trust under pressure. Become the successful manager or leader you want to be! This workshop uses proven curriculum from our partner HDI Global (previously Achieve Global) and is taught by certified instructors.

Note: Course materials are included in price.

Problem Solving Results: Solutions, Improvements and Innovations

Problems show up in every size and shape, often when you least expect it! Effective identification of and implementation of solutions is critical to a productive, collaborative, and effective work environment. This workshop provides participants with the skills and strategies required to identify appropriate solutions to problems and the energy to implement them. Topics include a dynamic five step process for problem solving, exploration of tools that can enhance success, delineation of decision making procedures and criteria, and demonstrates strategies to aid in execution and build and sustain momentum of those involved in change. This workshop uses proven curriculum from our partner HDI Global (previously Achieve Global) and is taught by certified instructors.

Working through Emotions and Conflicts

The work place demands collaboration and innovation demands diversity both of which can lead to conflict. Unproductive emotions and conflict in the workplace are two major interpersonal influences that deplete the energy required to meet goals. This workshop teaches participants important, effective ways to manage emotions and conflict. Discover skills for managing emotions and preventing runaway emotions so that you are able to remain productive and focused on organizational goals. Examine a model for the effective management of conflict which will result in increased collaboration, innovation, problem solving and productivity. You will come away from this workshop with confidence and skills to address those most vexing and scary emotional issues. This workshop uses proven curriculum from our partner HDI Global (previously Achieve Global) and is taught by certified instructors.

Note: Course materials are included in price.

Needs Based Coaching

Managers that practice needs-based coaching build sustainable motivation in their employees and teams by creating an environment where intrinsic needs are met. In this needs-based coaching training you will 1) look at motivation in a different way and learn to create an environment that unleashes superior performance, 2) learn how to affirm positive results in a way that highlights competence, strengthens relationships and encourages motivation in others, 3) learn a collaborative approach to developing capability in others that pairs the motivational needs of employees with the results producing needs of the organization, and 4) learn to give and receive feedback in a way that builds motivation and delivers organizational results. Application of these skills will transform your team and yield the results you desire. This workshop uses proven curriculum from our partner HDI Global (previously Achieve Global) and is taught by certified instructors.

Note: Course materials are included in price.

Managing the Performance of Others

Managers, supervisors and leaders help others do the work that makes an organization successful. They must ensure employee performance aligns with the direction and strategy of the organization. The skills taught in this workshop help participants prepare for and conduct different types of performance-related discussions. You will learn how to plan for performance discussions, clarify performance expectations, correct performance problems, and conduct performance reviews. Application of these skills and tools will increase the productivity, collaboration, ownership, and motivation of your team to achieve critical goals and ultimately success. This workshop uses proven curriculum from our partner HDI Global (previously Achieve Global) and is taught by certified instructors.

BUSINESS & CAREERS

BUSINESS WRITING

Grammar Refresher

Whatever your goals, a grasp of English grammar is important if you want to improve your speaking and writing skills. This course will help you gain confidence in your ability to produce clean, grammatically correct work. You'll explore the basics of English grammar - like sentence structure and punctuation - as well as more sophisticated concepts - like logic and clarity. A patient instructor, memorable lessons, vivid examples, and interactive exercises will give you ample opportunity to put what you learn into practice. Reacquaint yourself with old, forgotten rules, meet some new ones, and discover your own grammatical strengths.

A to Z Grant Writing

A to Z Grant Writing is an invigorating and informative course that will equip you with the skills and tools you need to enter the exciting field of grant writing! You'll learn how to raise needed funds by discovering how and where to look for potential funders who are a good match for your organization. You'll also learn how to network and develop true partnerships with a variety of funders, how to organize a successful grant writing campaign, and how to put together a complete proposal package. This course speaks mainly to nonprofit organizations, schools, religious institutions, and municipalities seeking grants from foundation, corporate, government, and individual donors. It's also an excellent primer for individuals wishing to become grant writing consultants or community grant writing volunteers. Many of this course's elements also easily translate to the for-profit field and to individual artists, and material specifically designed for businesses and individuals is included. No matter who you are or what level of experience you have, you'll find the A to Z of writing and submitting successful proposals here!

Emergency Management

DISASTER PREPAREDNESS & RESPONSE

Your Business Continuity Plan

The course will provide a step by step forum to develop a business continuity plan for your firm. You will learn to identify local natural and technological hazards specific to your business classification and geographical location. The potential of those hazards will be evaluated in a risk analysis to assist you in addressing potential business interruption and loss. You will use your specific hazard identification and risk analysis to develop a custom business continuity plan. The plan will be the key to both developing business resiliency, as well as identifying methods to mitigate potential loss. Business Continuity Advisors from the FCC Mid-Atlantic Center for Emergency Management will provide instruction and individual assistance in the development of your plan. Join our Business Continuity Advisors in exploring your "risk business" and preparing for potential challenges.

Praxis Core Preparation

Are you a prospective teacher who needs to pass the Praxis Core Exam? Have you already attempted the Praxis Core and not been successful? If you answered yes to either of these questions, then this course is for you! You'll develop all the skills you need for the test as we review and prepare for everything it includes. You'll get familiar with the different types of questions that appear on the reading and writing tests. You'll master the many areas of math that you'll be tested on: number operations, negative numbers, exponents, square roots, order of operations, decimals, fractions, percentages, algebra, geometry, systems of measurement, and probability and statistics. To prepare for the two essays, we'll discuss what constitutes high scoring essays. We'll also go through the process of writing each essay in the amount of time allotted. You'll learn useful test-taking strategies and get plenty of practice questions that are similar to what you'll find on the exam. You'll also have the opportunity to take a full-length practice test in each subject area. Using clear explanations, numerous examples, graphics, animation, and videos, this course will not only prepare you for the Praxis Core, but do so in a way that's fun and interesting. After completing this course, you'll be totally ready to pass the Praxis Core Exam!

Computers & Technology

COMPUTER & SOFTWARE APPLICATIONS

Keyboarding

If you want to learn touch-typing or improve your existing typing skills, this is the perfect course for you! In these lessons, you'll use the Keyboarding Pro 5 program, a typing tutorial designed for personal computers, to learn how to touch-type—that is, to type text you read from a printed page or a computer screen without looking at your keyboard. Using Keyboarding Pro's built-in word processor, you'll learn how to create, edit, and save word processing documents. As you improve your typing speed and accuracy, you'll use the word processor's timed writing feature to continually hone your skills. You'll even learn posture tips to minimize fatigue and help prevent carpal tunnel syndrome. With the skills you master here, you'll become faster and more confident at the keyboard. By the end of the course, you'll know how to touch-type the alphabetic, numeric, and symbol keys; create, save, and edit word processing documents; and successfully take a timed writing test during a job interview.

Note: This course is not compatible with Macintosh OS.

Introduction to Microsoft Excel 2010

Do you work with numbers? Then you need to master Microsoft Excel 2010—and this is the place to do it. Even "non-techie" beginners will find it easy to learn Excel in this fun, step-by-step online course. These lessons will teach you dozens of shortcuts and tricks for setting up fully formatted worksheets quickly and efficiently. You'll also learn the secrets behind writing powerful mathematical formulas and discover how to use the function wizard to quickly and automatically calculate statistics, loan payments, future value, and more. In addition, you'll get tips on sorting and analyzing data, designing custom charts and graphs, creating three-dimensional workbooks, building links between files, endowing your worksheets with decision-making capabilities, and automating frequently-repeated tasks with macros and buttons. This is not a tutorial, but an in-depth class where you'll get training, help, and personal support from an experienced instructor as you're learning Excel basics step-by-step. By the time you're done, you'll be using this vital Office 2010 tool like a pro.

PROGRAMMING

Programming Fundamentals

This course prepares a student with no previous programming experience or knowledge for an entry level programming class. It covers numbering systems, character sets, computer processor architecture, programming genealogy, and introduces the student to programming languages. Topics include: programming introduction, programming basics, data structures, algorithms, and programming applications. An overview and review of different compiled and scripting programming languages is included. The course concludes with a series of programming exercises.

Note: A textbook is required for this course.

PRG140 | 18 hours | \$299 (\$219 tuition + \$80 fees)

INSTRUCTOR: **Carl Burnett**

Web Design and Development

Learn the basics of web development! Designed for those with little or no experience in web development. This course covers basic programming structures, as well as some advanced front-end development techniques of HTML5 and CSS3. Responsive design techniques using Bootstrap are included. Efficient web construction and deployment techniques are demonstrated to enable the programmer to meet the highly flexible requirements of modern website needs. Students will learn best practice techniques for site and code management and construction. By the end of the course each student will have constructed an efficient, deployable, HTML5/CSS3 responsive website with interactive components driven by JavaScript and jQuery.

Note: Prerequisite: Programming Fundamentals (PRG). A textbook is required for this course.

PRG141 | 36 hours | \$749 (\$579 tuition + \$170 fees)

Introduction to SQL

Learn the key concepts of Structured Query Language (SQL), and gain a solid working knowledge of this powerful and universal database programming language. In this course, you'll learn about the basic structure of relational databases and how to read and write simple and complex SQL statements and advanced data manipulation techniques. First, you'll learn about the traditional database structure, the structure and history of the relational database, and what structured query language (SQL) is and how it relates to the relational-database structure. Next, you'll discover how to use SQL to sort and retrieve data from tables and how to use SQL to filter retrieved data. You'll learn how to reformat retrieved data with calculated fields and how to merge columns and create alternate names for columns. You'll also learn how to gather significant statistics from data using aggregate functions, and you'll see how to extract data from multiple tables simultaneously using joins and subqueries. In addition, you'll learn how to manipulate data using the INSERT, UPDATE, and DELETE statements. We'll also cover how to use SQL to create and maintain tables, and you'll learn how to create and use views to simplify complex queries, summarize data, and manipulate data stored in tables. You'll discover how transaction processing, constraints, and indexes are implemented in SQL. And finally, you'll discover how stored procedures, triggers, and cursors are implemented in SQL. By the end of this course, you'll have a solid working knowledge of structured query language. You'll feel confident in your ability to write SQL queries to create tables; retrieve data from single or multiple tables; delete, insert, and update data in a database; and gather significant statistics from data stored in a database.

Introduction to C# Programming

Learn the fundamentals of computer programming with C#, the in-demand and incredibly useful programming language that incorporates the best features of Visual Basic, C++, and Java. You'll first develop your understanding of programming fundamentals: input/output operations, decision making, and looping. Then, we'll explore the many benefits of object oriented programming, with plenty of vivid, real-life examples. Then, you'll gain hands-on experience with sequential data files, and you'll be able to build a professional-looking and intuitive Graphical User Interface (GUI) application on your very own computer. Because there is no better way to learn programming than hands-on practice, almost every lesson includes practical examples and assignments you can use to develop your knowledge of programming. Learn to program the right way: by using a state-of-the-art language to build impressive applications on your schedule and on your very own computer.

Introduction to Java Programming

If you want to learn computer programming but don't have any prior experience, you'll enjoy a tour of Java, one of the most widely used computer languages in the world. It's a breeze to learn in a friendly and supportive environment. Start with the basics of programming and go on to write your own programs and integrate input and output, calculations, decision making, and loops. Build your knowledge and confidence with easy-to-understand examples and plenty of skill-building exercises. So whether you just want to try it out to see if you like it or plan on doing more with Java, this is a great place to start! We'll use the latest release of Java, from Oracle, the company that maintains and supports the language. We'll also use BlueJ, a graphical development environment designed especially for students. Both are free open-source products, and I'll give you the proper instructions to download them. By the time we're done, you'll be comfortable with Java programming and ready for more!

WEBSITE DEVELOPMENT

WordPress, Level I

This introductory hands-on course will focus on what WordPress is, what it can do, and how to use it for a blog, a website, or both. Students will work on WordPress site provided for them for use during the class. This class is perfect for staff responsible for a company WordPress website or blog.

Note: Prerequisite: Computer and web browser proficiency.

INT171 | 5 hours | \$149 fee

INSTRUCTOR: **Jeannine Morber**

3139	S 9am - 2pm	3/11	FCC/H260
-------------	-------------	------	----------

WordPress, Level II

Learn to add more functionality to their WordPress website and blog by installing and configuring WordPress plugins. Students will also learn to change the look of the website by installing and configuring a new theme. This is a hands-on workshop where students will work on WordPress sites provided for them to use during class.

Note: Prerequisite: WordPress Level One or permission of the instructor.

INT174 | 6.5 hours | \$199 fee

INSTRUCTOR: **Jeannine Morber**

3515	S 9am - 4pm	3/18	FCC/H260
-------------	-------------	------	----------

WordPress, Level III

Explore more advanced plugins and features of WordPress such as search engine optimization, website backup, spam filters, and login in tracking and security plugins. This is a hands-on workshop where students will work on WordPress sites provided for them to use during class.

Note: Prerequisite: WordPress Level Two or permission of the instructor.

Website in a Day with Wix

No coding required website builder Wix helps you create stunning, functional websites within a matter of hours. This is accomplished utilizing a simple, intuitive drag-and-drop interface. Additionally, Wix is very secure and does not require updating, patching, or modifying of any software. Wix offers an easy-to-use interface allowing those without coding experience to create personal and professional websites with blogs, galleries, slideshows, online stores, contact forms and more. Wix benefits include, secure web hosting so users are not required to update, patch, or modify any software. You will learn how to set up a free trial account with Wix, choose from Wix's over 500 professional website templates, add pages, a blog page, photos, and photo galleries. You'll also create a contact form, connect social media, and learn how to publish your site. Attendees will walk away having used this popular tool to create a website in a day. With Wix's built in support infrastructure you'll have the confidence to tackle your next project on your own.

Note: Wix offers a free basic account which will be used in class. Requirements: Computer, web browser, and mouse proficiency.

INSTRUCTOR: **Jeannine Morber**

3138 S 9am - 4pm 4/8 FCC/H260

Website in a Day with Weebly

Create an affordable, functional website without having to write code using Weebly's user-friendly drag-and-drop website builder. With Weebly you'll create multiple page mobile-ready websites, blogs, galleries, and ecommerce sites. Weebly also offers built in hosting and maintenance so there is no need to update software. You will learn how to set up a free trial account with Weebly, choose from Weebly's mobile responsive website templates, create pages or select from one of over 40 preset page layouts, add a blog page, photos, and photo galleries. When you change templates in Weebly all of your existing content transfers over. You'll also create a contact form, connect social media, and learn how to publish your site. You'll be amazed at how easy it is to create a website in a day. Weebly's flexibility allows you to customize your layouts and template designs making your site truly your own.

Note: Weebly offers a free basic account which will be used in class. Requirements: Computer, web browser, and mouse proficiency.

INSTRUCTOR: **Jeannine Morber**

3136 S 9am - 4pm 4/15 FCC/H260

Website in a Day with Squarespace

Want to create a beautiful, functional website without having to write a line of code? Squarespace website builder provides the tools which enable you to create multiple page mobile-ready responsive websites, blogs, galleries, and ecommerce sites. This is accomplished utilizing a simple drag-and-drop interface. Additionally, Squarespace is very secure and does not require updating, patching, or modifying of any software. Squarespace takes care of all of that for you! You will learn how to set up a free trial account with Squarespace, choose a beautiful designer website template, add pages, a blog page, photos, and photo galleries. You'll also create a contact form, connect social media, and learn how to publish your site. Squarespace has a style editor that helps you do all the custom styling without touching codes, from changing of background images all the way down to customizing thumbnail details. Attendees will walk away having created a website in a day, empowered to take the next steps on your own.

Note: Squarespace offers a free 14 day trial which will be used in class. Requirements: Computer, web browser, and mouse proficiency.

INSTRUCTOR: **Jeannine Morber**

3135 S 9am - 4pm 4/22 FCC/H260

Introduction to Dreamweaver CS6

You've taken your first steps into Web design, and your fingers are beginning to cramp from all that typing—but don't panic! Developing your coding skills has not been in vain! You're ready for Dreamweaver—Adobe's preeminent Web development application—which has been designed from the ground up to make developing websites easier. You'll learn how to use Dreamweaver's intuitive tool set to structure text, and investigate the myriad formatting options CSS provides. Work with images, build navigation elements, discuss effective layout methods, learn where and when to use tables, and examine successful site planning strategies. By the end of the course, you'll have successfully built a website and know how to use Dreamweaver's built-in FTP tools to upload to the server of your choice.

Note: Prerequisites: ed2go's Creating Web Pages and Introduction to CSS3 and HTML5, or similar coding experience is recommended prior to taking this course. There are multiple sections available for this course. Please ensure the one for which you are registering is the date you want. Access information will be sent 24-48 hrs before class start date.

Creating Web Pages

Create and post your very own Web site on the Internet using HTML in this extensive, hands-on, six week workshop. First, you'll learn about the capabilities of the World Wide Web and the fundamentals of web design. Then, with your instructor's patient guidance, you'll plan the content, structure and layout of your Web site, create pages full of neatly formatted text, build links between the pages and to the outside world, and add color, backgrounds, graphics, and tables. You'll also learn critical and timely information on securing the best possible location in search engine listings, and powerful no-cost or low-cost web marketing strategies.

Advanced Web Pages

Take your Web design skills to the next level! Whether you want to work as a freelance Web designer, join a Web development team, or build websites for your organization, this course will give you the advanced tools you need. In these lessons, you'll learn to write HTML code for page content and CSS code for page styling. You'll master cutting-edge techniques that take advantage of HTML5 and CSS3, the latest versions of the languages used to create modern websites. With the help of step-by-step instructions, you'll build interactive websites that collect information from visitors through email signup and feedback forms. In addition, you'll learn the latest and most effective techniques for presenting layouts and video that work in any browsing environment from a desktop computer to a mobile device. Along the way, you'll explore aesthetics, color scheming, and accessible Web page design. And don't worry if you have only the most basic exposure to Web design! This course walks you all the way through to purchasing and uploading your site to a remote server. You won't need any special software, either—just the text editor that comes installed with your computer. Whether you're a beginner or an experienced Web designer wanting to update and enhance your skills, this course is perfect for you. In just a few weeks, you'll be designing state-of-the-art websites that offer all the sophisticated elements that today's Web users expect to see. This course is suitable for Windows or Mac users. You will need to download and install a free code editor for Windows or Mac.

IT CERTIFICATION PREPARATION

Basic CompTIA A+ Certification Prep

Time to roll up those sleeves and dive inside the personal computer! The Basic CompTIA A+ Certification Prep course teaches you about the hardware common to virtually every personal computer, including microprocessors, RAM, power supplies, motherboards, BIOS, CMOS, the expansion bus, and input/output devices. You'll learn how things work, how to configure everything, and how to troubleshoot in real world environments. This course gives you the knowledge upon which you'll base the rest of your CompTIA A+ certification studies for the 220-801 and 220-802 exams. Plus it helps you take that first step to becoming an excellent PC technician. So what are you waiting for?!

Note: This course has been updated and reflects content for the 900 level series exams. There are multiple sections available for this course. Please ensure the one for which you are registering is the date you want. Access information will be sent 24-48 hours before class start date.

Intermediate CompTIA A+ Certification Prep

Learn how to install, organize, maintain, and troubleshoot three different versions of Windows. You'll examine and compare the features and structures of Windows XP, Vista, and 7. Toward the end of the course you'll get a deeper understanding of how we use virtualization and virtual machines in modern networks. Plus you'll learn about printers, from the various technologies in use to installing and troubleshooting. This course takes you through the second of three steps you need to become both a highly-competent PC tech and a CompTIA A+ certified technician, using the 801 and 802 competencies.

CompTIA® Security+ Certification Prep 1

The U.S. Department of Labor forecasts that information security analysts will be among the fastest-growing occupations through 2022. CompTIA's Security+ certificate is widely regarded as the entry-level certificate for this fast-growing field. Getting that certificate requires passing CompTIA's challenging SY0-401 exam. This course covers the key terminology and concepts you need to know to ace the exam, all in a condensed format for rapid reading. The course provides helpful study tools including crossword puzzles, games, and practice questions to aid with learning. All of the content is geared toward helping you pass the SY0-401 exam so you can leave the test center with your Security+ certificate in hand. Please note that if you received your CompTIA Security+ certification before 1/1/2011, you will be a lifetime credential holder not subject to credential renewals. However, if you achieve your certification after 1/1/2011, you are subject to a CompTIA Security+ renewal process every three years.

Construction & Building Trades

ELECTRICAL

Fundamentals of Structural Wiring

Covers basic principles and fundamentals of electricity and electrical work. Course will include components of schematics and blueprints, importance and role of the National Electrical Code, and safety. Students will receive hands-on experience with tools of the trade, wiring, and installing components of accessory terminations. This course is offered in a Hybrid format where the lecture portion of the course is completed online outside of class meeting times. This course is offered for credit as BLD141. See the credit schedule for more information.

Note: Prerequisite: EN51 or ESL70 or ESL97. Online registration is not available. Please register on campus. There is a textbook required for this course, visit www.bookstore.frederick.edu for details.

ELC167 | 90 hours | \$639 (\$476 tuition + \$163 fees)  

INSTRUCTOR: **CE Instructor**

3397 Tu, Th 6pm - 9pm 1/24-3/9 Monroe Center /MC117

Commercial Electric

Continues concepts and skills covered in the first two courses of the electrical building trades program. This course covers wiring methods mainly used in commercial construction. Topics covered to include: conduit (bending, installation), commercial lighting (fluorescent, HID), and transformers. Students will also have an overview of the applicable sections of the National Electrical Code (NEC), including box/conduit fill, and load calculations. This course is offered in a Hybrid format where the lecture portion of the course is completed online outside of class meeting times. This course is offered for credit as BLD145. See the credit schedule for more information.

Note: Prerequisite: BLD142 or ELC121 or ELC168. Online registration is not available. Please register on campus. There is a textbook required for this course, visit www.bookstore.frederick.edu for details.

ELC166 | 60 hours | \$507 (\$367 tuition + \$140 fees)  

INSTRUCTOR: **CE Instructor**

3390 M, W 6pm - 8:30pm 1/23-3/8 Monroe Center /MC117

Residential Electric

This course will advance student knowledge in the National Electric Code (NEC) and its application. Topics covered will include NEC calculations; as well as print reading, circuitry, schematics, materials, and circuit testing. Hands-on applications will be conducted in a lab setting. This course is offered in a Hybrid format where the lecture portion of the course is completed online outside of class meeting times. This course is offered for credit as BLD142. See the credit schedule for more information.

Note: Prerequisite: BLD141 or ELC120 or ELC167. Online registration is not available. Please register on campus. There is a textbook required for this course, visit www.bookstore.frederick.edu for details.

ELC168 | 60 hours | \$507 (\$367 tuition + \$140 fees)  

INSTRUCTOR: **CE Instructor**

3391 Tu, Th 6pm - 8:30pm 3/21-5/11* Monroe Center /MC117
*No class 3/30.

Specialized Systems

Covers topics in the electrical field such as CAT5, CAT6, CATV, fiber optics, fire alarms, photovoltaic, and electric controls. Students will receive hands on experience working with materials and components in a lab setting. Students will also be introduced to the National Electrical Code (NEC) codes governing these various sub-fields of the electrical industry. This course is offered in a Hybrid format where the lecture portion of the course is completed online outside of class meeting times. This course is offered for credit as BLD146. See the credit schedule for more information.

Note: Prerequisite: BLD142 or ELC121 or ELC168. Online registration is not available. Please register on campus. There is a textbook required for this course, visit www.bookstore.frederick.edu for details.

ELC169 | 60 hours | \$497 (\$357 tuition + \$140 fees)  

INSTRUCTOR: **CE Instructor**

3392 M, W 6pm - 8:30pm 3/20-5/10* Monroe Center /MC117
*No class 3/27, 3/29.

PROFESSIONAL DEVELOPMENT

National Electric Code – NEC – Update-10 Hour

This course covers the updates to the National Electric Code (NEC). The NEC is updated every 3 years. Learn about the important changes that have happened to the NEC, and how perform new calculations. An overview of NEC navigation and application will assist you in staying compliant. There will also be time to cover NEC related questions.

TRD265 | 10 hours | \$185 (\$159 tuition + \$26 fees)

WELDING

Introduction to Welding

Introduces the students to the basic processes in the welding field. Emphasizes welding safety. Introduces the various types of welding equipment, identification and selection of filler material, types of welds, and the different welding positions. This course is offered for credit as BLD121.

Note: Prerequisite: EN51 or ESL70 or ESL97. You must register on campus. There is a textbook required for this course, visit www.bookstore.frederick.edu for details.

WLD160 | 90 hours | \$748 (\$476 tuition + \$272 fees)  

INSTRUCTOR: **CE Instructor**

3399 Tu, Th 9am - 4:30pm 1/24-3/9 Monroe Center /MC118

3400 Tu, Th 6pm - 9pm 1/24-5/11* Monroe Center /MC118

*No class 3/28, 3/30.

Welding Symbols & Blueprint Reading

Introduces students to interpret various types of prints used in the welding industry. Topics include: print reading, measurements, metallurgy, types of welds and joints, and welding symbols. This course is offered for credit as BLD120.

Note: Prerequisite: EN51 or ESL70 or ESL97. You must register on campus. There is a textbook required for this course, visit www.bookstore.frederick.edu for details.

WLD165 | 30 hours | \$284 (\$238 tuition + \$46 fees)  

INSTRUCTOR: **CE Instructor**

3555 Tu, Th 5pm - 6pm 1/24-5/11* Monroe Center /MC118

*No class 3/28, 3/30.

Advanced Welding: SMAW

Focuses on Shielded Metal Arc Welding (SMAW). Students will perform a SMAW welding performance qualification test on limited thickness test plates in the 2G and 3G positions on carbon steel in accordance with American Welding Society D1.1 Structural Welding Code, this leads to an in house certification. This course is offered for credit as BLD122.

Note: Prerequisite: BLD121 or WLD160. You must register on campus. There is a textbook required for this course, visit www.bookstore.frederick.edu for details.

WLD161 | 90 hours | \$748 (\$476 tuition + \$272 fees)  

INSTRUCTOR: **CE Instructor**

3401 Tu, Th 9am - 4:30pm 3/21-5/11* Monroe Center /MC118

*No class 3/28, 3/30.

3402 Tu, Th 6pm - 9pm 1/24-5/11* Monroe Center /MC118

*No class 3/28, 3/30.

Advanced Welding: GMAW

Focuses on Gas Metal Arc Welding (GMAW), Flux Cored Arc Welding (FCAW), and oxyfuel cutting on carbon steel. Students will develop skills to weld groove welds in multiple positions. Students will perform GMAW and FCAW welder performance qualification tests on limited thickness test plates on carbon steel in accordance with American Welding Society D1.1 structural Welding Code. This course is offered for credit as BLD127.

Note: Prerequisite: BLD121 or WLD160. You must register on campus. There is a textbook required for this course, visit www.bookstore.frederick.edu for details.

WLD166 | 60 hours | \$606 (\$357 tuition + \$249 fees)  

INSTRUCTOR: **CE Instructor**

3396 M, W 6pm - 8:30pm 1/23-5/10* Monroe Center /MC118

*No class 3/27, 3/29.

SAFETY

Forklift Safety

Pick, travel, and place loads with confidence after completing this hands-on class for forklift operators. Walk through procedures for forklift inspection, maintaining lift stability and tip-over prevention, loading and unloading trailers, and identifying forklift types and operations. Classroom and practical training meet the requirements of OSHA 1910.178(l).

Note: This class meets at a local warehouse in Frederick County

TRD211 | 8 hours | \$178 (\$68 tuition + \$110 fees)  

INSTRUCTOR: **CE Instructor**

3154 S 9am - 5:30pm 4/29 Off Campus

OSHA 10-Hour Construction Safety and Health Outreach Program

The OSHA Outreach Training Program for the Construction Industry provides training for workers and employers on the recognition, avoidance, abatement, and prevention of safety and health hazards in workplaces in the construction industry. The program also provides information regarding workers' rights, employer responsibilities, and how to file a complaint. Students who successfully complete this course will receive OSHA 10 cards.

TRD205 | 12 hours | \$101 (\$75 tuition + \$26 fees)  

INSTRUCTOR: **Charles LoSchiavo**

3155 M, Tu 9am - 4pm 5/22-5/23 FCC/E104

INDUSTRY TEST PREPARATION

Commercial Driver's License – CDL – Class B Training

In this class, students develop the skills to drive a dump truck, commercial delivery truck, or other two-axle vehicle weighing over 26,000 pounds. Class topics include defensive driving, road safety, pre-trip inspections, and vehicle control and maneuvering. Successful completers will have one opportunity to take the licensing exam as part of the class.

Note: This course is not available for online registration. Applicants must complete a screening process and have a current DOT physical card and a CDL Class B Learner's Permit with air brake endorsement and passenger endorsement. Please contact Adrienne Summers 240.629.7987 for further instructions.

TRK155 | 65 hours | \$1768 (\$258 tuition + \$1510 fees)  

INSTRUCTOR: **CE Instructor**

3147 S 8am - 4pm 1/21-3/4 Hagerstown Community College

Electricity: Journeyman/Master Exam Prep.

Prepares students for the master's license exam. Reviews the NEC, calculations, and other critical components to prepare for the exam. Emphasis is on calculations. Students must bring a 2014 National Electrical code book.

TRD157 | 30 hours | \$259 (\$239 tuition + \$20 fees)  

INSTRUCTOR: **CE Instructor**

3148 Th 6pm - 9pm 3/2-5/11* FCC/E124B

*No class 3/30.

EPA 608/CFC Certification

The EPA 608 certification is required for all technicians working with CFCs. This course will prepare you to take the exam. Core, Type 1, 2, & 3 will all be reviewed. At the end of the class, each student will have the opportunity to take the EPA 608 exam. Students will need to pass Core and one or more of the three Types to receive certification. Students passing all four sections will receive Universal certification.

TRD260 | 8.5 hours | \$179 (\$119 tuition + \$60 fees)  

INSTRUCTOR: Charles LoSchiavo

3149 W 9am - 5:30pm 5/24 FCC/E104

MD Stationary Engineer Exam Prep I

This course is designed to assist the individual in gaining necessary tools to successfully pass the Maryland grade 5 & 4 Stationary Engineer licensing exams. This course will provide an introduction for individuals interested in this field. Course topics include basic electricity, boiler types and equipment, steam system accessories, burners and fuel train, inspection and maintenance, water treatment, emergency operations, auxiliary equipment, combustion and boiler controls, LOTO and basic arithmetic operations.

TRD191 | 39 hours | \$319 (\$289 tuition + \$30 fees)  

INSTRUCTOR: CE Instructor

3097 Tu, Th 6pm - 9pm 3/14-4/27* FCC
*No class 3/30.

PROFESSIONAL DEVELOPMENT

Introduction to AutoCad I

Introduces the in-depth study of the fundamentals of AutoCAD. This is an intensive hands-on course covering the basic commands used to create 2-D production drawings. Students learn how to create and modify geometrical designs, plot from Paper Space, and use layers to organize and separate information. Also offered for credit as CAD101.

Note: Prerequisite: EN51 or ESL97 or ESL70. This course is not available for online registration. Registrations will be accepted at the CEWD Registration office, located in the Conference Center on the main campus of FCC. A textbook is required for this class. One or more sections of this class may require online coursework outside of class meeting times. For more information, contact Adrienne at 240.629.7987.

DRF104 | 37.5 hours | \$426 (\$357 tuition + \$69 fees)  

INSTRUCTOR: CE Instructor

3151 Tu 5pm - 7:35pm 1/24-5/9 FCC/B114
3150 Th 5pm - 7:35pm 3/23-5/11* FCC/E107
*No class 3/30.

Introduction to AutoCad II

Continues the study of AutoCAD at an intermediate level. Students will create pictorial views and three dimensional drawings. Additionally, students will be introduced to other CAD systems such as Autodesk, Architecture, Revit, Civil 3D and Microstation. Also offered for credit as CAD102.

Note: Prerequisite: CAD101 or DRF104. Prerequisite: EN51 or ESL97 or ESL70. This course is not available for online registration. Registrations will be accepted at the CEWD Registration office, located in the Conference Center on the main campus of FCC. A textbook is required for this class. One or more sections of this class may require online coursework outside of class meeting times. For more information, contact Adrienne at 240.629.7987.

DRF106 | 37.5 hours | \$426 (\$357 tuition + \$69 fees)  

INSTRUCTOR: CE Instructor

3152 M 5pm - 7:35pm 1/23-5/8 FCC/B114

NEW! Introduction to Revit

Introduction to Autodesk Revit software, a Building Information Modeling (BIM) program, and its' application as a design/drawing tool throughout the design process. Allows students to design structural components in 3D, annotate with 2D drafting elements and access building information from the building models database. Prerequisite EN51 or ESL97. Also offered for credit as CAD130. See credit schedule for more information.

Note: Prerequisite: EN51 or ESL97 or ESL70. This course is not available for online registration. Registrations will be accepted at the CEWD Registration office, located in the Conference Center on the main campus of FCC. One or more sections of this class may require online coursework outside of class meeting times. For more information, contact Adrienne at 240.629.7987.

DRF124 | 37.5 hours | \$426 (\$357 tuition + \$69 fees)  

INSTRUCTOR: CE Instructor

3153 Th 5pm - 7:35pm 1/26-3/16 FCC/E107

Online Course

Eligible for senior tuition waiver.

Eligible for disabled & retired tuition waiver.

See pages 52 & 53.

Healthcare Careers

PHARMACY TECHNICIAN

The role of Pharmacy Technicians is expanding, which requires cross-cutting instruction on wide-range of skills and topics. The Pharmacy Technician Training is a series of three courses designed to introduce students on the practices and responsibilities of becoming a Pharmacy Technician in multiple pharmacy environments. Students completing all three courses in the Pharmacy Technician Training program are prepared to sit for the Pharmacy Technician Certifying Board (PTCB) exam, a nationally recognized certification.

Registration Information: Students must register concurrently for CAH330, CAH331 and CAH332. This course is not available for online registration. Registrations will be accepted in person at the Conference Center (E building) on FCC's main campus. For more information on this program, contact FCC at 240.629.7904.

Payment plan available. Call 301.624.2888 for details.

Prerequisites and other Requirements:

- Placement into EN52 or ESL72 and Math82 (students will take placement tests at FCC Testing Center), proof of being 18 years of age or older at time of registration.
- Availability or access to computer or tablet and a strong Internet connection
- SAF 157: CPR Basic Life Support (taken prior to program completion).

Pharmacy Technician Training 1

Topics include: medical terminology and basic anatomy and physiology; math for pharmacy technicians including: systems of measure, dose calculations, ratios and proportions, concentrations and dilutions; pharmacology; dosage forms and routes, medication errors, pharmacy law, practices in: community and ambulatory care pharmacy hospital pharmacy, home care pharmacy, specialty care pharmacy; and medication safety.

Students learn from a combination of live, on-line, and group style learning formats. Students meet in person 3.5 hours each week and complete an additional 10 hours per week of online coursework.

CAH330 | 83 hours | \$1,312 (\$349 tuition + \$963 fees)  

INSTRUCTOR: CE Instructor

3242 W 5:30pm - 9pm 2/1-3/8 Monroe Center/MC123

Pharmacy Technician Training 2

CAH331 | 83 hours | \$478 (\$349 tuition + \$129 fees)  

INSTRUCTOR: CE Instructor

3243 W 5:30pm - 9pm 3/15-4/26* Monroe Center/MC123
*No class 3/29.

Pharmacy Technician Training 3

CAH332 | 83 hours | \$478 (\$349 tuition + \$129 fees)  

INSTRUCTOR: CE Instructor

3244 W 5:30pm - 9pm 5/3-6/7 Monroe Center/MC123

Total Program Hours: 249

Total Program Cost with CPR: \$2,353

CERTIFIED NURSING ASSISTANT (CNA/GNA)

Become an integral part of a healthcare team in one of the fastest growing healthcare fields. Learn basic patient care skills, your role as a member of the healthcare team, disease processes, infection control, and safety issues.

Combined with a clinical experience, this course meets all eligibility requirements for CNA certification in the state of Maryland and prepares you for the Geriatric Nursing Assistant (GNA) test. Application fees, GNA testing, background checks and materials are included. Textbooks are not included.

The program requires study time outside of class and includes tests, both written and practical (hands-on) skills, which must be passed prior to starting the clinical sessions.

Registration Information: This course is not available for online registration. Registrations will be accepted in person at the Conference Center (E building) on FCC's main campus. For more information on this program, contact 240.629.7904.
Payment plan available. Call 301.624.2888 for details.

Prerequisites & other requirements:

- Placement into EN52 or ESL72 (Students will need to take placement tests in the college's Testing Center)
- Provide proof of being 18 years of age or older at time of registration.
- CAH145 – Foundations for Healthcare Careers

Other program requirements PRIOR to Clinical:

- Provide evidence of a negative TB test or chest X-ray.
- Undergo a physical examination and provide proof of up-to-date immunizations.
- Current American Heart Association Healthcare Provider or Basic Life Support CPR card or register for SAF157: CPR Basic Life Support.
- Undergo a background investigation and fingerprinting. Fees for background check and fingerprinting are included in course fees.

Students will receive paperwork for their physical exam, immunizations, fingerprinting and background check during the beginning of the CNA course, CAH132.

Textbooks

Textbooks available at www.frederick.edu/student_services/bookstore.aspx

Foundations for Healthcare Careers

CAH145 | 36 hours | \$523 (\$229 tuition + \$294 fees)  

This course introduces students to important healthcare concepts and professional career development skills to prepare students for working in a healthcare setting. Students are introduced to medical terminology, the current healthcare system structure and essential concepts such as HIPAA, documentation and medical records, patient rights, cultural competency, workplace professionalism, healthcare ethics and legal responsibilities, environmental safety, infection control and medical terminology. Communication skills are practiced with special focus on customer service and interpersonal communication concepts. Students will also gain professional development skills in successful resume and application writing, interviewing, and gaining and maintaining employment.

Payment Plans Available

Take Advantage of FCC's payment plan when you register for a series of required courses in a program. This allows you to divide your total cost into automatic monthly payments from either a checking/savings account or major credit card. The plan is interest free with a non-refundable enrollment fee of \$25. Ask about the payment plan when you register at the CE Registration Center (FCC Conference Center "E" Building), call 301.624.2888 or email CErequest@frederick.edu for payment plan inquiries.

Certified Nursing Assistant , Part I**CAH132 | 60 hours | \$854** (\$300 tuition + \$554 fees)  

Learn basic patient care skills, the role as a member of the health care team, disease processes, infection control and safety issues. Combined with the clinical sessions, this course meets all requirements to be eligible for CNA certification in the state of Maryland and prepares students for the Geriatric Nursing Assistant (GNA) test which is included in course costs. All tests must be completed and passed prior to starting the clinical sessions.

Certified Nursing Assistant, Part II**CAH133 | 60 hours | \$690** (\$300 tuition + \$390 fees)  

Part 2 is a continuation of Part 1.

Certified Nursing Assistant – Clinicals**CAH114 | 45 hours | \$648** (\$300 tuition + \$348 fees)  

Participate in supervised clinical rotations with experienced, certified nursing faculty in local health care facilities. Students interact with residents, performing all the duties and responsibilities of a nursing assistant. Individual skills and execution are evaluated daily.

Total Program Hours: 201**Total Program Cost with CPR: \$2,800****PHLEBOTOMY TECHNICIAN**

Interested in a healthcare career that makes you an integral part of a medical laboratory team? Phlebotomy technicians work in physician's offices, hospitals, clinical labs, and blood donation sites. Become familiar with all aspects related to blood collection and develop comprehensive skills to perform venipunctures completely and safely. Our program offers clinical practice with experienced phlebotomists at local healthcare facilities to give you hands-on experience. This program prepares students to take several national certification exams.

The full program includes classroom and both in-class and on-site clinical practice at local health care facilities. This program requires study time outside of class and includes both written and practical (hands-on) skills assessments, which must be passed prior to starting the clinical course. Background checks and materials are included. Textbooks are NOT included.

Registration Information: This course is not available for online registration. Registrations will be accepted in person at the CE registration center located in the Conference Center (E building) on FCC's main campus. For more information on this program contact FCC at 240.629.7904. **Payment plan available. Call 301.624.2888 for details.**

Prerequisites & other requirements:

- Placement into EN52 or ESL72 (Students will need to take placement tests in the college's Testing Center)
- Provide proof of being 18 years of age or older at time of registration.
- CAH145 – Foundations for Healthcare Careers

Other program requirements PRIOR to Clinical:

- Provide evidence of a negative TB test or chest X-ray.
- Undergo a physical examination and provide proof of up-to-date immunizations.
- Current American Heart Association Healthcare Provider or Basic Life Support CPR card or register for SAF157: CPR Basic Life Support.
- Undergo a background investigation. Fees for background check and fingerprinting are included in course fees.
- Students will receive paperwork for their physical exam, immunizations, and background check during the beginning of the Phlebotomy course, CAH483.

Textbooks

Foundations for Healthcare Careers**CAH145 | 36 hours | \$523** (\$229 tuition + \$294 fees)  

This course introduces students to important healthcare concepts and professional career development skills to prepare students for working in a healthcare setting. Students are introduced to medical terminology, the current healthcare system structure and essential concepts such as HIPAA, documentation and medical records, patient rights, cultural competency, workplace professionalism, healthcare ethics and legal responsibilities, environmental safety, infection control and medical terminology. Communication skills are practiced with special focus on customer service and interpersonal communication concepts. Students will also gain professional development skills in successful resume and application writing, interviewing, and gaining and maintaining employment.

Students must obtain certification in CPR: Basic Life Support (SAF157) prior to attending clinical for CNA/GNA, Phlebotomy or Sterile Processing externships. See page 32 for a list of dates.

HEALTHCARE CAREERS

Phlebotomy Technician Preparation I: Theoretical Applications

CAH483 | 30 hours | \$399 (\$299 tuition + \$100 fees)  

In Part I, Theoretical Applications, students learn basic phlebotomy technical background and professional preparation for working as a phlebotomist. Students are introduced to anatomy and physiology with special emphasis on the cardiovascular and lymphatic system, applicable medical terminology and an overview of healthcare settings where phlebotomy services are performed. Students learn and apply professional ethics and behavior; interpersonal and written communications, including cultural competency; systems of documentation; and safety and infection control. Students will develop knowledge and comprehensive skills to prepare them to perform venipunctures completely and safely as they progress to Part II: Practical Applications. The program prepares students to take a national certification with the American Society for Clinical Pathology.

Phlebotomy Technician Preparation II: Practical Applications

CAH484 | 45 hours | \$499 (\$399 tuition + \$100 fees)  

Phlebotomy Technician II: Practical Applications is a continuation of Part I: Theoretical Applications. In this course students learn to perform venipuncture and specialized phlebotomy procedures. Students are familiarized with blood collection equipment and selection, specimen handling and identifying complications related to blood collection and medical errors. Students train on a variety of procedures and techniques for typical and special populations clients. Special topics in specimen uses for testing in forensics, workplace and sports are explored. Hands-on skills practicums prepare students for the clinical course.

Phlebotomy Technician Clinical

CAH466 | 100 hours | \$625 (\$425 tuition + \$200 fees)  

Participate in 100 hours of supervised clinical rotations with experienced phlebotomists in local health care facilities. Students will perform 100 supervised venipunctures. Individual skills and execution will be evaluated daily.

PHLEBOTOMY OPTION

CAH145 | 36 hours | \$523 (\$229 tuition + \$294 fees)

DENTAL ASSISTING & DENTAL RADIOGRAPHY

Professional Preparation in Healthcare

CAH494 | 7.5 hours | \$85 (\$65 tuition + \$20 fees)  

Learn the essentials of becoming successful as a student and employee in today's healthcare systems. Topics include communication, working well on teams, respecting and valuing differences, and the importance of professionalism. Discuss the availability of healthcare careers in the local region, marketing your skills to potential employers, resumes, application letters and how to prepare for interviews

Note: This course is the prerequisite to Introduction to Dental Assisting. This course is available for online registration. Registrations will also be accepted in person at the Conference Center (E building) on FCC's main campus. For more information, contact FCC at 240.629.7904. **This class will be located at Carroll Community College, Westminster, MD.**

Introduction to Dental Assisting

CAH495 | 40 hours | \$745 (\$600 tuition + \$145 fees)  

Participants will have entry-level dental assisting skills upon successfully completing this course, which is approved by the Maryland State Board of Dental Examiners. Topics include terminology, anatomy, charting and medical history, instruments, four-handed dentistry, restorative materials, oral hygiene, infection control, sterilization, and OSHA regulations. This hands-on course provides practice on equipment in a dental operator/lab and practice using dental software. Prerequisite: Professional Preparation in Healthcare. Course includes an online component; internet access required.

Note: Prerequisite: CAH494 Professional Preparation in Health Care. This course is not available for online registration. Registrations will be accepted in person at the Conference Center (E building) on FCC's main campus. For more information, contact FCC at 240.629.7904. **This class will be located at Carroll Community College, Westminster, MD.**

Oral Radiography with Clinical

CAH496 | 39 hours | \$855 (\$585 tuition + \$270 fees)  

Further your dental assisting career and prepare to sit for the DANB Radiation Health and Safety exam. This course is approved by the Maryland State Board of Dental Examiners. Completion of a three-hour, hands-on clinical practicum is required. You may complete your clinical at your place of employment or at the Maryland State Dental Association. Course includes an online component; internet access required.

Register for this section if you will be completing your clinical requirements at the Maryland State Dental Association. Clinical session scheduled individually at a date/time mutually convenient to student and instructor.

Note: Prerequisite: You must either be working as a dental assistant or have proof of successful completion of a basic dental assisting course. **This class will be located at Carroll Community College, Westminster, MD.**

Oral Radiography

CAH497 | 36 hours | \$705 (\$563 tuition + \$142 fees)  

Further your dental assisting career and prepare to sit for the DANB Radiation Health and Safety exam. This course is approved by the Maryland State Board of Dental Examiners. Completion of a three-hour, hands-on clinical practicum is required. You may complete your clinical at your place of employment or at the Maryland State Dental Association. Course includes an online component; internet access required. **Register for this section if you are currently employed as a dental assistant and will be completing your clinical requirements at your place of employment.**

Note: Prerequisite: You must be employed as a dental assistant and employer must be willing to oversee clinical requirements at place of employment. **This class will be located at Carroll Community College, Westminster, MD.**

Medical Billing and Coding: Online 

Medical billing and coding is one of the fastest-growing careers in the healthcare industry today! The need for professionals who understand how to code healthcare services and procedures for third-party insurance reimbursement is growing substantially. Physician practices, hospitals, pharmacies, long-term care facilities, chiropractic practices, physical therapy practices, and other healthcare providers all depend on medical billing and coding for insurance carrier reimbursement. This billing and coding program delivers the skills students need to solve insurance billing and coding problems. This course is designed to prepare students to sit for various national certification exams including those from the American Academy of Professional Coders (AAPC) and the American Health Information Association (AHIMA).

Note: This course is not available for online registration. Registrations will be accepted at the FCC's main campus, E Building. For more information, contact FCC at 240.629.7904. Prerequisite of Medical Terminology required.

CAH244 | 80 hours | \$1,699 (\$300 tuition + \$1,399 fees)

FOREIGN LANGUAGES – ONLINE

Beginning Conversational French 

This course will teach you how to communicate easily and comfortably with those who speak French. You'll learn practical, common phrases that will make your trip to the many French-speaking regions of the world more pleasant. Each lesson introduces a scenario, presented in short dialogues. You'll be able to practice and learn both sides of the conversation, so you'll easily understand and expect common responses. Every lesson also has cultural tips, which will make you more comfortable in a foreign setting. Since proper pronunciation is important to good communication, this course will help you master the best pronunciations. Simply click on each word to hear it spoken! Every word and sentence is also written out phonetically using sounds that you are already very familiar with from English words. This course has been carefully crafted to ensure you will have no trouble pronouncing French words correctly. This course makes learning French fun and surprisingly easy. You'll be pleased with your quick progress, and you'll be prepared for your next trip!

PERSONAL ENRICHMENT

Instant Italian

This dynamic course will teach you how to express yourself comfortably in Italian. You'll learn practical, everyday words and phrases that will make your stay in Italy more enjoyable. You'll read, hear, and practice dialogues based on typical situations that you're likely to encounter while staying in Italy. The dialogues and follow-up exercises of each lesson will teach you to communicate in Italian in a wide variety of settings. You'll be surprised by how quickly and easily you can learn many useful expressions in Italian! Essential words and phrases are written phonetically by using sounds that are familiar to you from English words. The course audio feature lets you hear the words and phrases spoken aloud with just a click of your mouse. Short exercises are included with each lesson to help you reinforce what you've learned and gauge your progress, making it easy to pinpoint areas that you still need to review. The exercises also give you immediate feedback—you'll know whether you answered correctly as soon as you finish. You'll be pleased at how quickly this course helps you build your skills, and prepares you for your next adventure in Italia.

NEW! Introduction to Mindful Eating

This five week course is designed to introduce participants to the ideas, principles and practices of Mindful Eating. Through hands-on exercises, meditation and lectures, participants will learn about and experience Mindful Eating first hand. Mindful Eating is a non-diet approach to healthy eating. It isn't about what foods to eat; it is about how to eat. This shift in perspective fosters an awareness of hunger and what the body wants and needs. By promoting body acceptance through a compassionate, non-judgmental approach to self-image, Mindful Eating using understanding and encouragement to create the environment for permanent, healthy eating modifications. Diets don't work—the vast majority of people who follow fad diets regain even more weight once they discontinue the diet. This course is designed to shift thinking away from diets to an awareness of our bodies, our environment and our food rules.

Secrets of Better Photography

Whether you have a digital SLR, a point-and-shoot camera, or something in between, you'll learn how to use it the way you want to in this hands-on course! You also have the opportunity to have your lesson assignments critiqued by our knowledgeable teaching team of professional photographers. You'll see how to choose the best photographic equipment for you and how to compose images with style. Exposure topics like aperture, shutter speed, metering, and ISO settings will all make sense as we break them down into simple concepts. If you want to work with manual exposure on your digital SLR, we cover that, too! We'll also explore natural and artificial lighting, freezing or blurring motion, portraiture, children's photography, pet photography, photojournalism, and digital editing options. Secrets of Better Photography is also an excellent class to prepare you for the more advanced class, Travel Photography for the Digital Photographer.

Mystery Writing

This course will teach you the techniques you need to know if you want to become a best-selling mystery author. Mystery Writing begins by introducing the four story types and then explains how they relate to mysteries. It then reveals the three-act story structure, which is any story's key to success. Next, it shows you how to propel the action forward to a climax, followed by a catharsis in which your readers feel the release of tension that accompanies a great finish. And you'll write a complete scene from your story and learn the internal structure that makes every scene feel right. Finally, you'll delve into the special techniques that apply to mysteries, including crime scene description, MacGuffins, and the use of red herrings to misdirect your readers and create suspense. Follow the guidelines taught in this course, and you'll be well on your way to writing a successful mystery of your very own!

Notes: Lessons are designed for ages 6 through adult; students under age 6 may study with permission of instructor. Students supply practice instruments.

FCC Music Ensembles

JOIN AN ENSEMBLE

Participating in an ensemble is a unique and valuable opportunity. Using and expanding upon techniques learned in private lessons, players of all ages gain a special sense of motivation, camaraderie, and accomplishment while preparing for and then performing in an on-campus community concert.

FCC Jazz Ensemble

Join FCC's Jazz Ensemble and perform the best in big-band jazz. (Some prior experience in ensemble playing necessary.) Guest artists jam with the group and outside engagements bring additional chances to perform.

MUS100 | 32.5 hours | \$159 fee

INSTRUCTOR: **Howard Burns**

3443 W 7:45–10:10pm 2/8–5/10* FCC/F109
*No class 3/29.

FCC Flute Ensemble

An FCC favorite, this ensemble has been producing memorable concerts for over 15 years. This group enjoys playing a variety of styles from classical favorites to jazz and world folk music, incorporating a full range of voices from piccolo to alto and bass flutes. Join us, as we celebrate our flute community. The class is open to both young musicians and adults at intermediate to advanced levels.

MUS118 | 19.5 hours | \$145 fee

INSTRUCTOR: **Jennifer Rundlett**

3440 W 7:45–9:15pm 2/8–5/10* FCC/F105
*No class 3/29.

FCC Wind Ensemble

Join FCC's Wind Ensemble and play great original concert band music by leading composers, and transcriptions of classics and standards. The class is open to college and community players with previous experience in high school or college/university bands, and to high school band players, with the director's permission. Solo opportunities are available to qualified players. Even if you haven't played recently, join the band and improve along with us!

MUS123 | 32.5 hours | \$159 fee

INSTRUCTOR: **Aaron Lovely**

3445 W 6:30–9pm 2/8–5/10* FCC/F145
*No class 3/29.

FCC Percussion Ensemble

FCC's Percussion Ensemble takes full advantage of FCC's Percussion Studio and its vast array of instruments. The Ensemble is open to all musicians with a love of percussion. In addition to performing standard percussion repertoire and transcriptions of rock, jazz, and popular music, the group explores percussion music from around the world. Ability to read music required. Previous ensemble experience on drums, keyboard, or auxiliary percussion recommended, but not required.

MUS126 | 19.5 hours | \$145 fee

INSTRUCTOR: **Gregory Herron**

3332 M 6:30–8pm 2/6–5/19 FCC/F146

FCC Guitar Ensemble

From Bach to Bluegrass, this group will explore the masterworks for the classic and mixed guitar ensemble. Come join the fun of playing in duets, trios, quartets, and larger groups. This course is designed for students with some note reading experience, playing in first position, and reading basic rhythmic patterns. Students must provide their own instrument.

MUS131 | 19.5 hours | \$145 fee

INSTRUCTOR: **Mark Edwards**

3449 F 5:30–7pm 2/10–5/12* FCC/F109
*No class 3/31.

FCC Handbell Choir

Meet fellow music lovers by experiencing the joys and challenges of Handbell Choir. This group is open to adult and student musicians of all ages. Prior participation in a music ensemble (choir or instrumental group) is required; music reading skills are also required, especially the ability to count and read rhythms. The group will explore several bell and choir chime techniques through a wide variety of music from different time periods. Performance in on campus recital and other appearances in the community.

MUS132 | 19.5 hours | \$145 fee

INSTRUCTOR: **Barbara Scheffter**

3441 W 5:30–7:00pm 2/8–5/10* FCC/F105
*No class 3/29.

FCC Jazz Workshop: Introduction

This class is for those who are beginning their exploration of the world of Jazz. Discover the language of jazz improvisation and learn techniques for using jazz harmony and rhythms in an ensemble setting. Students should already be able to read music, play major scales on their instruments and possess some basic knowledge of music theory application on your instrument. All instrumentalists welcome—any instrument you like to groove on!

MUS133 | 26 hours | \$159 fee

INSTRUCTOR: **Anita Thomas**

3331 M 7:30–9:30pm 2/6–5/8* FCC/F145
*No class 3/27.

FCC Jazz Workshop: Advanced

Be part of the advanced FCC jazz workshop. This class is a continuation of beginner jazz workshop. As students will work on more complex songs and harmonic concepts they must be able to read music, play all major and minor scales on their instrument and already have knowledge of music theory including scales, arpeggios and chord symbols used in jazz. Previous experience in jazz ensemble playing is necessary. All instrumentalists welcome—any instrument you like to groove on!

MUS134 | 26 hours | \$159 fee

INSTRUCTOR: **Anita Thomas**

3330 M 5–7pm 2/6–5/8* FCC/F145
*No class 3/27.

Youth Programs

STUDY SKILLS & TEST PREPARATION

S.A.T. Prep – Math Review

Prepare for the S.A.T. by gaining the benefits of an individualized, tailored, and semi-private S.A.T. preparation course. Improve test-taking skills while reviewing geometry, algebra, and mathematics in general. Please bring a calculator and the latest edition of the Barron's S.A.T. book to the first class. In order to achieve the best results, practice homework assignments will be given for extra review between sessions. Limited enrollment to ensure small student to teacher ratio.

Youth Program Guidelines

Emergency Contact Form

Required for all courses and must be completed before a child can participate in a program, this form is completed online as a part of the registration process. If, for any reason a form is not on file for your child, one will be provided at the beginning of the first day of class to be completed and signed by an authorized guardian.

CLASSES: Pick Up/Drop Off Procedures

Students may be signed in and dropped off no more than 10 minutes before class begins. Students must be picked up promptly at the end of class.

Students ages 4 to 12

- Children must be signed in and out from their classroom by an authorized adult.
- The college will only release your child to those listed as "authorized" on the Parental Consent Agreement.

Teen Students age 13 and over

- With a signed Pick-Up Authorization Form on file, teens may sign themselves out.
- Pick-Up Authorization Forms are available by contacting Kidsoncampus@frederick.edu or calling 301.846.2661.
- Without a signed Pick-up Authorization Form on file, teens must be signed out of class by an authorized adult.

Marketing/Campus Photography

As Frederick Community College is a public institution, students, employees and visitors may be photographed and appear in marketing materials without prior permission. To that degree, children may be photographed or videotaped while at FCC. If you wish to have your child(ren) excluded from these activities, please indicate this request on the KOC/TOC Emergency Contact Form.

HOMESCHOOL ENRICHMENT

ARTS

NEW! American Folk Art for Homeschool Students

From tin punch to quilt patterns, barn hex signs to Colonial weather vanes, it is time to discover folk art! Students will discover a variety of aspects of folk art, including its historical beginnings in America, patriotic symbolism as well as functional decorative items. Using painting, design and drawing skills, create representations of this beloved art form from Colonial to Civil War times.

AGES 10-14

HSE205 | 12 hours | \$119 fee

INSTRUCTOR: **Jeanne McDermott**

3313 F 12pm - 2pm 1/13-2/17 FCC/F131

NEW! Illustrated Art History for Homeschool Students

This class is sure to inspire as you learn about famous artists and art movements throughout history. Starting with ancient cave paintings and traveling through history, discover Greek and Roman structures, Egyptian cartouche designs, Celtic spiral prints, medieval castles and coats of arms, French Impressionism and Spanish abstract art. Students will design, draw and paint projects that portray these time periods and cultures. At the end of class, students will take home a portfolio that reflects examples of historical art.

AGES 12-16

HSE206 | 12 hours | \$119 fee

INSTRUCTOR: **Jeanne McDermott**

3359 F 12pm - 2pm 3/3-4/14* FCC/F131
*No class 3/31.

HISTORY, LITERATURE, WRITING & LANGUAGE

NEW! Colonial America: History and Literature for Homeschool

This unit focuses on the early years of American settlement prior to the Revolutionary War. From Roanoke to the eve of revolution, the class will explore the life and times of the 13 colonies. Participants should be prepared to read two middle grade historic fiction novels independently. Class will include book discussion and a mix of complementary activities. For information and book title, please contact instructor at abarbee@frederick.edu. Additional materials will be provided.

AGES 11-15

HSE353 | 12 hours | \$119 fee

INSTRUCTOR: **Adrienne Barbee**

3314 F 10am - 12pm 1/13-2/17 FCC/E125

Creative Writing for Homeschool Students

Spark your creative fire as you discover the science of how the brain reacts to stories, how to hook readers from the very first page and how to keep them enthralled long past the end of the story. While exploring short stories, poetry and creative non-fiction, learn tricks to mastering the essentials of good story composition. Through games and activities, explore great writing fundamentals such as premise, character, theme, inner and outer conflict, and outline. Weave these together with elements of style and form, fundamental vocabulary and basic skills and you'll create the perfect masterpiece.

AGES 9-14

INSTRUCTOR: **Jay Wilcox**

3315 F 2pm - 4pm 3/10-4/21* FCC/E125
*No class 3/31.

Fall in Love with Shakespeare: A Midsummer Night's Dream

Maybe you think the old-fashioned language is boring, or too hard, or just plain stupid. Maybe you don't see any relevance to modern life in the wacky doings of some fusty old Englishman's fictional goofballs. Surprise! Let Suz introduce you to the Bard and his works, which are just as vibrantly alive, thrilling, exciting, horrifying, surprising and hysterically funny as they were to their original Elizabethan audiences. Meet a royal court of Faeries, an ancient Greek hero and a sweetly endearing group of dimwits, not to mention a quartet of love-struck teenagers, all stumbling about the woods on a moonlit midsummer night. You will come away utterly enchanted.

AGES 13-16

HSE184 | 9 hours | \$99 fee

INSTRUCTOR: **Suzanne Thackston**

3355 F 10:30am - 12pm 3/17-4/28* FCC/E104
*No class 3/31.

NEW! Revolutionary War: History and Literature for Homeschool

This unit focuses on the Revolutionary War. A tumultuous time period, the class will look at the birth of our nation. Participants should be prepared to read two middle grade historic fiction novels independently. Class will include book discussion and a mix of complementary activities. For information and book title, please contact instructor at abarbee@frederick.edu. Additional materials will be provided.

AGES 11-15

YOUTH PROGRAMS

SCIENCE & MATH

NEW! Dissection Science for Homeschool Students

Discover the exciting world of dissection. Students will perform both hands-on and virtual dissections in order to learn the various techniques of dissection, as well as learn the anatomy of different large-size animals. Students will dissect the following specimens: frog, perch, crayfish, grasshopper, earthworm, clam and starfish. Fees include tools and specimens for dissection.

AGES 13-17

HSE303 | 12 hours | \$139 fee

INSTRUCTOR: Lisa Duckworth

3316 F 1:30pm - 3:30pm 1/13-2/17 FCC/C237

High School Chemistry for Homeschool Students – Part C

Must be currently taking or have completed Algebra 1. This course will provide an overview of the basics needed to provide depth of understanding in chemistry. The course is divided into nine week trimesters, Parts A, B and C. Combined, the trimesters are intended to provide the student with a full year of credit in high school chemistry. Each class will meet for three hours per day. Part C will cover the following units: Atomic Theory & Structure; Chemical Bonding; Gas Law; Electrochemistry. The course will consist of lecture, laboratory work in a chemistry lab equipped with gas jets and a fume hood, class activities and required homework. Students are expected to complete all assignments and be prepared for class each week. Attendance in class is extremely important and it is the student's responsibility to make up any missed work. Access to a computer outside of class is necessary for online classroom accessibility. Students will receive grades and will be based on the following: Labs and Minilabs 50%, Quizzes and Tests 25%, Classwork and Homework 25%. Required Text: Prentice Hall Chemistry by Antony C. Wilbraham, 2005 edition ISBN: 0131152629. Required Lab Manual: Prentice Hall Chemistry by Antony C. Wilbraham ISBN: 0131903594. Required: Lab Apron and Goggles; All students must wear closed toe shoes to class.

AGES 15-17

HSE302 | 27 hours | \$212 fee

INSTRUCTOR: Lisa Duckworth

3358 F 9am - 12pm 3/10-5/12* FCC/C237

*No class 3/31.

NEW! Science Art for Homeschool Students

Students will discover science through art and art through science as they explore basic science concepts while creating amazing art projects. Projects include Pendulum Painting, Marbleizing Paper with Shaving Cream, the Science of Color Chromatography and Tie Dye, and Explosive Art.

AGES 7-9

HSE304 | 6 hours | \$75 fee

INSTRUCTOR: Lisa Duckworth

3361 F 1:30pm - 3:30pm 3/10-3/24 FCC/C237

NEW! Fairy Tale STEM for Homeschool Students

Students will design and create engineering and building projects based on fairy tale themed problems. Build a parachute to help Jack escape the giant, construct a toothpick house for the Three Little Pigs, design a wind-powered coach for Cinderella to get to the ball and create a raft for the Billy Goats Gruff to cross the river.

AGES 7-9

HSE305 | 8 hours | \$89 fee

INSTRUCTOR: Lisa Duckworth

3317 F 1:30pm - 3:30pm 4/7-4/28 FCC/C237

SATURDAY YOUTH CLASSES

Design And Sew Like A Professional

No sewing experience is required in this class where you will learn how to safely and confidently operate a sewing machine and make trendy projects that look like you have been sewing for years! Learn how to creatively use straight stitches while you design and make a one-of-a-kind faux knitted scarf. Try your hand at a creative project where you will learn an interesting twist on how to sew on a patch! You will complete all these projects and perhaps a few more if time permits. Have fun, be creative, and learn something new!

AGES 8-12

YOS249 | 12 hours | \$109 fee

INSTRUCTOR: Deborah Parsons

3312 S 9am - 12pm 2/4-2/25 FCC/E106

NEW! Design and Sew: Tote-ally Cool Tote Bags

Using your imagination, colorful fabrics and basic sewing skills, design and create tote bags that will have your friends and family calling you an old sew-&-sew...and you'll love it! Basic sewing skills and previous sewing machine experience are encouraged.

AGES 8-12

YOS250 | 6 hours | \$59 fee

INSTRUCTOR: Deborah Parsons

3363 S 9am - 12pm 5/6-5/13 FCC/E106

T-Shirt Transformations

Re-use, restyle and re-love your old and worn T-shirts when you transform them into wonderful additions to your wardrobe or home. We will provide an assortment of T-shirts but feel free to bring your own as well. Once more with feeling!

AGES 8-12

YOS251 | 6 hours | \$59 fee

INSTRUCTOR: Deborah Parsons

3378 S 9am - 12pm 3/18-3/25 FCC/E106

One Day Safe Sitter Training with CPR

Good babysitters are always in command and this class will help you gain skills needed to do the job well. This one day condensed curriculum designed for busy schedules includes babysitting business ideas, child care essentials, safety for the sitter, injury management and preventing problem behavior. Students will also learn how to perform infant and child choking rescue and child CPR. A certificate will be awarded at the conclusion of the class. Students should bring a bag lunch.

AGES 11-15

YOS635 | 6.5 hours | \$75 fee

INSTRUCTOR: **Justin Gruber**

3375	S 9am - 4pm	2/4	FCC/E124B

FCC's Adult Education Program

Adult Basic Education & High School Diploma Preparation for adults and out-of-school youth 17 and over.

High School Diploma Preparation Classes

Preparing for your high school diploma?

Adults and out-of-school youth 17 or older can get ready to test for a Maryland high school diploma.

Adult Basic Education Classes

Need to build basic skills in reading, writing or math?

The Adult Education Program offers small classes, friendly instructors, and a relaxed atmosphere.

Take the first step by attending a free high school diploma orientation session.

Date	Time	Location
1/2/17	6:30pm	FCC, E124A
1/4/17	9am	FCC, E124B
1/10/17	6:30pm	FCC, E124A
2/4/17	8am	FCC, A102D

Did you know?

The State of Maryland offers two diploma options for adults and out-of-school youth.

> Pass the GED® exam

Take and pass all four sections of the GED® test – Language Arts, Math, Science, and Social Studies to receive a Maryland high school diploma. More information at: www.gogedgo.org.

> Complete the National External Diploma Program

Earn a traditional high school diploma through NEDP's innovative approach. If you qualify, you can work from home, the library, or wherever you have a computer. The program is flexible and confidential and can be completed in 6 to 12 months. Use the skills you've gained from life and experience to demonstrate your high school level skills. More information at: www.casas.org/nedp

English as a Second Language (ESL) at FCC

FCC offers ESL courses for immigrants, international students, and professionals who want to improve their English language skills. With three programs to choose from, we are sure you will find the right class for you!

Basic ESL

- Free classes for students who need to learn basic English
- Courses teach students English for life and work:
- Improving day-to-day communication
- Understanding American culture
- Functional skills like using money, shopping, reading signs, etc.

Targeted ESL

- Fee-based classes for students who have an intermediate or higher level of English.
- Courses focus on specific English skills: for example, oral skills development, reading, writing, and grammar.
- Courses are designed to transition students from basic English to formal professional or academic English.

Academic ESL (credit)

- Tuition-based classes for students with high-intermediate or higher proficiency in formal English.
- Courses focus on developing academic English in grammar, reading, writing, speaking, and listening.
- Courses are designed to prepare students for the rigor of degree programs and/or professional communication.
- Students may be eligible for federal financial aid.
- These courses count toward credit requirements for F-1 visas.

For information about Academic ESL, refer to the college's credit course catalog or online schedule at frederick.edu.

Basic ESL

FCC's basic ESL program provides instruction in reading, writing, listening, speaking, grammar, vocabulary, and pronunciation skills. Courses are for students 17 years of age or older who have had little or no English training, and who are NOT enrolled in high school.

We offer:

- Caring teachers who work hard to make your English language learning successful
- A program of study that meets your needs
- Skill evaluation and testing at the beginning and end of all classes
- Certificates issued upon successful completion of your courses

Orientation Schedule

Take the first step by attending a free orientation session.

Date	Time	Location
1/3/17	9am	FCC/E107
1/4/17	6:30pm	FCC/L115
1/5/17	6:30am	Frederick High School
1/7/17	9am	FCC/E108
1/30/17	6:30pm	Frederick High School
2/1/17	9am	FCC/E108
2/4/17	9am	FCC/H250
2/6/17	6:30pm	Frederick High School
2/7/17	6:30pm	FCC/H261
2/13/17	6:30pm	Frederick High School
2/16/17	9am	FCC/C209
2/22/17	6:30pm	FCC/E109
4/5/17	9am	FCC/E107
4/6/17	6:30pm	FCC/H261
4/11/17	9am	FCC/C209
4/12/17	6:30pm	FCC/L115

Orientations take approximately three hours to complete and are given in two parts (the date for part two will be given out at part one). Saturday orientations last approximately 5 hours. You do not need to register for an orientation. (Childcare is NOT provided; please, no children at orientation.)

Most classes are held two times per week for three hours and are offered at a variety of times including day, evening, and Saturday options at multiple locations throughout the county, including:

- Frederick Community College, main campus
- FCC's Monroe Center on Monroe Avenue
- Frederick High School

New classes begin about every 10 weeks. All Basic ESL classes are free.

REGISTRATION INFORMATION

REGISTER ONLINE

Frederick.edu/QuickEnroll

- **Sign In** or create a new student profile*
- **Browse** by category or use the search feature. Click on class titles for descriptions and details.
- **Register** by clicking "Add to Cart," then "View Cart" and select "Check Out" to submit payment. Two separate emails will then confirm payment has been received and registration is complete.
- **Online Classes** After registering for an online class, a third communication will arrive (up to 48 hours prior to the class start date) with details and steps to access your online classroom.

Important Notes

- Courses requiring prerequisites and/or program manager approval may not be available for online registration. See individual course details for complete information.
- To pay for classes by cash, check, or money order, please register in person in our new Registration Office in the Conference Center.

**If you registered for a class since June 2014, an online profile is reserved in your name. Please do not create a new profile and call 301.624.2888 to complete the set-up process. Thank you.*

REGISTER IN PERSON

CEWD Registration Office - Conference Center - E Building

The Continuing Education & Workforce Development Registration Office is located in the Conference Center (E-113). Visit us for assistance with online registration and to register in person.

M-Th 8:30am - 7pm • F 8:30am - 4:30pm
301.624.2888 • CEInfo@Frederick.edu

Please continue to visit Jefferson Hall (J Building) for student services including Admissions, Counseling & Advising, and Financial Aid. Learn more at frederick.edu (keyword: admissions).

FEES

Registration Fee - An \$8 one-time-per-year, non-refundable registration fee is due at the time of registration. This fee is only refundable when FCC cancels a class for which the student paid the registration fee and the student has not enrolled in any other classes during the period.

Out-of-County Tuition

Tuition - Maryland students residing outside of Frederick County are charged an additional \$5 per class. Non-Maryland residents are charged an additional \$10 per class.

REGISTER FOR ONLINE CLASSES

Continuing Education & Workforce Development offers a variety of affordable and convenient education, professional development and job training opportunities via the internet 24 hours a day, seven days a week. Prior to registering for an online course, be sure to review individual course requirements for each class.

Technical Requirements

Internet access, email and Internet Explorer or Mozilla Firefox browser.

TO REGISTER AND ACCESS YOUR CLASS

- Visit frederick.edu/QuickEnroll and scroll to "Online Classes" in the far right column
- Click a subcategory and then a course title for class details
- To register, click "Add to Cart" (first-time users will be prompted to create a new student profile)
- Submit payment (debit or credit card)
- Two separate emails will confirm your payment and registration. An additional confirmation will arrive (up to 48 hours prior to your class) with details and steps to access your online classroom.

Blackboard

The courses below provide instruction through Blackboard, an online learning management system. Access to these classes is provided to registered students 48 hours prior to the class start date.

- AutoCAD: DRF104, DRF124
- Building Trades: ELC167, ELC168, ELC166, ELC169, HVC121, HVC126, HVC128, HVC127
- Business: SMB114
- Child Care: CHI113, CHI114, CHI131, CHI148
- Hospitality: HCT101, HCT102

ADDITIONAL ONLINE COURSES

Students registering for the online courses below will receive an email with information on accessing the online component upon registration, or within 48 hours prior to the class start date.

- Pesticide Use & Safety: CPD381 - CPD390
- Child Care: CHI151 and CHI300-CHI336
- Medical Billing & Coding: CAH244
- Real Estate: REA353 - REA356

DROPPING A CLASS

Students who choose to drop a CEWD class will receive a full refund, excluding registration fee, provided that they initiate the drop at least one business day before the beginning date of the class, with the exception of Kids on Campus/Teens on Campus classes which require students to drop two business days prior to class start date. Students electing to drop a class can do so by completing the CEWD Drop/Transfer form available at https://frederick.augusoft.net/Customers/Frederick/files/CEWD_2016_Drop_Transfer_Form.pdf. This form must be submitted to the CEWD Registration Office located in the FCC Conference Center, Building E, by email to CERequest@frederick.edu, or by fax at 301.624.2749. Students may choose to transfer their funds toward an alternate class.

Please note, refunds are determined based on the date a request is received. Exceptions to this policy must be requested in writing to the Vice President of Continuing Education & Workforce Development and are made on a case-by-case basis. Contact us with questions at 301.624.2888.

COURSE REFUND POLICY

If FCC cancels a class, all applicable tuition and fees are refunded to students. If a student wants to withdraw from a class and receive a refund, please see the "Dropping a Class" section. Online payments made by credit and debit card are refunded directly to student's credit or debit card account. Refund for payments made by credit cards (other than online payments), cash, check, or a money order will be mailed to the student.

Please note, refunds are determined based on the date a request is received. Exceptions to this policy must be requested in writing to the Vice President of Continuing Education & Workforce Development and are made on a case-by-case basis. Contact us with questions at 301.624.2888.

SENIOR CITIZEN STUDENTS

Tuition on select eligible courses is waived for Maryland residents 60 years of age and older. Associated course fees (books and/or supplies) may still apply and are due at the time of registration. Eligible courses are identified by the "SW" icon following course descriptions. Please contact FCC Student Accounts at 301.846.2658 for assistance or additional information.

DISABLED AND RETIRED STUDENTS

Permanently disabled Maryland residents out of the workforce are exempt from payment of tuition for classes designed to assist in securing employment as defined in Section 16-106 Education Article, Annotated Code of Maryland. Eligible individuals may take up to 12 credits per semester when enrolled in a degree or certificate program designed to lead to employment. Otherwise, individuals may enroll in classes equating to 6 credits per semester. To receive a disabled and retired waiver of tuitions, students are required to:

- Provide certification of total and permanent disability from the Social Security Administration, the Railroad Retirement Board, or Federal Office of Personnel Management.
- Submit payment of course fees (required to hold classes).

For additional information and assistance, contact us at 301.846.2480 or visit frederick.edu (keyword: Continuing Education Payment Options).

TUITION PAYMENT PLAN

Students in select Continuing Education & Workforce Development programs (noted below) may enroll in an interest-free Tuition Payment Plan whereby participants authorize FCC to collect a pre-determined monthly payment from a checking account, debit card or credit card. A \$25 non-refundable enrollment fee is required to participate.

Tuition Payment Plan Programs include:

- Certified Nursing Assistant (CNA)
- Commercial Driver's License - CDL Class B Training
- Dental Assisting
- FastTrac NewVenture
- Frontline Leadership
- Home Inspection Pre-Licensure
- Medical Billing & Coding
- Pharmacy Technician
- Personal Trainer
- Phlebotomy

For additional information and assistance, contact us at 301.624.2888, by email at CEInfo@frederick.edu, or visit frederick.edu (keyword: Tuition & Fees).

REGISTRATION INFORMATION

BILLING ARRANGEMENTS

Full payment of tuition and fees or third-party payment documentation must accompany the completed registration form(s). Students are individually responsible for payment of tuition, fees and all other charges. If the college does not receive payment from third parties, students will be billed directly for all charges and are expected to pay.

Employees of businesses that operate within Frederick County are eligible for in-county tuition, regardless of their legal domicile. The employee must provide verification of current employment from the human resources office of the Frederick County business at the time of registration.

COURSE ENROLLMENT – REGISTER EARLY!

Maximum enrollment – Every class has a maximum number of students that may enroll and popular classes fill quickly.

Minimum enrollment – Low enrollment may result in a class cancellation. These decisions are typically made three business days prior to the class start date.

COURSE CHANGES

The college reserves the right to make changes in any course or class due to unforeseen circumstances.

BOOKSTORE (STUDENT CENTER, ROOM H-117)

Continuing Education textbooks can be purchased a week prior to the class start date.

Monday - Thursday 8:30am - 7pm
Friday 8:30am - 1pm

SERVICES FOR STUDENTS WITH DISABILITIES

The college provides support services to maximize independence and encourage the integration of students with disabilities into all areas of college life. The particular needs of each student are considered on an individual basis. Students with disabilities are encouraged to contact the Services for Students with Disabilities office as early as possible after applying for admission. Call 301.846.2408. Reasonable accommodations, based on documentation, are then offered to qualified students for courses and placement testing. Students in need of sign language interpreting services should contact the office two weeks prior to the beginning of classes to ensure services are in place.

Requests for sign language interpreting may be made to the Coordinator for Deaf/Hard of Hearing Services at 301.846.2476 (Voice) or via email at interpreting@frederick.edu.

CONTINUING EDUCATION RECORD

Please contact the Welcome Center in writing to obtain a copy of your noncredit course record. Course records contain a student's complete noncredit course history as of July 1, 2001. Beginning fall 2004, the record also records whether a CEU-bearing course was successfully completed.

The Continuing Education Certificate is an informal award (does not count towards a degree or academic certificate requirements) offered by Frederick Community College. The certificate is awarded in identified noncredit instructional areas for individual courses or an identified sequence of courses generally totaling 90 or more hours of instruction leading to an occupational objective. Instruction typically consists of noncredit learning experiences but may also include credit coursework.

FAMILY EDUCATIONAL RIGHTS & PRIVACY ACT OF 1974 (FERPA)

FERPA, commonly known as the Buckley Amendment, was issued by the Department of Health, Education and Welfare in the 1976 Federal Register. The regulations were transferred to the Department of Education when it was established and codified in Part 99 of Title 34 of the Code of Federal Regulations.

The purpose of FERPA is to afford certain rights to students concerning their educational records. FERPA applies to all schools that receive funding under most programs administered by the Secretary of Education. Most post-secondary institutions, both public and private, generally receive such funding and must, therefore, comply with FERPA. FERPA applies to all education records maintained by a post-secondary institution, or by any party acting for the institution, which are directly related to the student. These include but are not limited to assessment test scores, academic standing, rosters, class schedule, or any information that would make the student's identification easily traceable. FCC may release directory information, which includes student's name, dates of attendance, and enrollment status—see the FCC catalog for a complete list. Students wishing to restrict directory information must contact the Welcome Center (in writing) with their request. Contact the Welcome Center for additional information.

ALTERNATE CALENDARS

FCC continuing education classes are held at several off-campus locations. Each off-campus location is closed on specific dates for a variety of reasons (e.g., Parent-Teacher Night, special holidays, etc.). The first night of class, your instructor will discuss information about any holidays or closings which affect your classes.

CONTINUING EDUCATION UNITS (CEU)

The continuing education unit (CEU) was created to provide a standard unit of measure, quantify continuing adult education and training activities (non-credit), and serve the diversity of providers, activities, and purposes in adult education. One CEU equals ten contact hours of participation in organized continuing education/training experience under responsible, qualified direction and instruction. To receive CEUs you must attend a CEU-eligible class, attend at least 80% of the class, and meet all class requirements.

AGE REQUIREMENT

Students should be at least 16 years of age to enroll in most continuing education courses, except for those courses specifically designated for younger students. Students under the age of 16 who have completed at least the seventh grade may be permitted to enroll on a case-by-case basis. Students will be considered for such admission if they demonstrate the ability to profit from instruction based on a set of specific criteria. For more information, call the counseling office (301.846.2471).

Certain programs or courses of study include higher minimum age for participation when the college has determined that age is a factor necessary to the normal operation of the program or activity. Minimum age is used as a measure or approximation of the level of maturity, judgment and social independence needed for successful participation in the program or activity in addition to academic skills. [Authority: 34 CFR 110.12]

Certain programs offered by the Institute for Learning in Retirement are offered as special benefits for seniors, and include a minimum age for participation in the program or activity, as is permitted by federal law. Classes may be opened to other interested individuals if space is available. [Authority: 34 CFR 110.16]

COLLEGE POLICIES & PROCEDURES

All students agree to abide by the policies and procedures of Frederick Community College, including those concerning drug and alcohol abuse, weapons on campus, student conduct, classroom behavior, discrimination, grievance, and other policies and procedures. Students understand that not abiding by these policies and procedures will subject them to the penalties stated within. See frederick.edu for student policies and procedures and the Student Code of Conduct.

SCHOLARSHIPS

Scholarships are available for students who enroll in continuing education programs. Students interested in applying for Continuing Education scholarships should email foundation@frederick.edu and include CE scholarships in the subject line.
